 Under such circumstances the bulls in corn had an evident advantage. In the later trad-ing, however, the slight upturns which had resulted were more or less offset by com-plaints that eastern roads were failing to supply an adequate number of cars to pre-vent a piling up of stocks here and at other leading western centers. Meagerness of rural offerings made cats advance at times, but the effect proved transient. Export demand was lacking and bears predicted a tremendous increase of acreage this spring.
