Persistence is the cardinal virtue in advertising; no matter how good advertising may be in other respects, it must be run frequently and constantly to be really successful.

YOU can own a plot of ground and become a producer. The National Food Administration has made apparent the necessity of increasing the meat supply by "Raising More Poultry."

The agitation and the publicity that has been given poultry raising as a means of conservation will create a wonderful demand for this produce.

If you haven't a piece of ground large enough to raise poultry, GET ONE. There are hundreds of lots and acres in and near Omaha that are suitable for poultry. Read the advertisements on this page. You will find among them the place to fit your requirements and your purse. Own a plot of ground. Help your government's conservation movement by becoming a producer.
