SPAIN AGREES TO SELL U. S. SUPPLIES

Economic Agreement Reached Which Will Enable General Pershing to Equip His Troops.

Washington, Feb. 21.—An economic agreement with Spain under which General Pershing will get mules, army blankets and other materials in that country in return for cotton, oil and other commodities from the United States, was signed today in Madrid. The State department was so advised tonight by Ambassador Willard.

The terms of the agreement could not be learned tonight and it was not known whether they had any bearing on the rate of exchange between the two countries, which the United States has desired to adjust because of the recent depreciation of the American dollar in Spain where it is now worth only about 75 cents.

Success of the negotiations was welcome news to officials here as the ability to buy supplies in Spain will save ship tonnage and enable General Pershing to build up his reserve stores much more rapidly than probably otherwise would have been possible.

Will Aid Ship Tonnage.

The negotiations followed refusal of Spain to supply a large number of mules, 200,000 blankets and other materials ordered by General Pershing last month. The official reason given for the failure to fill the order was said to have been that the Spanish railroad system had broken down and it was impossible to handle goods destined for France.

Negotiations at Madrid apparently were going on when it became known that Spanish steamers were being held up in American ports for lack of fuel.

Through their control of bunker coal the United States and the allies were in a position to stop not only the shipment of goods to Spain from the allied countries, but from neutrals as well. Spain is dependent upon this country for large supplies of foodstuffs as well as other materials.

Majors Belmont and Brown, United States army, are understood to have conducted the major part of the negotiations for the United States, while Spain's representatives were Senor Urquijo, a banker, Senor Garnica, under secretary of finances and Senor Pina, former Spanish ambassador to Washington.

May Compromise to End the Ship Row

Washington, Feb. 21.—Concessions to William L. Hutcheson, president of the Brotherhood of Carpenters and Joiners, in adjusting the claims of ship yard carpenters appeared probable tonight after further conferences between government officials and officials of the carpenters' union.

The original signers of an agreement to leave all differences in shipyards to the shipbuilding labor adjustment board for settlement, will be called together to see if the agreement can be amended to meet the carpenters' demands. The signers included navy and shipping board officials and representatives of 17 unions whose members are engaged in shipyard work. The carpenters' organization was the only one whose members are employed in shipyards that did not become a party to the memorandum.

Hutcheson has declined to leave to the board decisions respecting conditions of labor, but has agreed to let it adjust questions concerning hours and wages. Today he presented to the conference a proposal for signing the memorandum if it is amended to permit a representative of the carpenters to have a say in the board's findings.

Hutcheson left for New York tonight, announcing that he would not attend further meetings until the government had agreed to accept his proposal.

Takes Casualty Lists to War Awaken Women to the War

Chicago, Feb. 21.—Mrs. Thomas Peston, jr., formerly Mrs. Grover Cleveland, came to Chicago today to take charge of the women's activities in connection with the Congress of National Service.

The women of America are not working together sufficiently to win the war and until they do, it will never be won, she asserted. "America is not used to being serious about anything and it will take the casualty lists to make women realize the enormity of the problem."

Goshute Reservation Squaws Go on War Path

Gold Hill, Utah, Feb. 21.—Incensed at the arrest by the soldiers and removal from the reservation of seven draft evaders, squaws on the Goshute Indian reservation went on the war path after the soldiers left last night, raided the agency and threatened to kill Jim Clover, Indian interpreter, left in charge. They threatened to burn the agency property and incited the old bucks to acts of violence and revenge. Dr. J. H. Peck today succeeded in quieting the Indians.

Engineers Close Session.

Waterloo Ia., Feb. 21.—(Special Telegram.)—The 13th annual convention of the state engineers closed with a banquet and address by Governor Harding. The Iowa State Drainage society affiliated with the engineers, adding 100 members to the organization, which became effective at once. C. H. Young, Cedar Rapids, was elected president, to succeed K. C. Gaynor, Sioux City; Nathan Barber, Waterloo, vice president; J. N. Dunlap, Iowa City, re-elected secretary and treasurer. In the municipal section, F. S. Alden, Cedar Rapids, was elected chairman; J. G. Thorne, Clinton, vice chairman. In the drainage section, John T. Drug, Stratford, chairman; Seth Dean, Glenwood, vice president; highway section, H. H. Dean, Glenwood, chairman; C. F. Fischer, Iowa City, vice chairman. Muscatine, Fort Dodge and Cedar Rapids all extended invitations for next year's convention. No decision was made.
