week receipts have been 24,700 head, or 13,500 short of last week, and 2,500 short of a year ago. Trade today was about steady in fat cattle and butcher stock, and a lew stockers and feeders moved at prices very little different from Friday. Compared with the close of last week the general market on beef steers, cow stuff and stockers and feeders is all of 50@T5c higher, the advance being due partly to the lighter receipts, and largely to the improvement in transportation largely to the improvement in transportation of the lighter receipts. largely to the improvement in transportation facilities. Notwithstanding the fact that eastern market have declined sharply this week, the tone to the cattle trade at the close is healthy and strong at this point.

Hogs-The lightest run of the week was Hogs—The lightest run of the week was on hand this morning, and the early rounds of the trade were fairly active with both packers and shippers buying hogs at prices that were all the way from 20 to 30c higher than yesterday. A top of \$16.25 was paid, 30c higher than the top yesterday, while the bulk of the offerings moved \$16.10@ 16.25. Shippers were picking the medium and light weight stuff showing quality, and the avance on this class of hogs has been considerably more this week than it has been for several weeks past. A pretty good clearance was made of what hogs were in the pens, but several late loads were re-ported back on delayed trains. Trads for the week rules 30@40c higher.

CHICAGO GRAIN AND PROVISION Corn Advanced With Smaller Beceipts
Bears In Trouble,

that receipts here lacked volume. The mar that receipts here lacked volume. The market closed steady with ½c net advance March \$1.27½ and May \$1.26½. Out gained 1 to 1½c and provisions 20 to 30c.

Bears in corn were at a disadvantage from the outset. Stormy weather which would tend to interfers with the crop move ment formed a handicap on selling opera

The newly reinstated bar against ship ments to the east seemed to be forgotte as a price-making influence, and instea attention was focused on the comparativ smallness of today's fresh supplies in Chi cago, which at first were estimated at 20 cars, but later dwindled to 101. Under suc circumstances no important setback too place and the market held up weil at no far from the best prices of the season, now withstanding that as a whole primary re-ceipts for the week totaled materially 1 excess of the corresponding amount las

year.
Oats ascended to the highest prices yet for the present crop. Shorts, who had found offerings light, covered freely.
Sharp upturns in hog quotations hoisted provisions. Holders showed considerable disposition to realize on the advance. Hog packing to date shows a big shortage.

#### Leading Issues Make High Record of Year Scooring Extreme Ad-

vances.

New York, Feb. 16 .- The stock market developed a strong tone this week, despite begin its study at the Sabbath school occurrences of a nature ordinarilly calculated to dampen bullish arder. Some leading shares attained to highest quotations

to its former 10 per cent dividend status. The latter incident, because of its implica-tions, probably was the chief factor. Shippings were next in favor, announce ment of the government's intention to take over all constwise vessels with railroad connections causing an advance for thes shares.

Peace rumors which found little credence in authoritative quarters, with a concurrent rebound in Liberty bonds from recent low

and 1% points respectively.

There was also an unusual demand for United Fruit, which rose almost 3 points, while American International Corporation threw off much of its heaviness of the previous day. Gains elsewhere wehe limited to relatively

unimportant industrials, including secondary steels. Great Northern Ore rose points and Sloss Sheffield Steel almost 5. Minor metals, including American Zinc, Butts and Superior, and National Lead ad-vanced 1 to 3 points, coppers later making average g. ins of a point. Features of strength among specialties were American Woolen, Hide and Leather common and preferred, and Pacific Tele

phone, 1 to 8 point advances being lergely retained. United States Steel moved within restrict ed limits, but closed at the smallest frac tional gain. Rails showed none of their recent prominence, but were steady, except Canadian Pacific, which yielded 1½ points. Sales amounted to 369,000 shares.

attended. All the Baptist churches Sales amounted to 369,000 shares.

Liberty bonds held their raily, the 3½s selling at 07.90 to 98.10, the first 4n at 96.30 to 96.50, and second 4s at 95.84 to 96. International bonds cased slightly. Total sales (par value) aggregated \$1,950,000. United States bends (old issues) were un-changed on call during the week. Number o sales and range of prices of leading stocks:
