

INFORM BERLIN HOW GERMANS TREATED

U. S. Takes Steps to Notify Kaiser's Government of Latest Restrictions Imposed on Aliens.

(By Associated Press.) Washington, Nov. 22.—The German government will be informed of the steps taken under President Wilson's latest alien enemy proclamation to impose restrictions on un-naturalized Germans in this country, it was stated today, in order to assure the Berlin authorities that no abuse of their countrymen here is contemplated and that the United States is doing no more to German subjects here than Germany did to Americans there long ago.

Along with this report, it is understood, will be sent a memorandum of the German sailors in this country held as prisoners of war, civilians interned as dangerous aliens, and crews of the former German merchantmen detained by the immigration authorities.

The number of un-naturalized Germans interned does not exceed 600, it was stated today, and officials do not expect an increase of more than three hundred as a result of failure to obey the new regulations establishing prohibited zones and compelling registration. The men interned are comfortably housed, receive their food, clothing and lodging and many are given work with pay.

The prisoners of war, sailors from the German war vessels, are maintained in simple comfort, but without luxury, at several forts where there are military prisons. The men receive food, clothing, lodging, tobacco and a few other incidentals and the officers receive the pay and privileges of their corresponding ranks in the United States navy.

The Department of Justice had nearly completed today the regulations for registration of un-naturalized Germans and it was thought they might be promulgated by next Monday. It was stated authoritatively that there would be no provision for exemption to the rules established in the president's proclamation, although hundreds of plans for exemption have been received from Germans living or having business places within 100 yards of docks and wharves, and from Germans who must leave the District of Columbia. Among those who must leave Washington before December 15, are a few employees of neutral embassies.

Vatican is Accused of Secretly Aiding Austria

London, Nov. 23.—The Vatican is accused in an editorial in the Morning Post of being implicated in the propaganda which the newspaper says was largely responsible for the recent Italian reverses. Reviewing what it describes as Vatican machinations, the Post declares that its political activities during the war "can by no sophistry be regarded as consistent with the principles of neutrality."

"From the beginning," says the Post, "the Vatican has leaned to Austria's side and lately has furiously but actively espoused the Austrian cause."

The newspaper calls on the British government to look into the matter and demands that the Vatican declare definitely on which side it stands.

Aeroplane Descends Among Fishing Boats and Explodes

San Francisco, Nov. 23.—The descent of a German aeroplane into the nets in the midst of a fleet of fishing vessels, followed by an explosion of the engine and capture of the plane and two occupants was related here today by H. Dykman, an arrival from Holland.

The Germans sighted the fishing boats and came toward them close to the water's surface, Dykman said. The plane had been riddled by English shrapnel. An explosion occurred after the aircraft had dipped into the water and had become entangled in the big nets. The officers were rescued and later interned in Holland.

Italian Bank in Denver Raided by Holdup Men

Denver, Colo., Nov. 23.—Two thousand dollars was obtained from the cash drawers of the Italian-American bank on lower Fifteenth street here today by two young men, apparently Italians, who held up the cashier and five customers and escaped in an automobile.

The robbers, who wore no masks, entered the bank at 1 o'clock, when all employees except the cashier had gone to lunch. Five thousand dollars had been taken from the cash drawers but a few minutes previously by the bank's vice president, Cesare Frezzini.

Footpads Beat Paymaster and Take \$28,000 in Cash

Erie, Pa., Nov. 23.—Timothy Carroll, paymaster of the T. M. Nagle Boiler and Engine company, was held up and robbed of \$28,000 by two men here today.

Carroll had obtained the money from the bank to pay the company's employees, and had just alighted from a street car near the works when he was knocked down and beaten by one of the men while the other secured the money. The robbers escaped.

DEMING SOLDIERS KEEN FOR WAR RISKS

Second Million of Insurance Reached, Captain P. E. Halligan Reports; Officers Take First Million.

Camp Cody, Deming, N. M., Nov. 21.—(Special.)—Approximately the second million of war risk insurance has been reached at the division insurance office, it was announced by Captain P. R. Halligan, formerly of Company E, Fifth Nebraska infantry, North Platte, Neb., chairman of the committee that went to Washington for instructions several weeks ago.

Applications are coming in from enlisted men for straight insurance, all for the maximum, \$10,000, except one. One hundred officers took the first \$1,000,000. Major S. J. Sutherland, acting chief of staff, led off, seconded by Major H. M. Nelly, then Colonel J. E. Bartley, 133d infantry (First Iowa) applied, his signature being witnessed by Brigadier General H. A. Allen, Iowa commander. It is believed that the \$1,000,000 mark may be reached when all the men have been informed. Only the great total of Liberty loan bonds bought here will stand in the way of a high record.

Explanations are in progress all over the camp relative to the new law, which provides for insurance, allowance of pay to dependents and compensation in case of disability. Enlisted men are compelled to make allotments of pay for the support of their families, and in turn are entitled to receive from the government allowances.

Workings of Law

Interesting features of the workings of the law crop out. A cook in the 135th infantry (First Minnesota) draws pay of \$38 per month. He has a wife and four children. He will be obliged to contribute \$19 per month to their support and the government will give \$42.50 additional. He said he would take out \$10,000 insurance. If he does, in case of total disability he would get from insurance \$37.50 monthly for 240 months and the government would give him \$75 more? If he should be killed his family would receive the insurance money and \$37.50 more per month, making them an income of \$115 for 20 years.

"Yet this cook will probably growl, as most cooks do," said Captain Halligan.
