

CHICAGO TRAINS OF FRIDAY HAVE ARRIVED HERE

Snow Blockade Being Removed and Freight Trains Start in All Directions.

The first railroad train from Chicago since last Friday arrived at 1 o'clock Monday morning, coming over the Northwestern. It left Chicago Sunday noon and brought passengers ticketed over nearly every Omaha-Chicago line. The government had nothing to do with the operation of this train, though it was reported that such was the case.

The Northwestern was the first of the Omaha-Chicago line to clear its tracks out of Chicago and to the west. This done, the word went out to the offices of the other roads. To hurry their passengers through, they were sent to the Northwestern station and came through on the first train out. The plan followed was in line with those often adopted in cases of similar emergencies.

Friday Train Gets In.

Burlington No. 5, due in Omaha last Friday at 8 o'clock, arrived on its own time Monday. It had been tied up in snow banks in the vicinity of Aurora, Ill., for more than 48 hours.

Later in the day normal service was restored on all of the Omaha-Chicago lines. Trains arrived from the east practically on time, having left Chicago Sunday and Sunday night. Trains going east were sent out on schedule, a number of them not waiting for their western connections.

Trains from the north, west and south came and went, but as a rule they were running from one to two hours late.

By Tuesday, railroad officials assert that regular service will be restored so far as passenger trains are concerned.

Freight Starts to Move.

The freight train service is still in a chaotic condition. Owing to the Chicago yards and belt lines being blocked with snow, a complete embargo on all classes of freight has been laid against Chicago. As a result, no freight trains, other than locals are being sent east and more are arriving except those that have been routed around Chicago.

Coal trains from the mines in southern Illinois, Missouri and Kansas are being rushed over the roads and everything possible is being done to prevent any serious shortage.

While the supply of coal, particularly that used under steam boilers, is running low, no alarm is felt as there is plenty enroute and it is coming along as fast as trains can move it.

The Omaha roads are sending their freight trains to the west. Freight started to move Monday morning in large quantities and with clear weather all the way through to the Rocky mountains, railroad men feel that they have the situation well in hand.

McCormack and Galli-Curci Sing in "La Boheme"

John McCormack, Irish tenor, who will appear here at the Auditorium in song recital Friday evening, and Galli-Curci, the famous coloratura soprano, sang together for the first time, Sunday matinee, at the Auditorium theater in "La Boheme"; Galli-Curci as Mimi and Mr. McCormack as Rodolfo.

Mr. McCormack appeared during the week for the third time this season in concert at the New York Hippodrome, singing to an enthusiastic audience of over 6,000, of which over 600 were seated on the stage.

During the week he sang to an audience of over 4,000 at Canton, O., the home of the late President McKinley. Every indication points to a record audience here Friday night.

Chicago Woman Accepts as Superintendent of Nurses

Florence McCabe of Chicago has accepted the superintendency of the Visiting Nurse association. Definite word of her acceptance has been received. She was elected by the board last week.

Miss McCabe was graduated from St. Luke's hospital and from the School of Civics and Philanthropy, Chicago; served as superior in St. Luke's hospital, was engaged in dispensary and visiting work for the Municipal Tuberculosis sanatorium, Chicago, and organized community work for the Red Cross society after a tornado at Mattoon, Ill., last June. She is expected in Omaha next Saturday to begin her new work.

Teamster Killed in Fall From Truck to Pavement

John Clotfelter, teamster, employed by Tom Jones, 1114 Dodge street, was instantly killed Monday morning when he fell from a truck at Fifteenth and Jackson streets.

Clotfelter was unloading heavy pieces of lumber, which were piled high on the truck. He handed one down to Ben Forbes, a fellow worker, and then lost his balance. He fell back of the wagon, striking his head on the pavement.

He is said to have no relatives in Omaha.

Grain Stocks Continue to Show Decrease Under 1917

While grain stocks in storage in Omaha terminal elevators aggregate 1,602,000 bushels, they are 2,044,000 less than on the corresponding day of last year. These are the figures of the inspection department of the Omaha Grain exchange:

Wheat	Now	Year Ago
Now	1,602,000	3,646,000
Barley	23,000	15,000
Total	1,625,000	3,661,000

Prisoner in City Jail Attempts to Stab Turnkey

Fred Fencil, arrested on a charge of intoxication, attempted to stab Andy Fahy, turnkey in city jail, with a screwdriver, which he had concealed in his clothing. Desk Sergeant Wilson wrenched the weapon from his hand.

TRINITY BAPTIST NOW CLEAR OF DEBT

South Side Church Raises Big Sum Through Campaign Conducted by New York Edifice Expert.

Congregation of the Trinity Baptist church of the South Side Sunday underwrote the entire amount necessary to complete the new church edifice and dedicate it free of debt. The whole amount raised was \$14,551.50. Rev. Frank H. Divine, edifice

REV. CHAS. F. HOLLER

secretary of the American Baptist Home Mission society, came from New York to conduct the campaign.

Trinity Baptist church was organized in 1887. It has three mission stations, one at Hillsdale, one at Brown Park and one in Sarpy county. The present pastor, Rev. C. F. Holler, came to Omaha from Hot Springs, S. D., 18 months ago. The present building at 25th and H streets is a brick church with wide stone steps, large columns at the entrance and all modern conveniences inside.

Marines Say Their Pay Does Not Reach Wives

The Sun theater has donated the use of a storeroom in the theater building to the marines for a recruiting station. The room is being outfitted with desks and chairs and will be used principally as a publicity station. Examinations will be given at the headquarters in Fifteenth and Douglas streets.

The dependency orders whereby the government takes one-half of the pay of the soldier and sends it to his wife, together with the government allotment, is proving inconvenient for marine recruiting officers. The government has taken half of their pay, but their November pay has not yet reached their wives, necessitating the marine supporting his family on one-half his pay. With the present high cost of living they say this does not go very far.

Kansas Adopts New Freight Demurrage Rules

The general freight offices of the Omaha roads have received notice to the effect that the Kansas State Railway commission has applied the freight car demurrage rules suggested by Director General McAroo and that hereafter they will be enforced as against all shipments.

The rules as adopted by the Kansas commission allows 24 hours of free time for unloading a carload of freight after it reaches destination and is spotted. After the expiration of the 24 hours demurrage accrues at the rate of \$3 for the first day, \$4 for the second and an increase of \$1 a day until the maximum per day of \$10 has been reached. After that the demurrage charge increases \$10 a day so long as the car is held by the consignee of the contents.

Harvard Club Sends Money To Alma Mater War Fund

The Harvard club will hold its annual meeting and election of officers at the University club Tuesday evening, January 22. It will hold no banquet this year because of the war, and will send the money usually expended on a banquet to the war fund of Harvard university. The appropriation for the maintenance of the university will show a deficit of \$30,000 this year, due to the courses of military instruction being given to assist the government in training men, and the banquet money will be applied to this fund.

Morals Squad Arrests Five On Charge of Having Liquor

Morals squad arrested J. G. Liseo, proprietor of a soft drink place at 2002 N. street, M. H. Sherman, 4939 South Twenty-sixth street; Ralph Curley, 4942 South Twenty-sixth street, and Joe Jasper and John Kozar, both living at 4910 South Twenty-fifth street, on a charge of illegal possession of liquor.

Automobile Thief Allowed to Pass His Last Days Free Man

Frank Keating, found guilty by a jury of the theft of an automobile belonging to Joe and Clark Carnaby last October, is given a limited lease on life by physicians and will not serve "time" with his partner, Frank Walters, who was sentenced from one to six years in the penitentiary.

Physicians reported to Judge Sears of the criminal court that one of Keating's limbs was entirely gone and the other seriously affected. He was paroled by Judge Sears to Adult Probation Officer Anderson for two years.

"I had two doctors examine Keating and they advise me that he is probably under 'death sentence' from the tubercular germ," said Judge Sears. "I did not feel it incumbent upon me to elaborate upon the mandates of the higher court."

Under the parole Keating will be allowed to take treatment in Omaha or will be sent to the county hospital. He remains under the jurisdiction of the court.

RED CROSS ASKS CHAUFFEURS TO KNIT WHEN IDLE

Private Drivers Are Enthusiastic, But One Public Speed Demon Grunts Out Blunt "Nit."

Omaha chauffeurs should knit. Mrs. Howard Baldrige, state Red Cross censor, believes the men who drive buzz-carts waste a lot of time when not speeding, by sitting idly at their wheels.

"All the chauffeurs in New York are doing it," said Mrs. Baldrige. Mrs. Baldrige proposes a knitting class for chauffeurs to be headed by "Mike," the trusty chauffeur of Mrs. Charles T. Kountze. He is constantly on duty for the Red Cross, carrying supplies and messages and people on Red Cross errands.

Donate Their Services.

"Mrs. Arthur C. Smith and Mrs. N. P. Dodge have donated the services of their chauffeurs to the inspection warehouse," said Mrs. Baldrige. "Miss Jessie Millard's chauffeur, Gould Dietz and Dr. Harold Gifford's have also done a great deal of work for the Red Cross. If they were to begin the knitting, I am sure all the chauffeurs in Omaha would follow their example."

One taxi-driver whom The Bee reporter approached, all exuberant over the new idea, gave the newspaper person a vacant stare before he rolled a wad of tobacco over to the other side of his mouth, and spat out a stream reaching from here to Council Bluffs.

A grunt was his only reply.

Naturalized Greeks Accepted in U. S. Service

Enlistments in the navy are now being taken only for the duration of the war and but 30 recruits per week will be taken. Ensign Condit is daily expecting orders to again raise the limit following newspaper reports that congress had been asked to pass a bill authorizing the war strength of the navy increased 80,000 men.

During the last week 101 men enlisted in the navy from the Omaha recruiting district. Many were members of the defunct Seventh regiment. Greeks who have been naturalized may now enlist in the army providing they are over the draft age or men under the draft age whose parents are naturalized. Until recently Greeks could not be accepted.

Two Branches of Military Service Open to Conscripts

But two branches of military service remain open to men of draft age, the navy and the marines. For men between the ages of 21 and 31 to enter the army it is necessary to enlist by induction, with no privilege of the particular branch of the army being designated. Men joining the army by induction are sent to the national army training camps. Due to this fact, naval and marine recruiting officers are mailing former members of the former Seventh regiment literature pertaining to the desirability of service on the sea.

Marine recruiting officers are preparing for a rush of enlistments during what is thought to be a temporary order limiting the number of recruits taken into the navy. The marine station which was recently reopened after being closed several months guarantees to send recruits to a training station immediately.

Railroaders Are Heavy Buyers of Baby Bonds

C. J. Ernst, captain of the railroad team working in the interest of the thrift stamp drive, reports most satisfactory results. Although he and the members of his team have been working only since last Saturday, the sales of thrift stamps have run into the thousands of dollars.

Captain Ernst reports that railroad employes are subscribing liberally, and that many of the unmarried men and women are taking \$100 blocks of the thrift stamps, paying in installments of \$5 and \$10 a month. A large number of the employes who are making these purchases are receiving salaries of \$100 and less per month.

Easy to Darken Your Gray Hair

You Can Bring Back Color and Lustre With Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, though at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.—Adv.

SEEK NEW QUARTERS FOR RED CROSS SHOP

Workers Overflow Room at 315 South 17th Street and Women Make New Plans.

Larger quarters for the Red Cross public workshop are now sought. The workshop at 315 South Seventeenth street, opened only three weeks ago, is taxed every day to its capacity of 60. Negotiations for the rental of an adjoining vacant store room are now in progress, Mrs. Joseph Barker announces.

The workshop opens Tuesday night from 7 to 9 for the first time in response to a request from women employed during the day. All the assistants to Mrs. Frank W. Carmichael, who has the shop in charge, will be present to give instruction.

The record of last week's work in the shop is a top-notch. Four-by-four-inch wipes, to the number of 3,025 and 190 triangular bandages were completed in one week. Omaha's quota for wipes for the month of January was only 5,000.

"Seventy-five per cent of the women who worked here had never handled gauze work before," said Mrs. Carmichael. Ten thousand yards of gauze were cut by hand in doing this work.

The gauze cutting machine ordered by the Omaha chapter is expected to arrive today and will be installed in the Baird building.

Mrs. Lee Huff was named second vice chairman Mrs. Frank Ellick, first vice chairman was quarantined for a few days with illness in the family.

District Exemption Board Begins Session Tuesday

District exemption board will convene Tuesday morning and remain in session until all claims for deferred classification, with the exception of those on the ground of dependents, and appeals from the decision of the local boards, have been disposed of. Questionnaires are being mailed to the local boards at the rate of more than 1,000 per day.

Following the request through The Bee for volunteer clerks to assist in the office, Chief Clerk Sutton reports that they are now able to take care of the work. "We can still use more clerks who are good penmen, but if The Bee brings in as many volunteers as they did Sunday I do not know where we will put them," said Mr. Sutton. The board can use on an average of 15 good penmen during the session of the district board, and all who can assist are requested to advise them at once in order that they may be assigned the days on which they can be used to the best advantage.

WINTER WEATHER PRODUCES PAIN

Nip it in the bud by the free use of Sloan's Liniment.

People who have to be outdoors exposed to the attacks of wintry weather, use Sloan's Liniment. They know it's most effective in relieving stiff neck, neuralgic pains, rheumatic twinges, lumbago attacks.

They simply apply it and let it penetrate—without rubbing—quickly, surely. It does away with the mussy uncertainty and skin-staining of plasters, salves, poultices. Clean, soothing, positive. Generous sized bottles.

BRONCHIAL TROUBLES

Soothe the irritation and you relieve the distress. Do both quickly and effectively—by promptly using a dependable remedy—

TO BREAK A COLD IN ONE DAY

THE REMEDY WITH A PIPETTE—EFFECTIVE IN 15 MINUTES—25 CENTS FOR 25 DOSES FOR 25 CENTS

URIC ACID IN MEAT BRINGS RHEUMATISM

Says a little Salt in water may save you from dread attack.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid, which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice; combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which helps overcome uric acid and is beneficial to your kidneys as well.
