Because we "tear down" expense RR! we are able to "build up" value

The Dundee business idea is a matter of "raise" following "raze". First, we "raze" a considerable portion of rent expense by doing

business in a small ground floor-and our values undergo a very decided "raise." Then we "raze" credit losses entirely by selling only for cash. And "raze" delivery expenses by not having a delivery system. All of these "razes" result in a "raise" in value to \$5 and \$10 above the price we charge.

The sensible, practical features of that idea are having their reward. We're actually giving men \$5 to \$10 better value than they can buy anywhere else at \$15. Our number of customers is increasing. And we can count on next season's trade from all of them.

We deal only in facts. You can prove them for yourself. You can see the extra value in these clothes. You know they're \$20 to \$25 clothes. The woolens show it. The tailoring demonstrates it. The linings add further proof. These clothes are the choice of wise men. We'll be glad to show you the clothes.
