

KENNEDY TELLS OF REBATES DUE TO COAL BUYERS

Fuel Administrator Explains Difference Which Consumers May Expect From Dealers.

John L. Kennedy, federal fuel administrator for Nebraska, issued the following statement concerning rebates to coal consumers in the city of Omaha.

"The rebate to be paid to the purchaser of coal, who has been charged more than the government price, is not the difference between the price paid and the price established December 19, 1917.

"It is the difference between the price paid and the government price, between October 1, 1917, and December 19, 1917, based upon the 1915 average gross margin of the dealer selling the coal.

"That may be ascertained from his books and from statements in the hands of the Douglas county fuel committee.

"The present prices are based upon the average gross margins of all the dealers; so that they may all charge the same price for a given kind of coal.

Coal on a Cash Basis.
The present prices are reasonable, but close. They represent economy in management. Consumers should cooperate.

"The dealers in many cases have to pay cash for coal. They have a right to expect cash from their customers. By placing business on a cash basis, the expense of bookkeeping, postage, stationery and making collections is reduced, and bad debts are eliminated."

Children's Tin Box Fund Reaches Big Sum in Year

Mrs. Walter Page, 101 North Thirty-ninth street, chairman of the children's tin box fund in Omaha, reports that the fund reached \$27,841.00 during the first year of its existence. The children's tin box fund started at Bristol, R. I. On this first box was written "For the children in Belgium and northern France. Put in 3 cents. It will give a child one meal."

Later several boxes were placed in New England cities and finally the movement grew until it is now represented in almost every state in the union. Boxes are placed in shops, restaurants, hotels, homes, etc. No begging appeals or requests for money have ever been made by officers of the fund. All donations are voluntary.

J. C. Barrett Appointed To City Planning Body

John C. Barrett, South Side lawyer, has been appointed member of the city planning commission to succeed Everett Buckingham, whose resignation has been accepted by the city council. Mr. Buckingham has not had the spare time necessary to give intelligent attention to the work of the commission. George B. Prinz was reappointed for two years.

Begin Work on Central Congregational Church

Preparations for erecting the new Central Congregational church are going on with the wrecking of the house at Thirty-eighth and Harney streets, where the church will be erected. The contract has been let and construction will proceed as the weather permits. This was formerly St. Mary's Avenue Congregational church.

START JUNIOR RED CROSS DRIVE SOON

National Society to Give School Children Opportunity to Join in National Work.

The Junior Red Cross drive is the January feature of the national society. The campaign to organize all the school children of the nation in the Red Cross society is scheduled to be launched at the end of this week, according to Washington headquarters.

Organization of the Nebraska campaign is now under way, preliminary arrangements having been slightly delayed on account of absence of Red Cross officials from the city. School children who took out 81 memberships in the Christmas week campaign will automatically become members of the junior society, state officials announce.

Edmonds to Capital.

T. J. Edmonds of Cincinnati, Central division director for civilian relief, who spent Wednesday in Omaha, has been called to Washington headquarters. Prof. Gillan of the University of Wisconsin, and Mr. Stillman of Minneapolis will assume his work.

A new class for volunteer civilian relief workers under Miss Verna Elvinger started their course Wednesday. The course has been cut to 10 lessons.

Mrs. Z. T. Lindsey, state director of woman's service for the Red Cross, has gone on a six weeks' trip to Florida. Miss Nellie Calvin, surgical dressings head, is also absent from the city.

Traveling Agents of Railroads Called In

As a result of the order that has gone out, discontinuing the solicitation of railroad freight and passenger traffic, traveling agents of all departments of the roads are hurrying into headquarters.

Agents of the Omaha roads are practically all in and the men have been called off the streets. Up to this time the men connected with the local roads have all been given employment in the various departments of the home offices, put onto work with which they are familiar.

Rail Superintendents End Meeting in Omaha

General superintendents of Omaha lines of railroads, in session here for the purpose of suggesting methods for the reduction of train service without impairing its efficiency and for the purpose of aiding in carrying into effect the orders of the government relative to the pooling of business equipment and terminal facilities, have adjourned. Report has been completed and sent to Chicago, where it will be presented at the meeting of general managers, now in session.
