Football—Lincoln Central High vs. University of Nebraska. Game tonight at Capital City With Omaha Central Five Promises to Be Easy Victory for Locals.

Lincoln Central High's old and bitter rival will clash tonight on the University of Nebraska floor. Lincoln has several defeats to avenge and Central has two games which were lost to southern high schools to atone for. Central High is regarded as the probable victor, even by "Bob" Hager, the Lincoln mentor. Lincoln will be handicapped by the loss of Richards, who was graduated after the Omaha-Lincoln game, played in Omaha.

The two defeats are expected to spur the local players to trim the links as unmercifully as they themselves were scalped by Kay Sec.

A return game with Kansas City High has been attempted, without success, due to the fact that the big Missouri high school seldom plays outside of the state and that they now consider the boys of the Nebraska metropolis far below their class.

Beatrice and Omaha met Friday at Beatrice.

Lincoln, Neb. Feb. 20.—(Special Telegram).—The Lincoln High school basketball team will be minus the services of Clarence Cypreanous, its captain, in the game against Mullanigan's Central High of Omaha, tomorrow night. Cypreanous is one of the fifteen members of the Olympians, a high school organization, suspended here today by the Lincoln school board for maintaining a secret society after the board recently adopted a rule barring all such organizations. Cypreanous' loss will be sorely felt, as he is the veteran of the team and a splendid goal shooter. It was his final year in school. The suspension against all fifteen runs for the entire semester. The Olympians, it is claimed, is an outgrowth of the T. P. A.'s, a high school fraternity which comes under the ban.

New Torpedo Shield For Seagoing Craft To render merchantmen and transports immune to submarine attacks by means of floating steel curtains towed alongside is an interesting proposal that has been submitted to the government for consideration. One of the flexible barriers would consist of a series of airtight cylinders, each supporting a large 8-inch steel plate fastened to it longitudinally like a keel. The latter would extend to a depth slightly below that at which a submarine's missile travels. The barriers would be towed on either side of a vessel or fleet at a distance of 200 or 300 feet. Women Cooks Serve Meals To Tommies in France Headquarters of Womens Auxiliary Corps, Behind British Lines in France, Sept. 15—One of the revolutions which the war has brought in the British army has been the admission of women cooks to the camp kitchens everywhere except in the fighting lines.

One of the great troubles of the kitchen armies in the early days of the war was the inefficiency of the cooking arrangements. Under the old regulations cooks had to be drawn from each unit, but owing to the inexperience of most of the citizen soldiers in this art, the food in most units, although plentiful and good, was badly served, and the kitchens frequently dirty and slovenly. In consequence, at a time when young soldiers especially needed appetizing food to strengthen them in their unnumbered labors, many suffered severely from the monotonous and indigestible meals put before them. Moreover there was a great deal of waste.

The first women cooks in the British army were employed in August, 1915, at a convalescent camp, and six months later the formal recruiting of women for this work was initiated. Today there are more than 6,000 cooks and waitresses in 200 camps in England alone. Women have also been taken over the kitchen service in all the Canadian and Australian hospitals, and women instructors are being employed in the regular army schools of cookery. One woman who enrolled as a cook two years ago and who is now only 22 years old has risen to the rank of superintendent and is responsible for the whole service in a camp of 22,000 men.

The economy resulting from the employment of women cooks has been very marked. In one large officers' camp the daily messing charge was reduced within a few weeks from 65 cents a day to 31 cents and in addition a fund of \$500 was saved for miscellaneous camp purposes. The rate at this camp is now reduced to 18 cents a day.

Itching, Scratching, Skin Diseases That Burn Like Flames of Fire Here is a Sensible Treatment That Gets Prompt Results. For real, downright, harassing, discomfort, very few disorders can approach so-called skin diseases, such as Eczema, Tetter, Boils, eruptions, scaly irritations and similar skin troubles, notwithstanding the lavish use of salves, lotions, washes, and other treatment applied externally to the irritated parts.

No one ever heard of a person being afflicted with any form of skin disease whose blood was in good condition. Therefore, it is but logical to conclude that the proper method of treatment for pimples, blotches, sores, boils, rough, red and scaly skin is to purify the blood and remove the tiny germs of pollution that break through and manifest their presence on the surface of the skin.

People in all parts of the country have written us how they were completely rid of every trace of these disorders by the use of S. S. S., the matchless, purely vegetable, blood purifier. S. S. S. goes direct to the center of the blood supply, and purifies and cleanses it of every vestige of foreign matter, giving a clear and ruddy complexion that indicates perfect health. Army Orders Washington, Feb. 20.—(Special Telegram).—The appointment of private, first class Lawrence A. Lawson, signal, enlisted reserve corps, as second lieutenant in the aviation section, signal reserve corps, is announced. He is placed at Fort Omaha.

Captain J. Arthur Hager, quartermaster reserve corps, is relieved from duty as assistant to the camp quartermaster, Camp Lee, Wyo., and will proceed to Fort D. A. Russell, Wyo., relieving Major Samuel A. Smoke, United States Army, retired.

The appointment of Captain Eugene Wriet Crockett, quartermaster corps, to the grade of major, signal corps (temporary), regular army, is announced. Major Crockett will proceed to Omaha.

The appointment (promotion) of temporary Second Lieutenant Powers, Infantry, to the grade of first lieutenant, quartermaster corps, National Army, is announced. He will proceed to Camp DeWitt.

Captain Richard B. Dillman, medical reserve corps, is relieved from duty at Fort B. A. Russell, Wyo., and will proceed to Los Angeles, Cal.

STATE IN GRIP OF INTENSELY COLD WEATHER TODAY

Mercury Drops to 11 Below Zero in Omaha; Frigid Wave Accompanied by North Wind.

The thermometer at the weather bureau touched 11 below zero at 8 o'clock Wednesday morning after one of the coldest nights of the winter. The cold was accompanied by a high wind from the north. It is among the lowest temperatures ever recorded in Omaha this late in the winter.

The high barometer which is responsible for all the cold was central over Montana and western North Dakota Wednesday morning. And it was one of the highest ever recorded by the weather bureau—31.08 inches. Its effect was felt in Omaha where, at the weather bureau, the official barometer climbed from 28.5 inches to 29.7 inches in the 12 hours ending at noon, a most extraordinary rise of barometer. By late tonight it is expected the high pressure will have dissipated itself.

Some low temperatures Wednesday morning were these: Valentine, Neb., 22 below; North Platte, Neb., 12 below; Cheyenne, Wyo., 10 below; South Dakota points, 22 to 25 below; North Dakota points, 25 to 32 below; Montana points, 36 below; Duluth, Minn., 20 below; St. Paul, Minn., 16 below.

Cold in Texas. Zero weather extends far south as northern Texas. The effect of the cold was felt in the east Tuesday night and drops of 40 to 50 degrees are general over Illinois, Indiana, Ohio and western New York and Pennsylvania, with the cold gripping the Atlantic coast Wednesday morning.

Cold in Duluth. Duluth, Minn., Feb. 20.—The promised cold wave has arrived and

scattered them by two jugs. There was an egg in each nest. "The snake came along and, after swallowing the egg in one nest, crawled through the handle of one of the jugs and gobbled up the egg in the other nest. "When Redbecker came to gather eggs he found the snake a prisoner, hanging down from the jug handle, unable to move backward or forward."—Chicago Herald.

DATE OF SECOND DRAFT UNKNOWN, DECLARES BAKER

Government May Not Call Next Contingent for National Army for Many Months; Labor Conditions Upset.

Washington, Feb. 20.—Secretary Baker authorized the statement today that no date has been selected for the beginning of the second draft. Various estimates have placed the time between March 1 and June 1. These are declared to be guesses.

The government's disposition not to disturb the labor situation, particularly on farms at the planting season, is one of the factors entering into the situation.

The provost marshal general's office, it is understood, is disinclined to go ahead with the second draft until congress has perfected the law by pending amendments to change the basis of apportionment and to authorize the president to call into the military service men skilled in industry and agriculture regardless of previous classification.

The remaining increments of the first draft will begin to move forward to the camps beginning this week.
