For Bridal Couple.

Wednesday evening Harry Koch was host at an Orpheum party and supper at the Fontenelle in honor of Miss Ruth Slabaugh and George

HOW TO JUDGE A WOMAN BY HER HAIR

There is real common sense in just noticing whether the hair is well kept to judge of a woman's neatness, or good taste. If you are one of the few who try to make the most of your hair, remember that it is not advisable to wash the hair with any cleanser made for all purposes, but always use some good preparation made expressly for shampooing. You can enjoy the very best by getting some cantrox from your druggist, dissolve a teaspoonful in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. Dandruff, excess oil, and dirt are dissolved and entirely disappear. Your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also delight you, while the stimulated scalp gains the health which insures hair growth.—Advertisement.

Bride-Elect Guest of Omahans

Mildred Patterson

Miss Mildred Patterson of Kansas City is a guest at the D. C. Patterson home. Miss Patterson's engagement was recently announced to Charles N. Bull, Jr., of Brooklyn, N. Y. The wedding date has been set for January 12, the ceremony to take place in New York.

Town Topics has some interesting remarks to make upon the engagement of Miss Patterson. It says: "More than one girl in Brooklyn will feel a sinking of the heart when the engagement of Charles M. Bull, Jr., the six-foot tennis champion, to Mildred Patterson, a petite beauty from Kansas City, is announced. Charlie, who is now in the army, met Mildred last winter for the first time when she came to New York to do war relief work. That he never became seriously attached to any Brooklyn girl is not surprising, for he has not been so closely identified with or fond of the borough as to limit himself to its social life. At Newport his opportunities were few, for, though his father, as well as his uncle, the late Dr. William T. Bull, was born there, and the family occupied a distinguished position, the old estates, Dudley Place and Karlsruhe at Oen Mile Corner being landmarks of Aquidneck, they never were actively associated with the doings of the spectacular millionaire colony on the cliffs."

Miss Burke were Mrs. John A. McShane, Mrs. William Burke and Miss Blanche Burke of Portland, Ore.; Mrs. Frank Hamilton, Mrs. Herman von W. Schulte and Mrs. J. R. Clemens. Thursday Miss Burke was a guest of honor at a luncheon given by Mrs. Harry Burkley.

Merry Makers Dance. The Merry Makers Dancing club announce a dancing party to be given

Sure Way To Remove Wrinkles

Many cases over an inch a month. I have never known it to fail in all my experience. It makes any hair grow fast, long, silky and beautiful. It costs little, less than the prepared hair liquids you buy. Get from your druggist one ounce of beta-quinol, and mix with a pint of bay rum, or half a pint each of water and alcohol, if preferred. Then it is ready. Use freely every day. It is not oily and is fragrantly scented.

MRS. M. N. S.—With this remarkable complexion beautifier you can see that all blemishes, red spots, freckles and "mudiness" will entirely vanish. Mix an ounce of alpha-quinol with a quart of glycerine in one pint of water, making a cream. Apply this generously every day, rub it in well. Every red spot, freckle and blemish will disappear almost as by magic. You can get the sintono for fifty cents at any drug store.

When I say it will give you a queenly complexion I mean just that. You have perhaps labored for many months and maybe years trying to get your complexion clear and uniform. This is the short, quick, sure way. The skin will be clear all over, and it will have the purity of a lily. All you have to do is to use the cream faithfully and every day. Use it liberally and you will not fail.

SORRY—No, I can't promise you that your bust can be developed. Nevertheless, there's one thing that will do it if anything can, and that's a mixture of two ounces of rucione and half a cup of sugar in a pint of water. Take two teaspoonfuls after each meal and at bedtime. Ask for rucione from your druggist.

GERTRUDE X.—I do not believe anybody has ever been able to get as good a face powder as what I have had made after my own formula. It's so fine it is like silk and is invisible. It has no chalkiness whatever. It is being sold now for fifty cents in drug stores as "Valeska Suratt Face Powder." In flesh, white and brunette tints.

LILLIAN.—This is magic in dissolving all dandruff and greasy accumulations. There's nothing on earth like it for a head wash. Use a teaspoonful of eggol in a half cup of water. For twenty-five cents you can get enough eggol for over a dozen of these unusual shampoos.

AGNES S. O.—Try this for blackheads. Sprinkle some powdered noreon on a wet sponge and rub it over the blackheads a few moments. It will dislodge you how quickly they will disappear. Few people know this, but it always works. The noreon will cost about fifty cents at the drug store.—Advertisement.

A Breakfast Food Fudge

If you would have a fine dish try making chocolate fudge and, instead of putting in nuts in the usual way stir in, just when it begins to cream as much as it will take of one of the ready-to-eat flaked breakfast foods.—From Good Housekeeping.

Chiropractic What Is It?

Chiropractic (pronounced Ki-ro-prack-tic), from the Greek word Kiro, signifying hand, and Pracktic, meaning practice, is the science of locating the cause of disease and the art of removing same by adjusting the spinal vertebrae, which relieves pressure on the impinged nerve. Chiropractic means adjusting by hand and nothing more. It is the science of drugless healing the human family has been seeking for ages, prior to its discovery about twenty years ago. It is sweeping all before it. History does not record a movement or idea that has grown or spread more rapidly within the same period of time than the growth and advancement of Chiropractic. It is the evolution of the Science of Health. The world must advance. Without discovery and development we would today find ourselves back on the plane of the dark ages.

From the days of miracle workers down through the ages when ignorance and tradition kept pace with the hordes that died before their time from disease and plague, enlightenment has been speeding its light to guide the world's millions to a better life. Today civilization gives as much thought to prevention as it does to the cause of disease and one of the greatest, if not the greatest, modern science is CHIROPRACTIC ADJUSTMENTS, which restores through a simple method that corrects the cause of disease and permits the natural forces of the body to perform normal functions and maintain healthy conditions. No drugs; no knife; just common sense based on the natural law of cause and effect. The human body in normal condition is a perfect machine. As long as each part maintains a proper relation to every other part and is supplied with abundant nerve power, the result of its activities cannot be other than that of health. Chiropractic is not magic. It takes no pretense of restoring life when the Divine Spark has vanished, but Chiropractic can often restore, even after other methods fail. Finally the new order to restore health is Chiropractic Adjustments.

In the face of criticism, interference and opposition, born of ignorance, it is overcoming all obstacles because it is right. If it had no merit it could not survive, and being right, it offers to all the opportunity to investigate its claims and study its work and methods.

Be health wise. Try Chiropractic. Next week, Article No. 3—Subluxations or Partial Dislocations of the (Spinal) Column.

Green Gables THE DR. BENJ. BAILEY'S SANATORIUM Lincoln, Neb. This institution is the only one in the central west with separate buildings situated in their own ample grounds, yet entirely distinct, and rendering it possible to classify cases. The one building being fitted for and devoted to the treatment of non-contagious and non-mental diseases, no others being admitted; the other Rest Cottage being designed for and devoted to the exclusive treatment of select mental cases requiring for a time watchful care and special nursing.

To Avoid Rough, Coarse, Chapped Blotchy Sk'n

Most skins require constant grooming at this season to keep them from becoming dull red, blotchy, coarse, rough or harsh, or if such conditions have developed, to overcome it. In such cases it is particularly inadvisable to keep piling on cosmetics, which clog the pores and make the complexion worse than ever. It's a lot more sensible to use ordinary mottolised wax, which liberally absorbs a spoiled complexion. Apply the wax, like cold cream, before retiring. Next morning, washing it off, you'll wash away fine, flaky skin like a child's. One ounce of mottolised wax, procurable at any druggist's, is all you'll need.—Advertisement.
