Coffee Market.

New York, Jan. 29.—Reports that the French government had stopped importations of coffee on the ground that supplies available were sufficient for a year's requirements, were followed by declining prices in the market for futures here today. The opening was 6 to 15 points lower and while there was enough trade buying or overing to cause occasional railies the central tendency of prices was lower under realizing or liquidation. March sold off to \$.55c; July to \$.90c and September to \$.21c or 28 to 39 points net lower and the general Coffee Market. or 28 to 30 points net lower and the general list closed at a net loss of 23 to 29 points. increase in the amount affoat for this attentry and rather freer cost and freight ffers probably contributed to the declines January 8.37c; March 8.55c; May 8.82c; July 9.03c; September 8.25c October 9.31c; De-

*** Cattle-Receipts were fairly liberal, about \$,600 head, and two days' supply of 14,500 head falls nearly 4,000 short of a week ago head falls hearly 4:000 short of a week ago and a year ago. Quality of the offerings was little better yesterday and the demand was broaded for the strictly good to choice betves, as high as \$13.35 being paid for fancy heavy cattle. On the short fed and warmed up steers the demand was not at all active from any quarter and prices were no better than on Monday. It was the same way with cows and heifers, the good to choice grades finding a ready sale at so ewhat stronger prices and the ordinary ganers and cutters going at very unnary anners and cutters going at very un-even figures. YORK STOCKS

Absence of Untoward Events During Monday Prompts Short Covering; Trading Encompasses Many Issues.

New York, Jan. 29.—Stocks were in de-mand on the resumption of business today, absence of untoward events over the holiday prompting further short covering. Trading was not especially active but broad enough to encompass an unusual array of issues. The strength of various industrials and equipments included within the several groups of war and semi-war issues indicated that recent advices from abroad had given

very little impetus to peace p sabilities.

Domestic developments were encouraging in affording further relief to transportation enditions and a visible reduction of the difficulties resulting from fuel shortage. Pro-posed amendments to the impending railway bill also received favorable consideration. Rails were backward in the forenoon but later contributed in fair measure to the day's total at extreme gains of I to 4 points. transcontinentals, grangers and coalers shar-ing the movement with low grade western and southwestern leaves. Steels were the dominant feature, Bethle-

hem shares rising 3 to 3 points on declara-tion of regular divider is. Part of this gain was relinquished in the profit taking of the last hour, a reaction of 1 to 1% points

ensuing. U. S. Steel forfeited half its gain with the U. S. Steel forfeited half its gain with the general list closing at 22%. Announcement of maintenance of the regular dividends was not known until after the market closed. Sales amounted to 515.00\$ shares.

Bonds were irregular; Liberty 34 and first 4's making new minimums at 97.52 and 96.72 respectively; second 4's selling at 96.30 to 96.18. Total sales, par value, aggregated \$5,725,000. Old U. S. 3's gained % per cent on cell

Bulk of Trade in Corn; Demand is Generally Lively; Oats Dull, While Rye Shows Strong:

Omaha, Jan. 29, 1918. Arrivals of grain today were: 4 wheat, 118 corn, 18 cats and 1 car each of rye

The bulk of the trade today continued to center chiefly in worn, receipts of this cereal constituting the greater part of the arrivals. There was apparently a continued steady demand, especially for the better grades, while the poorer stuff was discosed of without very little trouble, although the inquiry for these grades was limited. Early trading brought a slight advance to the holders, figures being unchanged to 2c and 3c higher. Buyers offered close to yesterday's prices during the morning, and as a result the greater part of the offerings disposed of later in the session went at unchanged figures. CHICAGO GRAIN AND PROVISIONS. Better Weather Tends to Ease Corn; Foretemperature acted later as a virtual offset. Prices closed unsettled, March \$1.27 and

at the outset. Large amounts of corn were said to be in transit from the country and certain to make their appearance as soon as railway impediments had been more fully removed. The fact, however, that receipts still remained comparatively small to reduce selling pressure, and make prices responsible later to a forecast of new storms and another cold wave. Attention was given also to reports that corn was wanted at the seaboard although traffic difficulties rendered the prospect of immediate shipments

east a slim one.

Oats reacted sharply from the continuous advance of the last five days. Talk of a likelihood of maximum are limits formed a noticeable bearish factor.
