Get Your Free Copy of The  
Navy Art Calendar Today

The Omaha Bee is sending free to its readers a beautiful patriotic Art Calendar.

The illustration on this calendar, the work of a well-known artist, sums up in a striking poster the War Spirit of America.

It shows the figure of Liberty with drawn sword pointing the way to a staunch American sailor, while over them both wave the folds of the Stars and Stripes.

There is no advertising matter on this calendar. It is a work of art, intended to serve as an ornament and a patriotic inspiration through what may well prove to be the most trying year in American history.

The calendar itself is practical and made for service. It is of the form which has a separate leaf for each of the twelve months, and a complete calendar for 1918 on the last leaf.

This is the American calendar for 1918. To get your free copy, write your name and address plainly on the attached coupon and mail with a 2-cent stamp for return postage to The Omaha Bee Information Bureau, Washington, D. C.

By MELLIFICIA—Jan. 2.

**E**PISODE No. 859 in the great serial, "The Perils of Pauline," Not Pauline of movie fame this time, but a real girl, Miss Pauline Settle was the central figure in a thrilling escapade, the first day she was in Omaha. It was Sunday and a dashing young lieutenant who was stationed at Fort Crook had been entertained at dinner at the hospitable Settle quarters at the post. Dinner over, the pretty young daughter of the colonel proposed an auto ride to the young man. Needless to say, he was delighted; who wouldn't have been?

They sped along over the frozen ground in the roomy car, Miss Settle driving. The young officer was very happy, the day was ideal, his companion one of the most charming girls he had ever met and life was very sweet—at that moment.

Speeding through the sleepy little hamlet of Bellevue they soon left the woods and fields behind them and found themselves on the main street of our newly-acquired South Side. I am afraid that the pretty little driver was too much engrossed in conversation with the khaki-clad man at her side at this moment for—crash! When they came to they found they had run into another machine and before you can think a crowd had gathered.

A policeman was soon on the scene, who insisted on the appearance of the young lady and her companion at the police station immediately. It was a very embarrassing situation, for, as we all know, when one of the minions of the law commands he must be obeyed.

Melliflacia was not advised as to the amount of the fine, but when pretty Miss Settle was asked if she was hurt she replied:

"No, but I wish I had been, then I would have gotten sympathy instead of a scolding."

## American Hospital Vessels Set Precedent and Will Employ Women Nurses

Washington, D. C., Jan. 2.—Women nurses are to be employed on board naval hospital ships in this war for the first time in American naval history. It became known today that they will be assigned to two vessels soon to be ready for service, the *Comfort*, formerly the Ward steamship *Havana*, and the *Mercy*, formerly the *Saratoga*, of the same line.

Both vessels have been completely remodeled and fitted with accommodations for 300 patients each. There will be special quarters for the women nurses. Much of the refitting of the vessels is modeled upon the plans of the new naval hospital ship now building, which naval officers regard as the last word in scientific arrangements for caring for the sick and wounded.

Surgeon R. C. Holcomb, now assistant to Surgeon General Braisted, will command the *Comfort* and Norman J. Blackwood, medical inspector now in charge of the hospital ship *Solace*, will have charge of the *Mercy*.

## Kitchen Don'ts

Thirty manufacturers of "kitchen utensils have issued an appeal to conserve pots and pans as much as possible on account of scarcity and cost of metals. Hotel men have responded by issuing the following suggestions to their kitchen employees:

Don't heat foods in a pan without water.

Don't use coarse scouring powders.

Handle kitchen utensils with care.

Soap and water are the most economical and easiest cleansers, also they are far less damaging to the hands.

Buy shapes and sizes that can be used for many different purposes.

Don't scrape pots and pans with sharp knives. Soak them instead.

## Worth While Tips

Scrambled eggs and fried onions can be combined to make a savory dish.

Picture postcards if saved will be fine amusement for the convalescent child.

Allow one-half cupful of flaked oats for each person when making porridge.

One teaspoonful of salt seasons one quart of soup, sauce or custard mixture.

A straw hat shape is as good as any for winter if covered with stylish material.

Grease stains can be removed from clothing by applying the beaten white of an egg.

There are 20 ways of serving canned salmon and 20 ways of serving apples.

Lobster salad can have chopped celery mixed with the lobster to make it go further.

One half cupful of finely ground nuts added to a custard makes a delicious crust.

A teaspoonful of good brandy added to chocolate will bring out the flavor greatly.

Cookies should be put in a cloth-lined stone jar when hot if you would keep them soft.

One way to use the old stockings which are worn at the heels and toes is to make leggins of them.

It is surprising how much new laces will add to the appearance of old shoes that have been resoled.

## Norfolk Tailor Says He Has Sweetheart in Moon

Madison, Neb., Jan. 2.—(Special) Julius Lamme, a tailor of Norfolk, is on his way to the state hospital for the insane because he insisted he was as old as Methuselah, had a sweetheart in the moon, was the exclusive owner of the keys to heaven and had relatives in Jupiter. When brought before the commission of insanity he said his name was John D. Ockafellow.

## Do You Know

A salt producing lake near Salinas station, on the Tampico division of the Mexican Central railway, 72 miles west of San Luis Potosi, is one of the wonders of Mexico. It may be termed a two story lake, for at times there is a lake of fresh water overlying the salt lake. A watertight roof of green mud separates the fresh from the salt water.
