Dreams of Home.

Mrs. W. E. Rhoades brings back glowing accounts of the hostess house at Camp Dodge, which was formally opened Washington's birthday. The immense fireplace is the most attractive part of the house, Mrs. Rhoades says. There is nothing so good for a severe case of homesickness as to sit before the glowing logs and dream of home—and perhaps one particular girl.

General Plummer, who has just returned from France, brings back good news of our boys. General Plummer sailed December 4 on the same transport with Morton Rhoades, who is with the motor supply train in France. The general speaks particularly of the hostess houses "over there" and says that their fireplaces are worth a million dollars to the boys. The Sammys are well fed, well clothed and seemingly very happy, according to General Plummer.

Loose Your Hankie?

Hankies galore! Just oodles of 'em! Where? In a big box in the Red Cross public workshop. They are handkerchiefs left in the apron pockets of women who have worked there since the place opened six weeks ago. Mrs. F. W. Carmichael is keeping them until the owners come and identify their own property.

There are about 200 handkerchiefs in the box. Its existence was discovered Tuesday night when one of the deaf mutes who work in the shop each week inquired after a prized handkerchief she lost last Tuesday. After wading through a veritable sea of handkerchiefs, of various scents from Houbigant's, Mary Garden, lily, violet, to frangi-panni, she finally came upon her own.

Crackling Bread

1 quart corn meal, 3 teaspoonfuls salt, 1 pint cracklings, boiling water.

Mix the corn meal and salt; pour over this mixture enough boiling water to moisten but not enough to make a mush. When the meal has cooled, work the cracklings into it with the fingers. Form the dough into cakes about 4 inches long, 2 inches wide, and 1 inch thick; bake for 30 minutes. This bread, because of its large percentage of fat, is eaten without butter, and should be served very hot.

Advice to the Lovelorn

By BEATRICE FAIRFAX.

"Little Bachelor." Dear Miss Fairfax, Omaha Bee: I was greatly interested in the bachelor's letter of a few days ago. And in the Sunday Bee of February 19 some letters of equal seriousness of heart and interest were published in answer to him. I never before wrote to a paper, but I don't believe there is any improper action in people getting an introduction to a correspondent by this method. I believe these sincere people expect this to only be a means of opening an acquaintance with one we would perhaps never meet if we were to wait for personal introduction. Any sensible girl knows that it will require the same patient course of personal acquaintance after this being introduced as if we were introduced by a reputable friend. We are no more morally protected by one method of introduction than the other. One must decide on the worthiness of a new friend after meeting and seeing something of his manner. Therefore the introduction is of a minor nature. I wish to have you send my address, if you will, to the one in "The Sunday Bee" of February 19 signing her letter as "Jessie." As she said because of death she was homeless, I am sure she is a true, noble woman or no such letter as hers would be sent to you. I respect and love a woman that really wants a true man companion is justified in writing you, if she is so living in a town that don't contain man suitable to her. As I know it is often the case and she can't move her residence at once, it's the only source open to her, you may publish all or part of this letter and sign it "Little Bachelor" in the paper. But if you will give my address to any lady over 21 years old you wish to correspond to, I won't propose to you until I have spent some long study and association with her, so as to know her character and nature. It will bring no harm to either of us by this source of acquaintance. I am a man 22 years old, married by trade and a strong prohibitionist, too.

You are a good fellow, Al, but I am not permitted to conduct a matrimonial bureau.

Don't Worry.

Dear Miss Fairfax, Omaha Bee: I'm writing a few lines to you asking your advice on a little love affair. I am in love with a young man whom I have been keeping company with for about seven months and in that time he seemed to think a great deal of me. But of late he doesn't seem to care much for me. He is a very nice young man. He is rich, pretty and liked by all who know him. He enlisted the other day and will probably go soon. Will it be all right for me to write to him? Shall I write first? My folks think he is all right. Hoping to see this in print. LILLIAN.

You are entirely too young to even think of matrimony. Friendly letters would do no harm, but I would wait for him to open the correspondence.

Too Young.

Dear Miss Fairfax, Omaha Bee: I am a girl of 14 and love a boy of 22. He loves me also. He has often asked to go with me, but I never went because my folks thought I was little too young. He is a very nice young man. He is rich, pretty and liked by all who know him. He enlisted the other day and will probably go soon. Will it be all right for me to write to him? Shall I write first? My folks think he is all right. Hoping to see this in print. LILLIAN.

You are entirely too young to even think of matrimony. Friendly letters would do no harm, but I would wait for him to open the correspondence.

Why Not?

Dear Miss Fairfax, Omaha Bee: We are young high school girls, one a Junior and one a senior. We can't decide upon a male, or which is confronting us. Every day we have a basket ball game in which our high school team and outside teams are involved. Usually these out-of-town boys have to wait four or five hours for the train after the game and generally they ask us girls for dates and we are in a dilemma. It was proper to accept. Hoping you may enlighten us in this matter, we are sincerely, PATRICIA AND LENORE.

If they are nice boys I see no reason

Druggists Here Have Something New for Colds

Applied Externally, the Body Heat Releases Ingredients in Vapor Form

COLDS GO OVER NIGHT GROUP IN 15 MINUTES

The Manufacturers Have Authorized the Local Druggists to Sell Any of the Three Sizes, 25c, 50c, or \$1.00, on 30 Days' Trial.

Since its introduction here a short time ago, the new treatment for cold troubles, known as Vick's VapoRub, has aroused a great deal of interest among local people, especially among mothers with small children.

Local druggists report that numbers have taken advantage of their 30 days' trial offer to see if a 25c jar of VapoRub really will relieve these troubles externally, without having to "dose" with nauseous internal medicines.

For croup, coughs, chest colds, sore throat or bronchitis, apply VapoRub over the throat and chest, covering the covering clothes around the neck so the vapors arising may be freely inhaled. In addition, VapoRub is absorbed through and stimulates the skin, taking out that tightness and soreness in the chest. For head colds, catarrh, hay fever, or asthmatic troubles, VapoRub can either be applied up the nostrils or a little melted in a spoon and the vapors inhaled.

You have to try this treatment to realize its remarkable effect in all cases of cold troubles.

Gros Grain and Oxford Gray.

Saving Fats Does Not Mean Flavorless Foods!

Economy and Better Cooking the Rule in Households Where Mazola is Used

What olive oil is to Italy—Mazola is to America. Pressed from Indian Corn, for sautéing, deep frying, shortening and salad dressings, it is as pure and wholesome as the food it is cooked with or eaten on.

Mazola is a wonderful aid to good cooking because it enables the housewife to serve more delicate pastries, fried and sautéed dishes—and at the same time save animal fats, such as butter, lard, suet.

The same lot of Mazola can be used many times over as it does not carry flavor or odor from one food to another. That is why Mazola is so economical.

And for salad dressings it is perfect—easier to mix than an olive oil dressing.

For sale in pints, quarts, half gallons and gallons. For greater economy buy the large sizes.

There is a valuable Cook Book for Mazola users. It shows you how to fry, saute, make dressings and sauces more delicious, make light digestible pastry. Should be in every home. Send for it or ask your grocer. FREE.

A Meat Economy

A fillet of beef, larded, at 60 cents a pound is a cheaper roast of beef than sirloin at 35 cents for a family of two or three. They weigh generally not over three pounds, but there is no waste.
