

GEORGIA SOLON ATTACKS NEWS PRINT CONTROL

Government Control of Industry Is Opposed by Senator Hardwick of Georgia in Sarcastic Speech.

Washington, Jan. 9.—Senator Hardwick of Georgia today assailed the senate resolution to have the trade commission take charge of the news print paper industry, with an attack on newspapers and a declaration that regulation of the news print paper situation was no more necessary to winning the war than the control of the cotton or potato fields.

"Surely we are not going to send over-zealous newspapermen to fight the Germans," he said, "although I would like to take a few and stick 'em in the front firing ranks of the men they've drafted. If we could win the war with newspapers, we'd have had it won long ago. The trouble is that some of our most valiant newspaper fighters and some newspaper victories don't contribute much to results."

Trust Controlled.

Senators King of Utah and Sherman of Illinois also asked Smith of Arizona, in charge of the resolution, why it is any more necessary to have government control of print paper for public safety and defense, than of any other business.

TROTSKY STATES RED PEACE PLANS

Declares Separate Peace With Germany World Be to Advantage of Allies; No Offer Has Been Made.

London, Jan. 9.—Leon Trotsky, the Bolshevik foreign minister, is convinced that the entente governments wish Germany to make an advantageous separate peace with Russia so that Germany will agree more willingly to surrender what the allies want in the west, according to the Petrograd correspondent of the Daily News.

The foreign minister, who was interviewed as he was starting for Brest-Litovsk, said that Premier Lloyd George had made a statement permitting such an interpretation and he spoke along the same lines in an editorial printed earlier in the Bolshevik organ, Pravda.

Premier Lloyd George, the correspondent assured Trotsky, had never made such a statement, but the Bolshevik leader was hard to convince, and said: "That is the allied policy."

Germans Need Settlement.

He added that the attitude of the Bolsheviks would not be influenced by the attitude of the allied governments, but by that of the allied peoples.

Hair Often Ruined By Washing With Soap

Soap should be used very carefully if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsumed coconut oil (which is pure and greasless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

German Soldiers Forbidden to Speak at Political Meet

Amsterdam, Jan. 9.—A number of disabled German soldiers were invited on Monday to attend a meeting of the fatherland party, founded recently in the interests of the pan-Germans and other uncompromising elements. They were not permitted to speak and a storm scene followed.

One of the speakers referred to the disabled soldiers as deserters who had left Hindenburg's banner to betray their comrades. Some of the cripples, Vorwaerts says, "were belabored with sticks and abused by the heroic 'home warriors' of the fatherland party."

The amendment as reported by the suffrage committee makes no limitation on the time in which the states must act on the resolution.

Representative Raker of California, who will have charge of the resolution in the house, predicted its adoption by more than a dozen votes over the necessary two-thirds. Debate will run four hours and the voting will begin at 4 p. m.
