## Girls Under 30 Years Here's a Good Job

Binoculars, spyglasses and telescopes are needed by the navy so badly that everyone is urged to donate their own to the government.

It is a very satisfactory donation to be able to make, because it is often that any of us are able to give either branch of the service something that it really needs badly and would be handicapped without.

## Barley Bread

Barley bread is one of the finest of war breads and can be made with very little trouble.

- 2 cups peeled and sliced potato,
2 cups boiling water,
1/2 yeast cake in 1/4 cup lukewarm water,
1 teaspoon salt,
2 cups barley flour,
4 cups wheat flour,
1 tablespoon sugar,
1 tablespoon lard.

All measurements are level full. Boil the potato and water and put through a sieve or colander. While still lukewarm add the yeast dissolved in one-fourth cup of lukewarm water. Stir into this two cups of wheat flour to make a sponge.

A Good Thing to Know
A burned sauceman should be filled with cold water to which a liberal allowance of soda has been added.

## Eat All Poultry You Can

Use more poultry in place of beef, mutton and pork. Do not use beef, mutton or pork more than once daily, and serve smaller portions, except to the children.

The discouragement of cow-keeping in Germany (750,000 cows have already been killed) and the encouragement of pig-breeding was for the sake of the fat from the pigs.

## After Thinking It Over

Sometimes I almost wish that I could turn into a butterfly. This gingham shirt and shoes and things could trade for shiny yellow wings.

## Golf a la New Orleans

AFTER the strain of war-time business, what jollier relaxation than a week of golf under tropic skies in gay Creole New Orleans?

No more fantastic sight is seen on golfing green than picaninny caddies arrayed in sporting rig. No more fascinating paradox can be called to mind than the energy of sport carried on under great live oaks to the tuneful singing of the mocking bird.

Would you motor? Then the white shell roads, gleaming and smooth as a dancing floor, tease you toward the music-haunted shores of the Gulf, or along the whispering waters of some picturesque bayou.

Do you enjoy horseracing? Then New Orleans will furnish you with a high class winter meet. Are you a baseball fan? Then you may watch the play of big league stars who often winter in New Orleans and play as members of the city league or train for the major league season.

## The Panama Limited

To New Orleans from Chicago and St. Louis

In less than a day, the Panama Limited takes you into the atmosphere of a foreign land; among French restaurants where game and fish are prepared by genuine Creole cooks; among Spanish courtyards bordered in tropical plants.

Best of all, the Panama Limited makes the journey as delightful as its ending. No Extra Fare. No other train surpasses it in luxury; no other train between North and South equals it in speed. New Orleans is the gateway to Texas and California via the Southern Route.

## It certainly is the thing for skin-troubles

The speed with which Resinol usually stops itching and burning and heals eczema and similar eruptions is a revelation to skin-sufferers. They are used to long, tedious treatments, and when they find that the first application of this soothing ointment ends the discomfort and makes the skin look clearer and healthier, it seems too good to be true!

If you really want to get rid of that tormenting or unsightly skin-trouble, why don't you give Resinol a try-out, anyhow?

Doctors have prescribed Resinol for many years, so it is by no means an experiment. It contains nothing that could irritate the tender skin. Resinol is also excellent for cuts, burns, scalds, chafes, stubborn little sores, and a dozen other things for which a gentle, healing dressing is needed. Comes in two sizes (50c and \$1)—the larger is the more economical. Sold by all druggists.

LUX For all fine laundering

For all their best dresses
The clear, transparent flakes whip up into the thick sudsy lather that immediately dissolves the dirt without a bit of rubbing. The flakes dissolve perfectly, so there is not a particle of solid soap to yellow or weaken the fabric.

They love to "dress up"
Once there was a Mother with three Babies. Said she, "I'll ruin the Children's best Dresses if I wash them. I'll wrap them up in Tissue Paper and put them on the Top Shelf in the Closet." So the Children wore Dark Gingham Jumpers and all the Neighbors said, "My, my, what grubby little Children. Stay in your own yard, Emily!"
