

SMILEAGE DRIVE WILL BEGIN MONDAY

Nebraska's Quota Is \$15,000
Worth of Books, Which Will
Be on Sale All Over
City.

Nebraska's smileage campaign will begin today and continue for one week. Washington officials have assigned \$15,000 in smileage books as the quota to be reached during the drive.

D. C. Buell, state director of the military entertainment council, says he is confident Nebraska will meet the quota assigned it. Enthusiastic reports from the smaller cities in the state indicate that a close organization is being perfected.

Omaha Rotary club, co-operating with the commercial club, will conduct the campaign. Arrangements have been made to place the books on sale in drug stores, banks and other places of business. In the outlying districts, grocery stores will have the books on sale and deliver them at the same time they deliver food supplies.

More than 100 members of the Young Women's Christian association have volunteered and will conduct a soliciting campaign to cover the entire city. Stores having the books on sale will be signified by card in the windows calling attention to the fact.

Smileage books are in denominations of \$1 and \$5, containing 20 and 100 coupons, respectively, giving admittance to all Liberty theaters at all national guard camps and National Guard camps. They can be mailed direct to the soldier.

At the camp theatres will be presented Broadway companies in the best musical and vaudeville performances available, lectures of the highest excellence and amateur performances by the men themselves.

The Omaha center of the Drama league will co-operate, in the smileage drive. Miss Kate A. McHugh, president, has called a meeting of the directors for Monday at 2 o'clock at the Fontenelle, when plans for assisting in the campaign will be discussed. Letters will be sent out urging each Drama league members to purchase a book.

THRIFT STAMP SALES IN OMAHA WERE \$104,370.98

Ward M. Burgess, Nebraska War Savings director, has received a report from Washington showing the sales of War Savings stamps and Thrift stamps in the 50 largest post offices in the United States for the week ending January 19.

This report as compiled at Washington shows total sales in Omaha for this week of \$104,370.98. Only four post offices in the whole United States exceeded the amount sold in Omaha, these offices being New York, Chicago, Pittsburgh, and St. Louis. During the same period the sales in Kansas City amounted to only \$57,648; in Los Angeles \$38,029; in Minneapolis \$18,858; in Philadelphia \$39,773; in San Francisco \$42,518; and Omaha sales were more than twice as large as those in Baltimore, Boston, Brooklyn, Buffalo, Cincinnati, Cleveland, Dallas, Detroit and many other cities much larger than Omaha. During this period Denver's sales were only \$10,153 and those at Des Moines \$4,892.

More than \$15,000 worth of War Savings stamps were subscribed for by 700 of the Omaha Telephone company employees in greater Omaha during the big drive last week. The exact amount was \$15,226.50, according to the figures which were completed yesterday by the committee in charge of the telephone employees' campaign.

More Openings for the Army Balloon Schools

Aviation examining board will reserve Monday, February 4, for the examination of not over 20 applicants for the second lieutenant's commission as adjutants, men of high standing with good business and some military experience, not under 31 or over 36 years of age.

These men, if they pass all examinations, will be assigned for training to the state university at Columbus, O.; also as many more men for supply officers, same grade of men and conditions, who, if they pass examinations successfully, go to the state university of Georgia at Atlanta, for training.

The board reserves Tuesday, February 5, for 20 gas, mechanical, electric or mining engineers, within draft age or perhaps five or six years older, if capabilities warrant. These men are trained at Massachusetts Institute of Technology, Boston. Examinations of all applicants applying as aviators, who are within the draft age will follow and those passing all examinations as aviators will be enlisted.

Paris Corps Get Gas Masks.

Paris, Jan. 27.—Gas masks of the latest model have been furnished to the police as a protection against gas bombs, in the expectation of air raids on Paris. The police have been warned to keep the masks within easy reach.

CENTRAL HIGH SCHOOL ACTIVITIES

The new term begins at the Central High school. Examinations and other troubles such as report cards, may now be forgotten for another nine weeks. Resolutions to quit "stinking" are quite common and if they are unusually strong may be expected to last at least a week.

During the last week, Central High lost two of its faculty members. Mr. Cairns resigned and left for his home in Minnesota, where he will await his call to Fort Omaha. Miss Byles left for the same place to take a position at the agricultural college of Oregon.

A. Yoder will be Mr. Cairns' successor as civics teacher. Miss Byles' successor has not yet been named. The new term begins at the Central High school. Examinations and other troubles such as report cards, may now be forgotten for another nine weeks. Resolutions to quit "stinking" are quite common and if they are unusually strong may be expected to last at least a week.

SCHOOLS AND COLLEGES

Doane College.
Lieutenant W. W. Wells, 1st, of Fort Omaha, is visiting Doane College. He is on his way to Fort Sill, Okla., for a few weeks. He spoke in chapel Wednesday morning.

The same of basket ball Wednesday night between Doane and Doane won by 27 to 11. Last week Doane played Cotter, losing by 21, and Omaha university winning, 32 to 11.

J. C. Whitehorn, 1st, of Harvard Medical school, is visiting Doane College. He is on his way to Fort Sill, Okla., for a few weeks. He spoke in chapel Wednesday morning.

The recital by the school of music, which was scheduled for Friday night, was postponed. The Men's and Women's Glee clubs and the Women's coterie were to have had numbers on the program.

E. Merle Adams, 12, pastor of the York Congregational church, has been granted leave of absence for four months to do Young Men's Christian association work near El Paso, Tex.

Miss Laura Geisler, matron of Gaylord hall, is taking a vacation on account of illness and Mrs. A. E. Brown is filling her place.

The following notice to the press was issued from the president's office yesterday: In view of inaccurate rumors abroad regarding smallpox at Doane, I wish to pre-empt the press by stating that no cases of smallpox have been reported at Doane.

One of the students was exposed to smallpox while home during the Christmas recess, as he had not been vaccinated. After arrival at his home, he came down with the disease. As precautionary measures, the students are being vaccinated.

To date there has been no case this year, either at the college or in Crete—only the above possibility of exposure. College work proceeds as usual.

The new semester started Tuesday morning. Several students who are fearful of having to discontinue school work are congratulating themselves on being able to go on.

Mrs. A. D. Harman returned Monday from the current expenses campaign at Beatrice. The boys' basketball team played Doane at Doane Saturday.

Prof. Harlan put on two plays before a well filled house Monday night. Both were given for the benefit of the Young Women's Christian association.

New students are enrolling every day in practically every department of the school.

Peru State Normal.
The Red Cross entertainment Monday night was a success. Miss Dunn, who directed the total receipts were \$15.48. Three other dramas were acted by the students of the Dramatic club.

The troupe which will occur the second week of the new semester. Much interest has been shown by the 30 entrants to the last. It has been difficult to schedule the troupe. Almost all the schools report that they are short either men or finance. Kearney and Peru have a dual debate.

There have been many demands for teachers from all over the state. Although a number will leave at the end of the semester to take places in Lincoln, Omaha and other good towns in the state, there are many who intend to enter the second semester.

Miss Muts will organize a study center in Omaha next Saturday. The feature will be the study of art.

Former Chancellor of Wesleyan University, C. A. Fulmer, and Dr. Frederick A. Staff, professor of English language and literature at the University of Nebraska, have been selected by the unanimous vote of the senior class to give the commencement address at the University of Nebraska.

At the last meeting of the Board of Education, the action of the class was sanctioned. The choice of the class and the Board of Education needs the approval of the whole faculty and other classes.

Mrs. Hazel Byrnes, teacher in the Iowa State Teachers' college, visited Peru last week.

Charles Novak, of the class of 1915, was recently married to Miss Ruby A. Saxton of Superior, Neb.

Vernie Curry writes from Camp Cody that the Peru pennant looks fine in the Young Men's Christian association. He says the normal is mighty well represented at Cody.

In President Hayes' report to the board it is found that 36 conscripted men are taking work preparatory to entering the United States signal corps. At the present time there are over 600 students enrolled and 600 others in the school.

The students' nurse in the last year has made 261 consultations and 76 calls on students in their rooms. Miss Martin has given six hours a week to the instruction of the Red Cross class of 36 members.

Wayne State Normal.
The second semester opened with a number of new enrollments, the total for the year having now reached 418.

Prof. J. O. W. Lewis addressed the students Monday morning during the convocation hour on "Modern Tendencies in Education."

BAKER ICE MACHINE IS WORLD FAMOUS

Omaha-Made Product Is Used
in Faraway Cities of Globe
as Well as Through-
out U. S.

Perhaps no Omaha-made product is better known throughout the entire globe than the Baker Ice Machine, manufactured by the Baker Ice Machine company, Nineteenth and Nicholas streets.

In the 15 years J. L. Baker has been operating this big plant he has made the Baker Ice machine known in almost every country of the world.

In the wild palm jungles of the Philippines, the islanders cool their meat with the Baker Ice machine, and in the historic and romantic cities of Spain the business men have recently adopted modern methods of refrigeration by installing the Baker Ice

machine, made in Omaha. Even in the frozen wilds of Iceland, use is found for this masterly refrigerating engine, and from Alaska to the Horn, these machines have been installed.

Variety of Sizes.
The tremendous popularity of the machines has been due to several things. One is that the machine is made in a variety of sizes to suit the needs of any establishment of any size whatsoever. The machine is compact and easily transportable. Then, too, it has everywhere shown its exceptional worth as a refrigerating equipment. Because the machine is made in any and all sizes desired, it has found its way into the largest and into the smallest plants in the world requiring a refrigeration system, and has driven the old idea of cooling by block ice out of existence in many places.

It was scarcely more than 15 years ago that J. L. Baker engaged in the manufacture of ice machines in Omaha. Up to that time it was generally felt that the manufacture of such a product as an ice machine must be centered in the east where the demand was greatest for the product.

James Allen of the York Allen Ice Machine company, W. J. Monaghan of the Bemis Omaha Bag company, Penn P. Fodrea of the Iten Biscuit company, A. F. Bloom of J. F. Bloom & Co., J. M. Harding of the Harding Cream company, and A. N. Eaton of the Nebraska and Iowa Steel Tank company, will direct the affairs of the Omaha manufacturers' association during 1918.

Omaha manufacturers were elected to constitute the new board of directors. There are no re-elections for under the rules of the association a man cannot become a candidate for the directorate until he has been out of such position for at least one year.

Howard M. Goulding is the new president, Penn P. Fodrea, vice president; Ross B. Towle, secretary, and W. J. Monaghan, treasurer.

A factory producing a washing compound has been started at 2811 Bristol street by W. J. Estes. Three months ago, after experimenting extensively, Mr. Estes placed upon the market a compound under the name "Easy X-L Laundry Tablet." He has received a lot of favorable letters from those who have used it, and he now believes he can develop quite an important plant here if proper encouragement is offered at the start.

Repainting and rearranging of the interior of the Haubens building at Twelfth and Farnam streets is in progress to get it into shape to be occupied by the Thiele & Scharf, wholesale millinery concern of Sioux City. Three floors of the building are to be occupied by this concern. The fourth floor will be let to the National Red Cross.

Not over 10 days ago the power was turned on for the first time in the Miller Cereal Mills at Twenty-sixth and Center streets. This marked the advent of an important industry in Omaha, now to be conducted for the first time on a large scale.
