MEN OF SEVENTH WONDER WHO IS BACK OF SMASHUP

Many of Them Still Cling to Hope They Will Still See Service Under Leadership of Colonel Neville.

We will see service as a regiment and every effort is being made to hasten federal recognition and have the Seventh regiment designated as a unit subject to draft with the forces of the United States.

Those not willing to wait can enlist in the army or navy. Recruiting for the Seventh goes on as usual.

You have nothing to lose and everything to gain by sticking. P. S.—Don't ask foolish questions.

The foregoing bulletin was posted in the Seventh Nebraska headquarters in Farnam street Thursday morning. The bulletin was read and read by practically every member who is in Omaha waiting patiently for some word from Washington.

Some Caustic Comment. Probably 40 guards were loafing about the headquarters. About every 30 seconds some fellow would break loose with 53 different varieties of comment—caustic, sarcastic and otherwise—concerning the outlook for the "Unlucky Seventh."

"It's politics," rasped one recruit. Senator Hitchcock doesn't want Governor Neville to resign, for fear that Lieutenant Governor Edgar Howard will automatically become governor and Howard's a big man.

In little groups the recruits would bunch up in a corner and try to "kid" themselves into believing that everything would come out in the wash, but on the whole the attitude of nearly all of them did not appear to be very optimistic.

Much Feeling at Lincoln. Lincoln, Dec. 13.—(Special.)—What will be the outcome in the case of the Seventh regiment is problematical. Colonel Neville still has hopes, and while he sees his men falling all about him from the heavy shell of the War department, he is keeping up his courage and appears to believe that he will be able to withstand the shock and pull the regiment through.

Captain Lee Metcalfe, adjutant of the regiment and captain of the headquarters company, says he lost three from the company. Captain Herbert Gooch is out of the city, but it is said, that the Lincoln company, of which he is the commander, lost at least 15.

Soon All Will Go. The regrettable feature is that as membership in the regiment does not exempt a man from the draft, unless the regiment is recognized soon, it will lose every man in it of the draft age. This will sadly deplete some of the companies, and they can only be recruited up again by taking in men below or above the draft age.

Why the regiment should be allowed to recruit up to approximately 1,800 men, the maximum, get everything ready, take the government inspection, prepare itself in every particular with the exception of arms and uniforms, and then at the time when the men believed things were coming their way and there was hope of federal service, get the blow which was given it by the orders of yesterday, has not been made clear.

Some of its officers say that it is all right and that they could not expect to be called before the draft men, but it is well known that they have fully believed membership in the Seventh exempted them from the draft and that they went into the organization so that they could be under home officers and with home comrades.

Example of the Sixth. When the "Dandy Sixth" was shot to pieces by an order of the war department there was much feeling among members of the Seventh that a like fate awaited it. However, assurance was given, officially or unofficially that the new regiment would go in intact and with that assurance officers and men have been drilling faithfully ever since so that as far as efficiency in drill is concerned the companies outside of the manual of arms are in pretty good shape.

The all absorbing question among the officers now is "What shall we do to be saved." It is known that some faults were discovered in the recent federal inspections, but it is also known that these are of a minor nature and can readily be remedied, and, according to the governor, in no way are responsible for the order of the department which has hit the regiment so hard.

Both Colonel Neville and Captain Metcalfe, adjutant of the regiment, say they are not in the least discouraged, although it is plain to be seen that they are considerably disappointed and that the blow has hit hard. However like good soldiers and good citizens they are standing up under it and aver that they are more determined than ever to make a success of the regiment and make it once more worthy of the name "Lucky Seventh."

Attribute City Manager Defeat to Circular

Beatrice, Neb., Dec. 13.—(Special.)—Wymore citizens who favored the manager plan, which was defeated at a special election held there Tuesday, state that a circular issued Tuesday, in which they declared that the manager plan was a scheme to close the municipal lighting plant and turn over the citizens to the mercies of the electric company had a big influence in the election and undoubtedly caused the manager plan defeat.

FRANK ST. CLAIR FOUND GUILTY ON THEFT CHARGE

Kearney, Neb., Dec. 13.—(Special Telegram.)—Frank St. Clair was found guilty by a jury today, after seven hours deliberation of having received stolen property. The case occupied the sole attention of the court since Monday and there were present as witnesses or spectators the sheriffs of eight counties. The arrest of St. Clair was effected here shortly after D. P. Miller's auto was stolen at Fullerton and traced to this city. It was at that time that sheriffs of many counties banded themselves together to hunt down auto thieves.

They worked Fremont, Central City, Columbus, Grand Island, Broken Bow and other towns. All trails led to Kearney and not only the Miller machine, but other stolen cars were received here, together with a large quantity of accessories. The latter were recovered at the Faser farm north of Odessa, where the Miller car was also found.

Faser alleged on the stand that he bought the car from St. Clair, a horse buyer. The latter denied this allegation, maintaining that he never had the Miller car in his possession. St. Clair now in jail, states that he will appeal his case. Faser is also to face trial on a charge of receiving stolen property, his case not having been disposed of.

Guaranteeing DENTAL WORK

Is It Right? Is It Necessary? Is It Ethical? There has always been an argument on that point—the so-called "Ethical" Dentist taking the stand that No Dentist Should Guarantee His Work.

Medical and Dental Experts point out that—"The life of Dental Work depends on the human tissue and no one can guarantee that." I thoroughly agree to that—"Pyorrhoea may upset all calculations, and uncleanness, neglect and ill health may undo the Dentist's good work and in a few months the patient unjustly blames his dentist." I again concur, but the REAL POINT IS STILL UNDER COVER—I CLAIM THE PUBLIC IS ENTITLED TO PROTECTION AND A GUARANTEE OF VALUE RECEIVED FOR EVERY DOLLAR SPENT, WHETHER IT BE IN A DEPARTMENT STORE OR A DENTAL OFFICE. My personal opinion is that the unwillingness of the profession as a whole to give a guarantee with their work is BORN OF SELFISHNESS.

The scientific plea is but an EXCUSE—and not the REAL REASON for refusing to take any responsibility and asking the public to assume all the risk.

I HOLD, it is the DUTY OF EVERY DENTIST to examine the mouth, throat and teeth of every patient; to make note of the actual conditions—to recognize conditions tending to render dental work unsatisfactory because of diseases, neglect, uncleanness or otherwise—and to frankly inform the patient of these conditions, and if the work is undertaken it should be with this distinct understanding. In all other cases I Declare it not only right and just—but positively good business, to guarantee both the workmanship and material entering into any piece of dental work to be EXACTLY AS REPRESENTED—and most important of all—THIS guarantee should be given by the PERSON MORALLY AND FINANCIALLY RESPONSIBLE—and not by any hired Manager or Non-Resident (therefore process-proof) owner. MY GUARANTEE is like my personal word or bond—how good that is any bank will tell you.

Removes Hairy Growths Without Pain or Bother

(Modes of Today) It is not necessary to use a painful process to remove hairy growths, for with a little delatone handy you can keep the skin entirely free from these beauty destroyers. To remove hair, make a stiff paste with a little powdered delatone and water. Spread this on the hairy surface and in about 2 minutes rub off, wash the skin and the hairs are gone. To guard against disappointment, be careful to get real delatone.—Advertisement.
