NATIONAL FOOD AND RAIL HEADS AGREE ON CARS

Discussion Over Delays in Supplies to Eastern Ports Results in New Plan of

Co-operation.

(By Associated Press.) Washington, Feb. 25 .- Out of the discussion between the food and railroad grown a plan by which the railroad needs for the administration, but for

the allies as well. Within a few days, the food administration announced tonight, it will complete an organization to collect this information. The allied food purchasing agencies will submit their demand to the food administration, and domestic requirements will be

To Work Together.

The daily report plan was decided on in response to the declaration of Director General McAdoo that he would furnish all the cars necessary to move food if the food administration would notify him where the food to be moved was located.

In a statement, which precipitated the discussion, Food Administrator Hoover had asserted that railroad the east with a food shortage and had retarded the food administration's program for feeding the allies.

Allies Purchase Direct. the food stuffs for the allied govern-The bulk of this food stuff is purchased directly by the allied agencies, with the assistance of the food administration. The arrangements of agencies and their complaints as to warm woolen shawls and scarfs for said he guessed he would have to car shortages and delayed movements the old men and old women. The give his wife the credit for the final ly to railway points and the food administration has been influenced.

"The food administration has now directed the allied agencies to furto the railroad administration.

Cars Needed Badly.

The most serious problem is the car needs due to delayed movement of last year's crops and of live stock from the primary country points to the interior terminals, the mills and the manufacturing centers where they can be purchased for export and domestic supply. The presentation of these needs to the railway companthe food administration—already established in Chicago, and proposed at New York and Atlanta. Their agencies will secure and furnish information as to car necessities for the primary movement of food stuffs to the regional railway administration.

"Shippers of foodstuffs should apply in the first instance to the legal railway officials for cars and upon failure to secure necessary transportation, they should for grain and grain products apply to the food administration zone managers; while shippers of live stock and perishables in the same difficulties should apply for the present directly to the food administration in Washington. These applications for cars will be put before the various regional directors and will be daily reported to-the railroad administration in Washington.' Burlington railway has been apistration transportation division in charge of all these activities.

"The food administration is confident that in view of the director of failroads assurance as to the supply of cars, if brought to his attention, losses of food stuff through delay and possible shortage in distribution to the allies will thus be averted."

Germans Concentrate Terrific Barrage on Sammies' Sector: Stop When Heavy Shells Come Back.

With the American Army in France. Feb. 25,-In the American sector northwest of Toul today, the Germans tried the tactis of concentrating artillery fi on one of the American positions, apparently with the purpose of obliterating it. The American guns immediately punished the German batteries with a doubly heavy retaliatory fire and then swept the enemy lines with a vicious barrage, undoubtedly inflicting considerable

unknown, but since that time hardly a shot has been fired from that point. Last night a German patrol was found once more within the American wire. It was driven back by machine

gun and rifle fire. American patrols worked freely, without interference. The Germans today dropped into the American trenches an entirely new are facing today. We ought to realize type of bombs, resembling a baseball. Bore a Square Hole No damage was done.

Woman Doctor's Scram'tle To Give First Aid

A hurry call for an ambulance surgeon to attend a man who had been seriously injured in an accident on the Long Island Railroad was sent in to St. Mary's hospital in Brooklyn yes-terday and Dr. Mary Burke, who has been graduated from nurse's rank, "Just a word about one side of our but an actual working tool that many was sent out with instructions to speed her ambulance. When she reached Glenmore and Vesta avenues, in East New York, she found that the injured man was in a railroad cut 60 feet deep, and to reach him it would be necessary for her to drive the ambulance about four blocks and then walk back in the cut.

Men of a track-repairing gang velled to the ambulance driver to nurry because they thought the man was dying. Dr. Burke decided there was no time to lose, and refusing to accept the advice of a policeman and her ambulance driver, ran to the edge of the cut and slid down the sides that were almost perpendicular. Rocks and earth were dislodged, but she reached the bottom safely, although her white uniform was badly torn and soiled and she had suffered several cuts and bruises. Men in the gang picked her up when she reached the bottom, brushed the dirt from her medicine kit for her, and she bebegan her work on the injured man, Frank Madelone.-New York Times.

How Old Is the Earth.

The salt of the ocean has been made to give an answer to the question of the age of the earth. The general idea seems simple enough to be worked out by anyone with a plentiful supply of good long pencils and sufficient paper.
Salt is carried down year after year into
the sea, where it accumulates. If, then,
we can divide the entire amount of salt at we can divide the entire amount of sait at present in the ocean by the amount carried down in a year, the quotient will be the probable age of the earth. Simple? Oh yes. Professor Joly has worked it out to 99,000,000 years, but to be on the safe side he reduces that number to 90,000,000. A little matter of 9,000,000 years is negligible to those who can think an such numbers.—Popular Science Monthly.

Doctor Praises Eczema Remedy

The cure of Skin diseases (eczema) and diseases of the scalp is known to be difficult even with the best efforts of intelligent and discriminating physicians. However there is one remedy that is entirely dependable in this distressing and troublesome disease, that is D.D.D. Prescription, manufactured by the D. D. D. Company of Chicago, Ill. I take much pleasure in recommending it to the entire confidence of all sufferers with any form of skin disease, as a medicine they can rely upon with perfect confidence.

M. L. RANDOLPH, Md.

Come in and we will tell you something about what D. D. D. Prescription has accomplished in your own neighborhood. Your money back unless the first bottle relieves you. 35c, 60c and \$1.00.

URIC ACID IN MEAT **BRINGS RHEUMATISM**

Says a little Salts in water may save you from dread attack.

Rheumatism is easier to avoid than

to cure, states a well-known authority.

We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water. Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid, which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are clos-ed, thus forcing the kidneys to do Society Concerning Dreams double work, they become weak and sluggish and fail to eliminate the uric In an address on "Dreams and Pre- circulating through the system, event-

Don't Let Soap Spoil Your Hair

When you wash your hair, be carefull what you use. Most soaps and prepared shampoos contain too muca alkali, which is very injurious, as itdries the scalp and makes the hair

The best thing to use is just plain mulsified cocoanut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.—Advertisement.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is mussy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natura color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply damper a sponge or soft brush with it and fraw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy. Wyeth's Sage and Sulphur Com-

pound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Advertisement.
