

TWO AMERICANS KILLED IN ACTION ON FRENCH FRONT

General Pershing Reports Casualties in Action on November 13, Six Wounded, Three Severely.

Washington, Nov. 19.—General Pershing has reported to the War department that two men were killed in action on November 13. Three were severely wounded and three slightly wounded.

The casualties are:

Killed: SERGEANT JOHN F. CZAJKA, Milwaukee, Wis. PRIVATE STANLEY JANOVICZ, Boston.

Severely wounded: Privates Earl E. Aurand, Harrisburg, Pa.; Francis Blevins, Eckman, W. Va.; and Edward F. Cahill, Bakerton, Pa.

Slightly wounded: Sergeant John A. Logan, Mount Carmel, Pa.; Privates Chester Johnson, Forest Hill, La.; Robert L. Redd, Burneyville, Okl.

usal of employes to work under the Bolsheviki commissioners.

The newspapers which were suppressed in the early days of the uprising have in some instances been given permission to renew publication, although the status of the bourgeois press is still indefinite.

An order of arrest for M. Neratoff, former minister of foreign affairs, and other officials of the foreign ministry is reported to have been issued.

It is reported that the independence of the Ukraine has been declared and that the Finnish Diet has declared Finland an independent republic.

Removing Americans from Moscow.

Washington, Nov. 19.—Ambassador Francis, at Petrograd, reported to the State department in a message dated last Friday and received today that he had recommended that all unattached American women and American men accompanied by women and children leave the city. Arrangements had been made for them to travel on the trans-Siberian railroad in two special coaches.

The ambassador reported conditions in the Russian capital chaotic, but fairly quiet. There was no central head of government and the embassy dealt directly with the superintendent of passenger service of the railway in arranging for the removal of the Americans. The departments of government either were closed or being operated without their chiefs.

Mr. Francis said he feared no damage to the embassy, but conditions were so unstable that he deemed it best to get the Americans out if possible. Information at the State department indicates that there are in Petrograd about 200 Americans.

Russian Embassy Statement.

Basing their opinion on the statement of Lenin that the success of the Bolsheviki was dependent on a world-wide revolutionary movement by soldiers and workmen, officials at the Russian embassy today predicted that the followers of the Kerensky government would win either through a military victory or through the evident incapacity of the Bolsheviki to make good their promises to their followers.

No late news has been received at the embassy, but officials declared that the mention of Captain Pavloff as the commander of troops opposing the Bolsheviki was an encouraging sign. Captain Pavloff is said to be of the staff of the social democratic workmen's party and the opinion was expressed that this means that one of the strongest factions of the opposition had gone over to the moderates.

Italians Begin Offensive.

Italian forces have begun an offensive on the Asiago plateau and have occupied advanced elements of trenches, the war office announces today.

The statement reads: "Last night there was lively artillery activity between Lake Garda and Asiago."

"On the Asiago plateau the enemy made violent concentrations of fire on our positions at Monte Tonbercar and Monte Badenecche without following up with any infantry attack. Our parties in new offensive operations recaptured elements of trenches, capturing six officers and 202 men."

"South of Quero enemy forces in great numbers are attacking our Monte Monfenera and Monte Tomba lines."

"On the plains the vigilance of our troops has stopped the enemy from renewing any attempt whatsoever to cross the Piave."

"Among our troops the following deserve to be specifically mentioned for valor shown during these last days: Bersaglieri battalions in the Fagare zone and the Granotieri and Catania brigades at the Zenson loop."

"Enemy troops repeatedly were bombarded in the course of the day by our airplanes, and in the night in spite of a strong wind, by our airships at the basin of Primolano, to the northwest of Susegana, and at Tezze di Livenza."

Fearful Carnage When Germans Try To Cross the Piave

men waded across in water above their waists. In their first surprise rush they swept past four Italian machine gun batteries, capturing the guns and driving the Italians back into the village of Fagare.

Most of the enemy fell along the water's edge and an observer who saw the gruesome sight says the bodies on the river bank and in the water reminded him of seaweed after the tide had gone out.

Further up the river at Sega mill the other crossing had brought on another bloody fight, which lasted until late yesterday, when the whole shore was cleared of living Austrians. But it was lined with dead. The movement here began late on Friday night and reached its culmination about 11 o'clock Saturday morning.

At daylight yesterday the enemy still held his position at the cemetery. The situation began to look serious and for a time it appeared as though the Italians would have to fall back. But the famous Bersaglieri brigade was brought up fresh and some of the other troops from nearby towns were stirred to a last desperate effort.

The Italians charged shortly after dawn, their line moving straight up the hill to the cemetery. The main fighting was hand to hand, with the enemy being pressed back steadily to the river, where they were cut down, drowned, bayoneted or captured. By 10 o'clock yesterday all had been swept away except a few straggling groups; by noon not one of the enemy's force was left on the western bank.

In addition to some 1,500 killed, the enemy lost 1,500 prisoners, including two colonels and some thirty officers. All the Austrian machine guns were captured and are now being used by the Italians.

Buildings of Wealthy Ashton Citizen Painted Bright Yellow

Ashton, Neb., Nov. 19.—(Special Telegram.)—Paul Chilewsky, claiming to be worth upwards of \$500,000, suffered the fate of a "slacker" at the hands of his fellow townspeople last week, when the three business buildings which he owns were painted yellow with the conspicuous notation of "Paul, the Slacker," done in a bright red.

Ashton is a town of 500 population, and claims to be the most patriotic village in the state, with a big quota of its boys already serving the national colors.

Chilewsky, who pays \$1.73 personal tax, according to county court house records, flatly refused, it is alleged, to assist the recent Red Cross campaign. He has the record among fellow citizens of having never subscribed a dollar to the Liberty loan and when recently approached for a \$2 donation for the Young Men's Christian association refused to indulge, citizens declare.

Armed American Troops Visit Montreal First Time in History

Montreal, Nov. 19.—For the first time in the history of the present generation, if not since the Declaration of Independence, armed American troops are in Montreal to participate in the Victory loan parade today.

The American soldiers arrived yesterday and were given an enthusiastic reception by local military men and citizens. The detachment consists of 50 infantrymen and 50 marines, with a naval band of 50 musicians and an artillery band of 30 men.

Y. M. C. A. PLEDGES TO GO OVER THE QUOTA

Appeal From National Headquarters to Get More Funds for Additional Endeavors.

BULLETIN.

New York, Nov. 19.—The war fund of \$35,000,000 with which the Young Men's Christian association will provide care and comfort for the soldiers and sailors of America, and its allies has been raised, it was announced here tonight by George W. Perkins, chairman of the finance committee of the war work council.

MONEY PILED HIGH.

Money and pledge cards are piled high in the city and state headquarters of the Young Men's Christian association campaign for war work funds. Secretary Denison states that the complete figures cannot be tabulated for two or three days, though a corps of workers is busy.

The total for the state has gone well over \$350,000, said D. Burr Jones, in charge of the state campaign. Nebraska's quota was only \$250,000, and it is believed that again this state has gone to the top among the states of the union in the over-subscription for a good cause.

To Extend the Work.

An important telegram from John R. Mott, national chairman, was received by Mr. Jones Monday morning which indicates that the Young Men's Christian association work is about to be expanded vastly beyond even its present limits. "Relay this telegram by telegraph or telephone to all chairmen and workers. Do not economize, as time is everything," said instructions with the dispatch. It is as follows:

"Developments since our original budget as adopted make it absolutely essential that we have a far larger sum available. I refer, first, to the alarming situation on eastern and southern fronts necessitating prompt expansion of our activities in those regions; second, appeal from French prime minister that we take charge of 1,300 soldiers' homes for French army of 4,000,000 men requires for this item alone an increase of \$3,000,000 in adopted budget; third, a confidential request from another great allied army for large help; fourth, the recent great increase in number of war prisoners to be served by us; fifth, changes in plans of our own government which make it clear that we will have much more to do for American troops than contemplated. May God help us to achieve the seemingly impossible."

New Laws Keep Strict Eye on Alien Enemies

be found on any ocean, bay, river or other waters within three miles of the shore line of the United States or its territorial possessions * * * or any of the waters of the great lakes, their connecting waters and harbors."

An enemy alien may not approach or be found within 100 yards of any canal, wharf, pier or dock used directly by, or by means of lighters, by any vessel or vessels of over 300 tons gross engaged in foreign or domestic trade other than fishing, nor within 100 yards of any warehouse, shed, elevator, railroad terminal or other terminal, storage or transfer facility adjacent to or operated in connection with any wharf, pier or dock.

Declare Prohibited Zones.

The attorney general is given additional authority to declare prohibited zones about other establishments whenever he deems it advisable to do so. The proclamation does not interfere, however, with existing regulations forbidding enemies to live within a half mile of munition plants, ship yards and other government establishments, though all previous special permits to allow aliens to ignore the zone restricted are revoked.

The proclamation applies to continental United States and to the Philippines, Porto Rico and Alaska. The penalty for violation will be internment for the war.

Action Not Vindictive.

Officials explained today that the government's action is not intended to be vindictive, and that Germans who mean no harm to the United States will not be molested. Under regulations now being framed by the Department of Justice all Germans may not be required to report periodically to officials. The regulations will be promulgated within a few days, but the terms of the president's proclamation become immediately effective.
