SAXON "SIX"

A BIG TOURING CAR FOR FIVE PEOPLE

See the Saxon at the Show.

See the Saxon Exhibit at the Omaha Auto Show Feb. 25th to March 2nd Space No. 16

People everywhere seem to know definitely and precisely that this car is a car of quite unusual excellence. Nothing that they hear about any other car in its price-class is half so attractive as what they know about Saxon "Six"

Wherever you hear talk of motor cars you will hear Saxon "Six" spoken of with high regard.

Respect for this car is steadily increasing and extending itself among motor car buyers.

It is a respect gained solely and simply by the unusual goodness of the car and the long and loyal service it gives at a surprisingly low cost.

Despite the fact that other cars have entered that price-field in which Saxon "Six" was the original car, they have not affected in the slightest degree the growing demand for Saxon "Six".

Comparison with these other cars merely serves to make more clear the enviable excellence of Saxon "Six".

Today, you who are gathered at this mo-

tor show, view a new situation in motor car buying.

National need and individual duty have placed a premium upon permanence, usefulness and economy.

Public approval is flowing towards the cars that do most effectively embody these qualities. The worthy cars are being singled out from the unworthy.

And so, quite naturally, this car is winning more and still more attention.

It has always been rated as an automobile of exceptional merit. Today that is truer than ever.

The good opinions it has gained thru the competence and economy of its service have been a constant inspiration to build the car steadily better.

Never has there been a time when such a car as this was more desirable.

Here is one of the best selling opportunities offered you for this year. We can make deliveries but urge you to get your orders in early, as we shall have a big demand in the spring. Some good territory still open. See us at the Auto Show.
