Business in an industrial, as well as commercial sense, is hobbled, either because of
scarcity of goods, enforced weekly shut downs, adverse weather conditions, paucity of fuel, insufficient production or freight of fuel, insufficient production of freight congestion. Besides, what might be termed regular business is subservient to war work and while those thus engaged are optimistic enough, pro-

CHICAGO GRAIN AND PROVISIONS. Gossip and Moderating Weather

Gives Corn Downward Slant, Chicago, Feb. 1.—Peace gossip together with moderating weather that promised enlarged receipts gave the corn market today a downward slant. Prices closed easy, at the same as yesterday's finish to %c lower, at \$1.26% March and \$1.24% to \$1.24% May, Oats underwent a setback of 1%c to 1%c net. Provisions gained 2%c to 29c. Right from the outset, the corn market was largely dominated by peace talk and especially so by London assertions that Austria had made repeated advances to President Wilson. Many t. ders continued also to act on bearish interferences from the president's letter referring to the interna-tional outlook for 1918. Sharp attention was given likewise to all news touching disturbances in Germany. Attempts to rally the market proved to be of little use, owing a good deal to the fact that rising temporatures prevailed throughout the corn belt, and that no return to abnormal low levels

was now in sight. Liberal country offerings had much to do with weakness of oats. Besides, export de-mand was lacking both from the east and

Optimism regarding peace chances helped to lift provisions. Purchasing assumed to be for the food administration seted as an additional prop to values. Further government orders soon were expected. ment orders soon were expected.

New York, Feb. 1 .- Another demonstra
