

WOMEN'S KID GLOVES

Our Glove Department is more crowded than ever these days. It seems that our patrons are appreciating the fact that our stocks are complete, notwithstanding the difficulties in securing gloves and at a time when other stores have trouble in securing supplies. Also our prices are way below prices prevailing elsewhere. If we had not bought our gloves months and months ago, as far back as two years ago, we would not be able to quote prices as in the following items, which are only illustrative of the values prevalent in this department.
