A SHAMPOO WORTH TRYING

It is not necessary to shampoo your hair so frequently if it is enirely and properly cleansed each time by the use of a really good shampoo. The easiest to use and quickest drying shampoo that we can recommend to our readers is one that brings out all the natural beauty of the hair and may be enjoyed at very little expense, by dissolving a teaspoonful of Canthrox, which can be obtained from any druggists, in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. This when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothing and cooling in its action, as well as bene-ficial to both scalp and hair. After rinsing out the lather so created, you will find the scalp is fresh, clean and free from dandruff, while the hair dries quickly and evenly, developing a bright luster and a soft fluffiness that makes it seem very heavy.-Adv.
