Each woman also contributed something toward the luncheon in the way of war breads or "substitute" cakes, and the luncheon hour afforded the time for discussion of the merits of the various varieties and the "swapping" of recipes. The regular business meeting will be held Wednesday afternoon, when another all-day meeting will be planned.

Ancient Seal Money.
A relic of the revolutionary days when we were not yet a nation still remains on our paper money, says the Popular Science Monthly. The seal which appears on every bill issued by the government contains the abbreviated words "Theaur. Amer. Septent. Sign." The full phrase is "Theauri Americana Septentrionalis Signum," which simply means, "Seal of the Treasury of North America." Our distinguished ancestors felt that if a thing were to be said with dignity, it had to be said in Latin.

Council of Defense To Make Spring Drive Soon for More Food

Resolutions to concentrate on the problems of food production and conservation during the spring months were passed at the February meeting of the executive board of the woman's committee of the Nebraska State Council for Defense. The serious problems of the distribution of food products will be investigated thoroughly and all possible help secured for the producers.

Mrs. F. M. Dewese of Dawson, recently appointed chairman of the food production committee, was delegated to confer with Nebraska's food administrator, Mr. Wattle, concerning the possible government solutions of the problems of labor, market and transportation. She will also seek the

viewpoints of the woman producers themselves as to their needs. "This is the biggest problem before the country today," said Miss Hrbkova, chairman of the woman's committee. "We are facing much the situation which Russia is combating. Russia has overproduced, yet through lack of distribution facilities people in some parts of Russia are facing starvation. The woman's committee hopes to find some means of establishing a marketing medium which will bring together the city women who face a shortage and the farm women who are overstocked with vegetables and dairy products."

Hint Unheeded.
"She said her heart wasn't here to give me 'What did you do?'"
"I took my hat and left the house."
"You are an idiot! She meant that you already had her heart."
"The 'you' think so? Well, it's all right, anyway. I never can get along with a girl who can't talk common sense."—Philadelphian lecturer.

A whiff of "Butter-Nut" from the kitchen.

Worth getting up early for.

The Modern Electric Gets Wonderful Tire Mileage

By making the electric so much lighter we have made pneumatic tires practical for it. In fact, the cord tires which are regular equipment give more mileage on the Milburn than they do on any other type of car.

And lightness also makes the Milburn use less power and cost less for power than any other type of car. The Modern Electric—the Milburn—with its beautiful low sweeping lines is the most practical, economical pleasure-utility car ever built.

Quit Meat When Kidneys Bother

Take a glass of Salts if your Back hurts or Bladder troubles you

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms a uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Adv.

Her Grandma Used Sage Tea To Darken Her Hair.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.
