EQUIPMENT ONE OF SHAFER CO.'S **GREATEST ASSETS**

Make for Wonderful Convenience for Patrons of Concern.

The recently installed equipment for the manufacture of celluoid specialties and the quick service the firm is able to give its patrons in this line required to manufacture and make shipments oftentimes resulted in a part of the type as it makes it. serious handicap in the sale of this class of goods. Consequently the firm not only grasped time by the forelock, but reached away back behind the ears and succeeded in getting much the same manner, the operator much the same manner the operator much the same manner. of dollars to purchase the machinery. But the bosses of this concern consider speed one of the essential feasoon their judgment will be vindicated

our own "home company."

Notwithstanding the high price of leather—the particular kind of leather required for the manufacture of leather specialties, Shafers are still leather specialty line. If it carries adboots and shoes and harness and machinery belting and such like. But it chine. Our illustration will give an does include such nifty little articles idea of the appearance of the key- so that it is possible for the Mono- serve their customers better and does include such nifty little articles idea of the appearance of the keyso that it is possible for the Monoserve their customers and with all

of manufacture down to the lowest their classy appearance and wearing qualities, leather specialties and novelties impress upon the recipient the stability of the advertiser—that is, the man who makes you a present of a new leather pocketpook, upon which his name and business is embossed in gold letters, has made a very farming of a mold a letters.

Now we come to the humble lead about the cheapest thing in the market, for it is bound to make its mark in the world. Lead pencils, proper, are purchased from manufacturers in lots of from a quarter to a half a million. Then the pencils are put through a little "doodad" operated by a pretty maiden and after being put through this machine come out bearing a neatly printed advertisement-that is, the pencils do, not the

Millions of these advertising pencils are distributed annually. Insurance companies especially are heavy buyers, and during the last year two insurance companies alone purchased over 100,000 pencils of M. F. Shafer & Co., to say nothing of the several hundred smaller orders of anywhere from 1,000 to 5,000.

To go into details and fully deads are placed on them would be a the United States government will get after Shafers on the charge of nonconservation of valuable print paper. much of the most interesting part of this story will have to be eliminated The fellow who is writing this story Maust return to the commonplace de-tails of murders, fires and robberies that make up the usual assignments of the poor newspaper scribe, and besides R. F. Clark, the advertising manager of Shafer's, has a great big blue pencil and is not at all shy about using it. Therefore if the most interesting part of the story is cut out you will know who to lambast.

Watch fobs are another specialty

designed, manufactured and sold in big lots. The fobs as animated advertisements are artistic and inexpensive, beautifully engraved on metal designed by the artist for the particular lines of business they are to represent. Any number of designs from which to select, and if you do not care for any of the designs submitted just give the artistic artist an idea of what you want and he or she will design it for you. The firm turns out large orders of classy watch fobs

for progressive concerns.

But the noon whistle is blowing and the writer will skip the balance of the specialties and let you see these wonders for yourself when you come to inspect the plant next Thurs-

Wilson's Speech Approved

By Hungarian Statesman Berne, Jan. 12 .- Count Karolyi, the Hungarian statesman who has just visited Switzerland, approved in gen-eral of President Wilson's view of peace terms, in a score or more speeches and statements which he made while here. In Count Karolyi's opinion, the necessary conditions for a lasting peace are renunciation of all annexationist aims and the complete democratization of all the belligerent powers. Speaking particularly of Hun-

rary, he said:

"The new scheme for electoral reform in Hungary, while it does not mean equal universal and secret voting, yet brings with it a reasonable extension of the right to vote, and is therefore to be regarded as a step in the way towards that democratization which is necessary if a lasting peace is to be secured, and the first result of which will be a complete reform of Parliament to the end that the government will be dependent on the mass of the people, and not mere-

ly on the middle classes.
"As for the problem of nationalities in Hungary, it will solve itself automatically when the whole system of government has been democratized. The Mittel-Europa scheme will inevitably result in the perpetuation of war, and is to be condemned on that account. Freedom in commercial relations is a necessary attribute to a lasting peace, and Hungary must have a free hand in all economic questions and not be bound to Germany by any long-standing agreement."

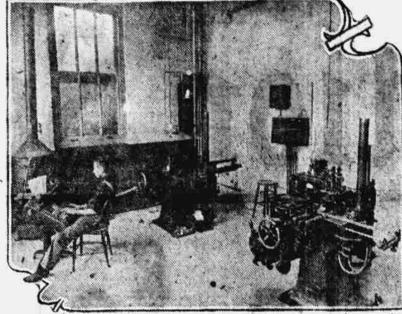

Monotype Machine Like Huge Typewriter

One of the most important departments of a printing business is the composing room and unless it is well equipped with up-to-date facilities it s impossible to give that service that is so necessary in these days to secure and hold customers. Shafer & Co. Facilities for Quick Service realizing this have long been users of the most modern composing room equipment-the Monotype-and have celebrated their change of quarters by adding to their Monotype equip ment a new keyboard of the latest pattern, and a new caster.

The average reader who is unfamiliar with printing may not realize the full value of this wonderful machine to the printer, or what it means to his customers until we call his ats a wenderful convenience all around, tention to the fact that the Monotype Heretofere these orders were neces- will make all the type and material sarily placed in the east. But the time required by a printing plant in its composing room, and will set a large

CHAMPION HELPER FOR THE RED CROSS

Mrs. Charles White of Dell Rapids Raises Sheep, Shears Them, Makes Yarn and Knits.

Dell Rapids, S. D., Jan. 12.-Beause she raises sheep, shears them, cleans and cards the wool, makes yarn, colors it to the Red Cross standard gray by carefully mixing the wool, and knits socks, sweaters and helmets out of it for the Red Cross, Mrs. Chris White of Dell Rapids has obtained the title of "America's champion Red Cross helper.

This title was given Mrs. White by the Minneapolis Red Cross headquarters, where she sends all of her work her name leads all the other workers in the northwest She also knits for her grandsons in the army and for other boys with whom she is personally acquainted in army cantonments and "over there." She is 70

years old. The number of articles she has knitted since the United States entered the war, Mrs. White said she could not estimate, but she protested that her work was "not worth making

so much fuss about." Did It for the Soldiers.

"What I did for the soldier boys and what I'm doing isn't much," she said, as her hands made her knitting needles fly. "When I sheared the sheep, washed and combed the wool, spun the yarn and knit the socks, I had no idea of anybody taking any notice of it. You see, I simply did i for the soldiers. To me it seems very easy, because it's something I learned in my childhood.
"Up here," she continued, stil

knitting vigorously, without looking the time I cut the wool off the sheep up, "you know we women can't run to the time I have finished a pair of to the store every time we need a lit-tle yarn. Why, they charge too much that I do my housework in that time, for it; much more than they ought, too," she continued, as she looked up considering what they pay us for for the first time and stopped her kuitthe wool we sell.

"It takes me about a week from the ball on the floor."
