"A S FAR ahead of the umbrella A as the automobile is to the horse and buggy" is the slogan for the new 20th Century Umbrellas, shown just inside the Sixteenth street en-trance of Thompson, Belden's. You really can't imagine what a vast improvement has been made on this indispensable article until you see them for yourself. In the first place it is far neater in appearance than the ordinary umbrella. When open it well deserves the name of "The umbrella with the big spread," but close it up and, presto, you have a short stick of comfortable walking length. Your new fall or winter suit will find one of these a congenial companion, for whatever its shade might be you can match it in color. All the members of the fashionable Blue, Brown, Green and Plum families are there. The handles are ivory and bachalite and are stunningly good looking. Prices \$5.00 to \$12.50 in colors.
