

LOYAL GENERAL SOON LYNCHED BY BOLSHIEVIKI

Dukhonin, Who Assumed Command After Kerensky, is Thrown Under Train Upon Capture of Mohilov.

BULLETINS.
Petrograd, Dec. 4.—General Dukhonin, who took over the post of commander-in-chief of the Russian armies after the overthrow of Premier Kerensky, was thrown under a train and killed as the result of a lynch law, after Ensign Krylenko, the Bolshevik commander-in-chief, had captured Mohilov, it was officially announced by the Russian war office today.

Petrograd, Dec. 4.—The day before General Dukhonin's headquarters were captured by the forces of Ensign Krylenko, General Korniloff fled, the official announcement states. The excesses during which General Dukhonin was killed are ascribed to this cause.

Petrograd, Dec. 4.—Ensign Krylenko, the Bolshevik commander-in-chief, telegraphed today that the general staff, which had refused to recognize the authority of the Bolsheviks, has surrendered.

A battle between detachments from the Petrograd garrison, commanded by Ensign Krylenko, and Cossacks is reported to be impending at Vitebsk. According to a telegram from Krylenko's adjutant, the Cossacks have gathered on the flanks and in the rear of Krylenko's forces.

A circumstantial report is being circulated that General Korniloff, former Russian commander-in-chief, who led an unsuccessful revolt against the Kerensky government, escaped from custody last night.

Send Hosts Against Dukhonin.

General Dukhonin assumed the post of Russian commander-in-chief after the disappearance of Premier Kerensky, with headquarters at Mohilov. The headquarters staff refused to carry out the orders of the Bolsheviks to enter into negotiations with the Germans for an armistice. The Bolshevik government announced the deposition of General Dukhonin, but he refused to recognize its authority. A Petrograd dispatch yesterday said troops loyal to the Bolsheviks had been sent against the general staff headquarters.

Armistice Signed.

London, Dec. 4.—An armistice between Russia and Germany has been signed at the headquarters of Ensign Leopold of Bavaria, says an Exchange Telegraph dispatch from Amsterdam today. The armistice is valid for a period of 48 hours.

Maximalists Issue Manifesto.

London, Dec. 4.—The Maximalist government, says a Petrograd dispatch to the Daily News, has issued a manifesto to German and Austrian soldiers, which will be distributed in great numbers by airplanes and other means to the Austro-German army. The manifesto sets forth the aims of the Bolsheviks, with a list of social, economic and political measures they already have taken. It also appeals to the soldiers to help them end the war, promising that if they assist peace will be declared within a few days and the other nations will join.

Swedes Not to Mediate.

Stockholm, Dec. 4.—The Swedish foreign office authorizes the Associated Press to deny the report published in Paris and elsewhere to the effect that the Swedish legation in Petrograd offered, or is about to offer, its services as mediator between the Bolsheviks and Germany.

Prince Leopold of Bavaria, the German commander, in an effort to arrange a general armistice, Bulgarian announces it is prepared to negotiate for cessation of hostilities with the Russians. German newspapers print rumors that Roumania is endeavoring to arrange an armistice with Germany and Austria-Hungary.

Inter-Allied Conference Ended.

The inter-allied conference at Paris has come to an end. No announcement was issued, but resolutions adopted yesterday will be made public shortly. Colonel House expressed the conviction that the unity and co-ordination of purpose arrived at would enable the allies to reach their desired goal.

French Official Statement.

Paris, Dec. 4.—Today's official statement says: "There was great activity on the part of the artillery, especially in the region of Maizons de Champagne and Tahure."

"On the left bank of the Meuse the Germans attempted to approach our lines in the sector of Forges and west of Avocourt. Our fire promptly checked the effort. The night was calm on the remainder of the front. "Two German airplanes were brought down Sunday by our pilots. Three other enemy machines fell within the German lines."

Italian Army Headquarters in Northern Italy, Monday, Dec. 3.—The enemy activity is now taking the form of demonstrations by the artillery, followed up by the infantry, the preparatory concentrated gun fire not being of such proportions as the following determined assaults. The demonstrations are either intended to mask movements at other points or are set in motion in the process of feeling the way for the best opening along the Piave and the northern Italian line. The enemy movements are being put into effect principally on the upper Piave line.

of the war is proper policy at this time. Any deviation from this would be construed as a weakening of America and a repudiation of the broad scope of our war declaration and the colossal preparation which we have made in the last night months.

"The president wisely dealt with consequences rather than with causes, because with the former the American people are vitally concerned and should be wholly united."

Pthy to Be Patriotic.

"The recommendation of war against Austria is a vindication of the position taken by me in the debate on the war resolution last April, when I advocated war with Austria if war with Germany was declared. There were many expecting some suggestion for a coalition cabinet in harmony with the course followed by nearly every other nation now at war. Further, it was expected that objections would be withdrawn from the creation of a joint-partisan congressional committee for the supervision of war expenditures. Neither of these being forthcoming, it will be probably regarded as notice to the country that partisan control is to be continued in administration and congress. It will probably be as well that this course be followed, as it will invite and inspire the republican party, now in such a base minority, to see its opportunity for distinctive service to the country during its crisis in giving organized patriotic party support to the winning of the war and solving the other large questions confronting the government."

Views of Nebraskans.

Judge Kinkaid said, "I regard the message as an exceedingly strong and able paper, positively and definitely expressed. The formal declaration of war which it embodies is most logical. Any other course would have been unlogical and inconsistent."

"It is the sort of message the world is waiting for," said ex-Governor Shellenbarger of the fifth district, "in this great crisis we want to let the world know that we are going to see the thing through. Europe will listen for the president's ideas of what we would expect to be the controlling factors in the settlement of the war. As to Alsace and Lorraine and other territorial problems that affect Europe, I think it was the part of Wilson on the part of the president not to make any definite statement or promises as to those matters. The fundamental principles for which we are contending, if put into practice, would result in an equitable solution of these questions."

ALLIES TO CLING TOGETHER IN BIG WAR PROBLEMS

Official Report of Recent Inter-Allied Council Assures Nations of Complete Unity.

(By Associated Press.)
Paris, Dec. 4.—The foreign office officially announced today that at the recent inter-allied conference, in which the United States participated, agreements were concluded "upon the basis of a complete understanding and close solidarity among the allies for the solution of the questions in which they have a common interest in the war."

It was also announced that the creation of a supreme inter-allied naval committee had been decided upon.

The inter-allied general staff, it was stated, was working upon a definite military program which was placing unity of military action in the way of certain realization.

The announcement regarding the results of the conference was made in the following official statement:

Solid Unity of Allies.

"The minister of foreign affairs reported to the cabinet council today the result of the conference of the allies. The reading of communications from the presidents of each section of the allied conference, at which were present for the first time representatives of the countries taking part with us in the war has given felicitous results from every point of view."

"They give assurance of practical unity of action, economically, financially and militarily."

All Subjects Discussed.

"The agreements have been concluded upon the basis of a complete understanding and close solidarity among the allies for the solution of the questions in which they have a common interest in the war. The financial needs of each of them, the requirements of their armament, their transport, their food, have been the subject of profound study which guarantees perfect satisfaction. The creation of a supreme inter-allied naval committee has been determined upon. Military unity of action has been placed upon the course of certain realization by the inter-allied general staff, which is at work upon an established program of all military questions."

"From a diplomatic point of view entire accord resulted from the discussions among the representatives of the powers upon all the business which has been arranged together to assure the common victory of their countries."

Police Seek Burglar With Taste for Scotch Whisky

Police who believe they can detect one brand of whisky from another on a man's breath are searching for a burglar who overlooked other valuables and stole two cases of old Scotch and a three-gallon jug of ancient vintage from the home of Harry Lawrie, architect, 5010 Dodge street, Tuesday night. Any individual with Scotch whisky on his breath will be under suspicion, police say. The sleuths advance the theory that an intoxicated man found dancing the Highland fling would be as good as convicted of the burglary. The whisky burglar got into the Lawrie home through a cellar window.

Other Women's Wearables Still Priced With the Idea of "Selling 'Em Rather Than Moving 'Em!" Selections Good.

THE ORKIN BROTHERS "Removal Sale" is still the most talked of attire event in Omaha. Time doesn't seem to have a waning effect upon it. Women buy as long as values are thrust forward. Stocks, while becoming thinned out in many directions, are far from being entirely depleted. There is still field a plenty for the most thorough "bargain buying" ever witnessed in this section of the state. The new building at 16th and Harney Streets is looming up swiftly. The Wolf-Hiller-Conant Hotel people are stretching every effort for early completion and every hastened hammer stroke provides another reason why Orkin Brothers must sell every piece of remaining stock in a hurry, for not an item shall be moved into the new store. Come. You know a Suit, Coat, Dress, Skirts, Waist or Fur value when you see it. Values here are thick. Will you make the most of the price landslide while it is still in force?

Amazing Power of Bon-Opto To Make Weak Eyes Strong

Doctor Says It Strengthens Eyesight 50 per cent. in One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Victims of eye strain and other eye weaknesses and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses, and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It is like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can read even fine print without glasses." Another who used it says: "I was bothered with eye strain caused by overworked, tired eyes, which induced fierce headaches. I have worn glasses for several years, both for distance and work, and now I could not read my own name on an envelope or the typewriting on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."
