HITCHCOCK MEN TRYING TO FORCE NEVILLE TO STAY

Senator Now Said to Be Using Persuasion With President to Prevent Federal Call to Seventh Regiment

Lincoln, Dec. 3.—(Special).—To go to war or not to go to war, that is the question. Whether it is best to stay at home and keep Edgar Howard and the Bryan democrats from getting control of things or go to war and let what Sherman said about war prevail in the democratic ranks.

This is the great problem that confronts the governor at present. Governor Neville is patriotic. He believes his duty is like that of every other American citizen, to his country first and his party afterwards.

But there are those who believe that a man who would take any action which endangers the control of state affairs by the dominant faction, is not a real patriot, and so there the matter lies and lies and lies.

Want Seventh to Stay. It is given out by the official Bryan organ in Lincoln that pressure is being brought upon the president by Senator Hitchcock to keep the new Seventh regiment from being called out of the state.

It is said that the effort is being made to convince the president that the pro-German feeling in Nebraska is so strong that it would be the height of folly to take the only regiment the state has away from here under present conditions and leave the people without protection.

In this move lies the danger to the Lucky Seventh. Should the president become convinced that the state needs the protection of an armed force, the Seventh may be kept in the state, notwithstanding its colonel and its officers and men are more than anxious to get into active service.

Might Resign Anyway. However if the powers that be in Nebraska should pull off such a stunt and keep the Seventh at home, it may prove to be a boner of the worst kind. Governor Neville is not the man to stand for political "camouflage." Should the democratic politicians who fear the Bryan-Howard faction in that party, succeed in thwarting the ambitions of the governor to go to the front at the head of the Seventh regiment, the governor is likely to tell them to go to Halifax and resign and go anyway, either as a private or where he can be of the most service to his country.

So the Hitchcock-Muller wing of the democratic party is up against a proposition that to them is serious. If the governor goes to war at the head of the Seventh, they lose their hold on the executive office. If, by their political machinations, they keep him from going that way, they may win anyhow and there they stand. It is a serious situation and they know it.

HUSBAND MAY NOT SLAP WIFE EVEN FOR HER OWN GOOD

Lincoln, Neb., Dec. 3.—(Special).—The supreme court is divided whether a man should be deprived of the pleasure of licking his wife whenever he finds it necessary in order to convince her she once promised to love and obey.

The majority of the court holds that a man cannot chastise his wife even when it would appear it is for her good, but one of the members who is a bachelor and another who is a married man dissent from the opinion chiefly because they do not believe the man used violence enough—that is they do not mean that he should have chastised her harder, but that what he did do should not be considered cruelty in the real sense of the word.

The case is one where Lillian Unzicker applied for a divorce from her husband Frank in Deuel county on the ground that he had slapped her. It is alleged that at the time specified the wife, who had been ill was dressing for a ride for her health and the husband insisted she should dress warmer. When the wife objected he simply emphasized his judgment with a slap.

The district court refused to give the wife a divorce, but the supreme court decided otherwise, holding that the law does not allow a husband to use personal violence against his wife even for her own good and even when the exercise he required of her is necessary for her health.

Shumway Finds Some Land The River Brought to Light

Lincoln, Neb., Dec. 3.—(Special).—Land Commissioner Grant Shumway has discovered 120 acres of land in Douglas county which for a period of years appears to have been undiscovered territory as far as the state receiving any compensation therefrom.

The land lies along the Missouri river in Section 36, township 16, range 13, in Douglas county just northeast of Omaha. It was formerly school land, but one day the Missouri river washed it away. This happened in the year 1909. The books of the commissioner's office show that the account covering this land was closed in 1911. Now the land appears again and it valued at \$11,900. At the time the Missouri washed it away, it was valued at \$6,000.

The commissioner wants to know when the Missouri put it back and how long it has been in use since being put back.

American Troops Punish Mexican Cattle Thieves

Presidio, Tex., Dec. 3.—Conditions were quiet today along the border after Saturday's developments, when American troops crossed the Rio Grande at Indio, 20 miles up the river from here, were rushed by a force of Mexican bandits at Buena Vista, Mex., and killed 35 of them. Today the bandits seemed to have disappeared.

Of the 20 American cavalrymen under command of Lieutenant Leonard F. Malack, Private Riggs was killed and Private Noriel slightly wounded. Justo Gonzales, a ranch foreman, was killed. He was in the employ of I. F. Tigner, whose cattle ranch on the American side was raided by the bandits, who were under command of the notorious Chico Cano.

The American troops followed a "hot trail" into Mexico. They had two brushes with the bandits, in the second of which they were reinforced by machine gun troops. The bandits, numbering more than 200, were driven into the hills. Many were wounded.
