Lovely Sarah Padden---  
And Lonely Mary Trask

Actress May Play a Sketch  
Written by Mrs. Henry Doory.

By ADELAIDE KENNERLY.

I LIKE you, Sarah Padden! Everybody likes you and there was something lovable about Mary Trask, else how could she have won the hearts of so many who do not know Sarah Padden. In "The Clod," a sketch by Lewis Beach, this young actress holds her audience from curtain to curtain. They laugh at her in the beginning, cry with her as the play goes on and live grow harder; they "emote" with her when, in desperation, she seizes a shotgun and kills the intruders. Is she pretty? folks ask. Is she harsh-looking? Is she really a clod? Mary Trask vs. Sarah Padden. Yes, Mary Trask is really a clod, but Sarah Padden is the simplest, sweetest, most unaffected Irish girl you ever saw. Back behind the footlights, and then beyond the stage, I met the ambitious young actress before "Mary Trask" had been removed. It was a revelation to watch the change. The clod wears ragged clothes from top to toe. Her lingerie is old, her hose are cheap cotton and her slippers are slouchy; just the kind one sees in a poor, delapidated farm house where ignorance almost smother's life. First the makeup comes off and her skin is softened up by a bit of powder. No beauty spots, no mascara, no lip stick and no curls, but her hair is dressed becomingly with rather a Broadway turn to it. Last in the transformation Mary Trask's slippers come off. Silk hose and dainty boots take their place. Behold! In a velvet street suit stands Sarah Padden! "Broadway and the white lights? I have nothing against them, but give me Springfield, Ill., Des Moines, Kansas City and Omaha for real people, real appreciation and warm hearts. Why, I just love Kansas City and Omaha." This from Miss Padden. "I have played golf at your Country club in Omaha and have met some of the best, breeziest, whole-hearted persons I have ever known," she continued. "Do you know Mrs. Henry Doory?" Yes, we knew Mrs. Doory. "Well, she submitted a sketch. It interested me at first. I read it again and now I can't get it off my mind."

MISS SARAH PADDEN

The thought is splendid, unusual and she has handled it beautifully. When my Orpheum engagement is over I think I shall play it—in the spring. "You asked something about an ambition, back two miles or more, when our conversation was young. Well, my ambition is to be the greatest American actress of this generation. I may never attain such heights, but I can keep on hoping and working. No Chance to Be Wicked. "I love Mary Trask and half the things she says on the stage are thoughts from her own mind. It struck her funny one day that 'there is no rest for the wicked' and she laughed to think how little chance she had to be wicked. Now she tells her audience about it. "I could not be a good Mary Trask with one piece of fine lingerie on. Why, a decent hairpin would spoil the whole thing. She is no different, you know, from Sarah Padden." Sarah Padden lacks the pose of the average stage woman. She doesn't try to impress one with her importance, but is anxious about such wholesome sports as golf and skating. She likes the ambition of Omaha women and declares that they have more pep than women of most other cities. Sarah Padden is not merely an entertainer. She is more—she is a real actress who loves her work, loves people and life.

Good Corn Meal Recipes

The South Atlantic states have known the value of corn in cooking for a long time. For this reason we can turn to them now for many delicious recipes. The following, for instance, is a favorite breakfast or luncheon dish with them: Waffles. One can milk. Three-quarters cup flour. Two-teaspoons baking powder. One-half teaspoon salt. One egg. Add beaten egg to milk and add dry materials, well mixed. Method 1—Mix milk, egg and melted fat and add dry ingredients, well mixed. Method 2—Scald corn meal with the hot milk; add egg, melted fat, and dry ingredients. Surprise Party. Mr. W. S. Wilcox was surprised by 30 of his friends Thursday evening at his home. He was presented with

The Silver-Tongued Orator of Minnesota, Charles A. Towne, Former United States Senator  
Late Member of Congress from New York—Nominated for Vice President  
Recommends Nuxated Iron to All Who Feel the Need of Renewed Energy  
Says That Henceforth He Shall Not Be Without It

Probably no remedy has ever met with such phenomenal success as has Nuxated Iron—Over three million people annually are taking it in this country alone, to say nothing of the vast number who are using it in France, England, South America and other countries. It has been highly endorsed and used by Former United States Senators and members of congress; physicians who have been connected with well-known hospitals have prescribed and recommended it; Monseigneur Nannini, a prominent Catholic clergyman, recommends it to all members of the Catholic Church. Former Health Commissioner Wm. R. Kerr of Chicago says it ought to be used in every hospital and prescribed by every physician; Dr. H. B. Vail, formerly physician in the Baltimore Hospital and a Medical Examiner, says that time and again he has prescribed Nuxated Iron and surprised patients at the rapidity with which the weakness and general debility were replaced by a renewed feeling of strength and vitality; Former First Assistant Post Master General of the United States, C. P. Grandfield, strongly endorses and recommends it to the tens of thousands of civil service employes who know his name and signature. Sarah Bernhardt—"the Divine Sarah," the world's most noted actress, has ordered a large quantity sent to the French soldiers to help give them strength, power and endurance. The famous "Cyclone" Davis, member of the 54th United States Congress, says an effect of Nuxated Iron on him was almost magical, that after taking it, nothing seemed to tire him out no matter how strenuous it might be. Dr. A. J. Newman, late Police Surgeon of the City of Chicago, and former Surgeon at Jefferson Park Hospital, Chicago, says Nuxated Iron has proven through his own tests of it to excel any preparation he has ever used for creating red blood, building up the nerves, strengthening the muscles and correcting digestive disorders. Dr. Schuyler C. Jacques, Visiting Surgeon at St. Elizabeth's Hospital, New York, says he has never before recommended any remedy to the public, but that in the case of Nuxated Iron he would feel he were remiss in failing to mention it. Dr. Ferdinand King, New York Physician and Medical Author, says that in his recent talks to physicians at the grave and serious consequences of iron deficiency in the blood of American women he has strongly emphasized the fact that doctors should prescribe more organic iron—Nuxated Iron—for thousands of cases, and thereby the lives of thousands might be saved.

What Senator Towne Says:  
"As a member of Congress from New York, as a member of Congress and Senator from Minnesota, as participant in political campaigns and candidate for Vice-President, my nervous energy and reserve force were tremendously drawn upon. That I survived these trials and came into advanced middle life with the elasticity and strength of a boy is unquestionably due to the rigorous attention I have paid to the pro-

per care of my body. Recently I have been taking Nuxated Iron and have found it of the greatest benefit as a tonic and restorative. Henceforth I shall not be without it. I am in a position to testify for the advantage of others, to the remarkable and immediate helpfulness of this remedy, and I unhesitatingly recommend Nuxated Iron to all who feel the need of renewed energy and the regularity of bodily functions."  
saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble and other dangerous maladies. The real cause which started this disease was nothing more or less than a weakened condition brought on by a lack of iron in the blood. Thousands of people suffer from iron deficiency and do not know it.  
If you are not strong or well, you owe it to yourself to make the following test: Go on a walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.  
Nuxated Iron, which has been used by Former United States Senator Towne with such surprising results, and which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine nor secret remedy, but one which is well known to druggists everywhere. Unlike the other iron pills, it is easily absorbed, does not irritate the stomach, makes them black, nor upon the stomach; on the contrary it is a most potent remedy for iron deficiency. The manufacturers have such great confidence in Nuxated Iron that they offer to furnish \$100.00 to any charitable institution if they cannot take any man or woman under their care who lacks iron and increase their strength 100 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to return your money if it does not at least double your strength and endurance in ten days' time. It is Nuxated Iron, Dr. J. C. McClellan & Co., New York City.

Dr. E. Sauer, a Boston physician who has studied both in this country and great European medical institutions, said: "Nuxated Iron is a wonderful remedy. Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of twenty, and as full of vigor, vim and vitality as a young man; in fact, a young man he really was, notwithstanding his age. The secret, he said, was taking Iron—Nuxated Iron had filled him with renewed life. At 30 he was in bad health; at 46 he was careworn and nearly all run-down; after taking Nuxated Iron, a miracle occurred and he was able to give me the buoyancy of youth. If people would only take Nuxated Iron when they feel weak and run-down instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages, I am convinced that in this way they could ward off disease, preventing it becoming chronic in thousands of cases, and thereby the lives of thousands might be saved."
