Charles Edward Russell Says Newspapers Print "Wild Stories" Which Germany Circulates in Petrograd.

Des Moines, Ia., Nov. 10.—(Special.)—Charles Edward Russell, socialist lecturer and member of the Root commission to Russia, declared in an interview here that the Maximalists can no more control Russia than the I. W. W. can control the United States.

"There are spots in the United States where the I. W. W. is strong," he said, "but they have no influence in the country at large. The Holshewiki control Petrograd and they are fairly strong in Moscow, but outside of these two cities they are about as popular and influential as the I. W. W. is with the American farmer. The greatest influence for evil in Russia is not the Holshewiki nor is it the wonderful German espionage system which is at work in that country.

"It is the attitude of a majority of the newspapers of America, American editors print every wild story about Russia which comes into their hands. They publish editorials criticizing and denouncing Russia, based on falsehood and containing false conclusions. Every wild news story and every unfriendly editorial finds its way back to Russia and there does its mischief.

"I do not mean that the American press deliberately aids Germany," he continued. "It does not. The trouble is that every American editor has implanted in the dept of his being the instinct for a good story. He will publish anything if it makes good reading."

He declared that Germany is the greatest press agent nation on earth and the German publicity machine "has the newspapers in the hollow of its hand."

LESS MEAT IF BACK AND KIDNEYS HURT

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid which excites the kidneys, they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right or if bladder bothers you get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity, also to neutralize the acids in the urine so no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink, which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

Smooth Postal Swindle Nearly Succeeds in Lincoln

Lincoln, Neb., Nov. 10.—Swindlers operating on a gigantic scale with forged or counterfeit Cuban money orders were foiled when the Cushman Motor Works, of Lincoln, stopped payment on a sight draft for \$2401.10.

W. T. Irons, treasurer of the company, announced that some time ago a Cuban wrote to the Cushman concern, enclosing 25 \$100 money orders from San Diego, Cuba, for the ostensible purpose of establishing a credit. The orders were deposited at a local bank and a few days later the bank received a sight draft for \$2401.10, payable to the Cuban's credit at a New Orleans bank.

Thursday the local company honored the sight draft but payment was stopped by wire to New Orleans. This

was just a jump ahead of the Cuban who was waiting for it. The Lincoln plan was identical with the Kansas City and Omaha cases.

wound she seized her 2-year-old baby and ran from the house. She fell about 20 feet from the door, dead.
