

# UNCLE SAM WILL PROTECT WIVES OF MEN AT FRONT

### Soldiers at Fort Crook Receive New War Department Orders For Protection of Dependent Relatives.

Uncle Sam will provide amply for the wives and mothers of the boys who go to the front. Orders from the War department read to the soldiers at Fort Crook, disclose the government's plan for the protection of soldiers' dependents while the men are in service in France. Soldiers at Omaha posts interpret the reading of the new order to mean that they will be sent to Europe at an early date.

Each enlisted man is ordered to allot one-half his pay to his wife, mother or other relative dependent upon him for support. The government will add \$25 dollars to the amount withheld from the soldier's pay by his allotment and transmit the sum to the wife or mother or relative he designates.

If a soldier gives more than half his pay to a dependent relative the government will equal the excess over one-half, dollar for dollar, and will add this to the \$25 provided by the government to her support.

### Deposit Half Their Pay.

A single man who has no dependents is required to deposit one-half his pay with the War department. This money will be held for him in trust and will draw 4 per cent interest until the war is over, his term of enlistment ends or he receives his discharge for wounds or other cause, when he can draw the amount accrued on his deposits with interest compounded semi-annually.

This is intended as a fund upon which he can rely for extra transportation and clothing allowances. The new orders provide for the maintenance and protection of those left at home when the boys leave for the front. An enlisted man's pay is \$30 per month. If he allots the one-half of it, \$15, to his wife the government gives her in addition \$25, making her a monthly income for the support of herself and children of \$40.

### How the Rule Works.

If the soldier allots \$20 of his salary to his family the government will equal the \$5 excess and give her \$30 along with the \$20 from his pay. Thus the family's income at home will be \$50 per month and the soldier will draw \$10 a month at the front. His total income from the government for himself and family will amount to \$60, instead of only \$30. If he allots his whole salary his dependents would receive \$70 a month from the government.

The soldier's insurance costs him \$8 per \$1,000, and he may pay for it in 20 equal installments. The maximum insurance he may take out is \$10,000. In case of his death his widow or other dependent relatives will draw not merely the amount of the policy, but one-fifth of its face value as long as they live.

### Draw Only \$7 in France.

It is said that when the men go into service in France they will be limited to \$7 a month spending money and the balance of their pay will be put on interest and held for them by the War department. A man when he comes from the business "over there" will have a neat little nest egg awaiting him to start him in business or for such other use as he may care to make of it.

The restriction while in service in France is made necessary by the fact that a heavy influx of American gold would disorganize money values in that country. The \$7 American gold will buy four and one-half times as much in France as the French money. The American soldier's pay will be slightly more than that of any of the allied armies in the field and will doubtless be more than sufficient for his needs.

### Private Guards Replace Troops on Water Front

Washington, Nov. 21.—Private guards went on duty at important docks and piers today on orders of Attorney General Gregory under President Wilson's proclamation barring Germans from water fronts.

Department of Justice officials said troops would not be used generally as guards. They probably will be employed at Boston, New York, Baltimore, Philadelphia, Newport, News, Norfolk and a few other ports.

A movement of alien enemies from the 100-yard water front barred zones was under way today, supervised by United States marshals, who had instructions to arrest and intern temporarily any Germans failing to comply, or those acting suspiciously.

### Intermediary in Bolo Pasha Affair Arrested in Italy

Paris, Nov. 21.—Captain Bouchardon, who is investigating the Bolo Pasha affair, has received news that Signor Cavalline, an Italian and an associate of Bolo, has been arrested in Italy. A woman friend of Cavalline also was taken into custody.

The Paris Matin on October 15 said that Signor Cavalline was the intermediary between Abbas Himit, former khedive of Egypt, and Bolo Pasha. According to the newspapers, Cavalline went to a hotel in Paris in April, 1915, with 2,000,000 francs. To a friend who accompanied him he introduced a man who came out of the hotel with him as Bolo Pasha.

### American Mining Employees Are Withdrawn From Mexico

El Paso, Tex., Nov. 21.—American officials and employees of the American Smelting and Refining company in the state of Chihuahua have been ordered to come to the border and eight of the principal officials have already arrived here. This was announced today by C. L. Baker, general manager of the company's Mexican interests, with headquarters here. He said this was done as a precautionary measure and that work had been stopped at the Chihuahua smelters to await developments in northern Mexico.

Some one would like to rent just the kind of room you have vacant. Tell them about it in the next issue of The Bee.

## Would Combat High Cost of Milk By New U. S. Regional Tribunals

Washington, Nov. 21.—Regional milk tribunals, federally appointed, is the plan of solving the milk problem of metropolitan areas adopted by the food administration after requests for aid from producers and distributors in New York and Chicago, where the rising cost of milk has caused discontent among consumers.

## FEW CAFES FAIL TO OBEY RULE FOR MEATLESS DAY

### One or Two Found Flagrantly Violating Regulation; Reports to Be Made to Department at Washington.

Few violations of meatless day regulations, but some defiantly flagrant, were reported yesterday.

Investigation was made by officials of the Omaha Hotel Men's association, working in conjunction with State Chairman John F. Letton and District Chairman Richard Kitchen. Inspectors of the pure food office from Lincoln also came in and began their work unannounced.

During the day every food-dispensing place in the city was visited and in many instances check backs were made where warnings had been given earlier.

### Reports to Washington.

Reports of violations were turned in to the chairman and will be forwarded to Washington for action by the government. Included in this list was one large establishment, which had seven kind of meats on its menu, according to the investigators.

An evidence of the thoroughness of the check and the general observance was developed in the check of the district which included Farnam and Douglas streets between Tenth and Twentieth streets and side streets. Only three violators were found in this district; however, two of them were defiant in their selling of meats.

### Chinese Hew to Line.

Particularly gratifying was the observance of the Chinese cafes. Without exception they were hewing strictly to the line. A bland smile, with sweet "Chinee" sorries, was all that could be gotten when meat was ordered.

In contrast was the spirit at several soda fountains, where sandwiches were served. In frequent instances offers to serve meat sandwiches were made, but when the inspector made known his identity assurances were hastily given that the practice would be discontinued.

### Work to Be Thorough.

"Our work will be much more thorough today because of the experiences of yesterday," declared Mr. Kitchen. "The record of violations will be forwarded to Washington," said Mr. Letton, "and these reports will be made without fear or favor."

## Will Organize Veterans Into Federal Police as Guards

Washington, Nov. 21.—Army departmental commandants have been relieved of the duty of assigning troops to guard industries and railroads as the first step in the War department's general plan for co-operating with the states in a system of internal control during the war that will not drain the fighting forces.

Hereafter all requests for guards, either from state authorities or from manufacturers, must be made to the adjutant general's office for reference to the militia bureau.

### Famous Coffee Merchant Reported Dead at Baden

New York, Nov. 21.—An unconfirmed report of the death in Baden-Baden, Germany, of Herman Sielcken, one of the world's greatest coffee merchants, was received today.

The firm of Crossman & Sielcken, of which Mr. Sielcken was the guiding influence, was dissolved recently by order of the federal government under the trading-with-the-enemy act.

### Los Angeles Cuts Out Saloons May First

Los Angeles, Nov. 21.—Anti-liquor forces claimed victory tonight in their fight for the adoption of an initiative ordinance providing for the elimination of saloons from Los Angeles after April 30, 1918.

Six hundred and seventy precincts out of 706 in the district had reported late tonight on the result of today's vote. The vote as announced was 50,827 for the ordinance and 32,627 against it.

The ordinance permits the sale in original packages and in quantities of wines and liquors containing not to exceed 14 per cent alcohol and allows cafes and restaurants to serve such liquors until 9 p. m., but not later. It eliminates saloons.

## Britain Fearful of Enforced Rationing

London, Nov. 21.—Baron Rhonda, food controller, in a speech in the House of Lords today, said he was still hopeful that compulsory rationing could be avoided, but that it must come unless in the approaching few weeks the public fully responded to the appeals for voluntary rationing.

"There is no fear whatever of famine," said Baron Rhonda, "but the country might have to endure a scarcity."

The controller said that the allies would not lose the war through submarines. He was sanguine there would be the necessary tonnage to provide the necessary supplies.

administration," said a statement tonight by G. Harold Powell, in charge of the division of perishable commodities, "is to set up regional federal commissions on which producers, distributors, consumers, milk experts and the public at large will be represented. These commissions will hold public hearings, giving all parties interested an opportunity to present data that may bear upon equitable prices."

## K. C. FUND IS STILL ON UPWARD CLIMB

### Reaches Total of \$55,696 in Omaha and Parish Committees Make Plans to Pledge \$15,000 More.

Mrs. E. W. Nash wired from New York that she would contribute \$1,000 toward the Knights of Columbus fund, which has reached a total of \$55,696 in Omaha.

Francis P. Matthews, assistant secretary of the state committee, received a message from Friend stating \$477 was subscribed in that town in less than 10 minutes. Friend's quota was \$450, but the committee of that town raised the quota to \$1,000 and will raise that total before the end of this week.

Chairmen of the parish committees will meet this evening at Knights of Columbus headquarters, 2025 Dodge street, to discuss plans to raise an additional sum of \$15,000 among the local parishes.

The record attained in Omaha is proving an inspiration for the other towns of the state.

Additional subscriptions:

Previously reported	\$54,442
Mrs. E. W. Nash	1,000
C. N. Dietz	100
Mrs. Elizabeth Duncan	25
Joe Kelly	25

James Dowd	1
Total	\$55,696

### N. Y. Back Yard Gardens Grow \$675,000 of Food

New York, Nov. 21.—Back yards and vacant lots in New York City, cultivated principally by housewives and children, grew \$675,000 worth of produce during the last summer, it was announced today by Mayor Mitchell's committee on war gardens.

The committee reported that 1,035 acres of land or 11,881 small gardens were tilled as part of the campaign to increase the nation's food supply during the war.

# OVERCOATS

The snappy styles for young men  
The form-fitting coats for older men  
Big, warm overcoats for the cold days
