M. C. Peters to Resign From Exemption Board

M. C. Peters, member of the district exemption board, has gone to Texas for recuperation after the

own desires, but because he is completely broken down by the strain and thinks a new man could take up the work better for the second draft.

"My father is almost a nervous wreck," said R. M. Peters yesterday. He is of the temperament that takes things to heart, so he has taken all the troubles of the claimants for exemption and their relatives on his shoulders. I do not know anything about his seeking to resign, however. For some weeks he has been at home resting and now has gone south for a change which it is hoped will help him. Before he took up the exemption board work he was in splendid health. Most of his co-workers on the board have been likewise impaired in health because of the strain.

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely eured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 244-D Marcellus Avenue, Mansaquan, N. J. Better cut ont this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.—Advertisement.
