

State Council of Defense Asks Farmers to Be Certain Their Supply Is of Kind That Will Germinate.

(From a Staff Correspondent.)

Lincoln, Feb. 28 .- (Special.)-The State Council of Defense has issued a bulletin on seed corn and the condition of the same as reports have come In from different localities. In addition to this Food Commissioner Otto Murschel has sent a letter to all county agricultural , agents which one paragraph covering the

seed corn problem reads: "It may be of interest to agricultural workers to know that of the hundreds of tests on corn made in this laboratory for residents of the state of Nebraska during the past two months, that the average has been 66 per cent germination for 1917 corn; 15 per cent tested 0 per cent and 30 per cent tested 100 per cent. A sum-mary of tests on 1916 corn gives an average of 95 per cent, varying from 84 per cent to 100 per cent."

Test Is Necessary.

The bulletin of the State Council of Defense says among other things: "Every farmer in the state should know definitely the source of his seed

corn supply for this spring within the next 10 days." County Agent N. N. Rhodes of Madison county says: "The results of the corn we have had on test this week shows that seven samples gave an average of 79 per cent strong. The average of the 14 samples on test gave only 55 per cent strong. If the seed corn of Madison county is in no better condition than these few sam-ples, it will mean that the situation is a serious one."

Some Lack Seed.

From County Agent C. R. Young in Dakota county: "Nearly 12 per cent of the farmers answering a questionnaire which we sent out reported that they were without any seed. An-other 27.18 per cent have an insufficient amount to plant their crop. This makes a total of about 39 per cent of the farmers who have not enough seed to plant their acreage. For the past month general tests of seed corn sent to this office have been made. These show an average of 1917 corn which grew strong, of 40 to 65 per cent. It is very probable that examination and tests will show that many who are now feeling that they have an abundance of good that they have an abundance of good seed may yet be searching for corn. In just a few instances men in the county made tests during the early part of January and a month later ran the same corn again, only to find that it germinated about 15 per cent

ASK RECEIVER FOR LINCOLN TRACTION LINE Lincoln, Neb., Feb. 28 .- (Special Telegram.)-A receiver for the Lin-

coln Traction company was applied for in the federal court this afternoon by George H. Simmons and Paul F. Governor Neville to Name Clark, representing preferred stockholders.

Defendents in the application are the holders of common stock, W. E. Sharp, J. M. Bramlett, W. P. Fer-guson, H. A. Foster, E. J. Hainer, F. M. Hall, S. H. Burnham and half a dozen others, most of whom are officers of the company.

fore Governor Neville makes the call The defendants are asked to repay for a special session of the legislature, to the company all funds alleged to which probably will be convened late have been illegally paid as dividends in March, it will be necessary for him on common stock and also to repay to fill a dozen vacancies which have occurred since the session adjourned all funds devoted to additions and extentions of the defendant's comlast April. Most of these vacancies have been

Gains 16 Lbs. on Tanlac.

Another wonderful indorsement for Lincoln, Feb. 28 .- (Special.)-The Tanlac that will be read with interest by thousands of frail, suffering first filing to reach the office of the secretary of state for the state senate women throughout America was given recently by Mrs. Elizabeth Hooks of Rome, Ga. Mrs. Hooks is the wife of P. G. Hooks, a well-known comes from George W. Greenwalt, who for three or four terms has served

in the lower branch of the legislature from Custer county. The filing is for the democratic nomination in the southern railway engineer. Mrs. Twenty-third district, which com-Hooks made the remarkable stateprises the counties of Custer, Valley, Blaine and Loup. ment that she had received more benefit from four bottles of Tanlac than from medical treatment that had gost her husband \$2,000, which he had paid out in the past two years in an ef-

fort to restore her health. "For about two years," said Mrs. Hooks, "I have been in very bad health and have suffered from stomach trouble, extreme nervousness and a bad form of rheumatism. For more than seven months I was confined to my bed and was almost a nervous and physical wreck. My digestion was so poor I had to diet myself and rarely ate anything but soft-boiled eggs and milk and things of that kind, and even the lightest of foods would nauseate me and lie heavily on my stomach.

"Any sudden noise would affect my nerves, and my husband had to quit setting the alarm clock and the door to my room had to be kept closed so I could not hear the ringing of the telephone. I have had the rheumatism in my left hip and shoulders so bad I could hardly bear anything to touch me.

"My condition became so had my husband took me to Hot Springs, Ark., where I remained for a month. I had to use crutches all the time. The treatment there helped me for a while and I returned home. I soon relapsed into my old condition and then I was taken to a specialist in Atlanta. "I had fallen off from 120 pounds

until I only weighed eighty-nine pounds-just a shadow of my former self. he specialist prescribed a course

of treatments, but before using the

medicine I decided to give Tanlac a

trial. I did this because of what I

lower. A few days ago a farmer called up stating that he had felt sure that he had plenty of dependable seed for this year but on testing it found the corn of such low vitality that it will be necessary to make the car-to-ear test and buy some seed to replace that discarded."

Fine Tests When in Ear.

About 7,000 bushels of 1916 corn are still in the hands of the farmers and will be available for seed. Where it is in the car, this corn tests from 90 to 95 per cent strong. County Agent Young is mailing lists of those having corn for sale to farmers desiring seed corn.

In Nance county, County Agent Hogue has listed several hundred bushels of corn which will test 90 per cent or more. Three remarkable samples of corr furnished by J. N. Dean of Fullerton tested 100 per cent. Mr. Dean gathered his corn before

frost, but has only a few bushels more than he needs for his own use. Average Test 66 Per Cent. County Agent L, Boyd Rist of Gage county says: "The condition of the seed corn is such that not an ear of it should be planted from which a few kernels have not been tested. In the 150 tests we have made the average test is 66 per cent. In most cases, too, the corn tested was sc-lected as possible seed."

In Seward county one man has been hired by the county agent's office to put in all his time testing seed corn. Eighty bushels of corn are being tested now at Seward.

School Children Preparing For Garden Club Week

Kearney, Neb., Feb. 28.-(Special.) -A canvass of the city of Kearney by school children is now under way to determine just how many vacant lots are available for garden club work this year. A chicken club movement has also been started in hope that the production of poultry may be increased.

You are cordially invited to call and see the magnificent new stocks of Genuine Diamonds, guaranteed Watches, Solid Gold Jewelery, Silverware, Ivory Toiletware, Clocks, etc., now on sale at our new location.

With stores in leading cities throughout the United States, our great purchasing power means lower prices to you at all times than the one-store jeweler can hope to meet. Your credit is good with us. Don't Forget the New Location. Abldet

There's never a dull market on the Brain Exchange. Ideas were never in such demand before. The need of men in the trenches has for the time being provided places at home for everyone who is willing to work, but human machines will soon be replaced with power machines-just as the steam shovel took the jobs away from thousands of pick and shovel men.

If you are simply working with your hands and bodies, you can never hope to keep pace with the rising cost of living. YOU MUST USE YOUR HEAD.

If you're digging ditches, figure out a way by which you can move more dirt in a day-or remove the same amount at less expense.

If you're smelting ores, devise a process that will save larger percentage of the metal-or a cheaper process that will do the work of present-day processes.

If you're a doctor, spend all your working hours not actively taken with your practice in studying the lessons of the European battlefields, and learn how to save life, learn how to make shattered limbs useful, work out a concentrated antiseptic where one drop will do the work a drachm does today.

I have demonstrated that business system applied to Dentistry DOES effect vast savings-that specialization DOES make it possible for a dentist to devote all his time and ability to the particular branch of dentistry in which he is most competent. Instead of posing as a philanthropist in making my very reasonable prices, I confess to a very human, very selfish motive, viz., IT PAYS ME to give my patients more for their money than they can secure elsewhere.

In other words, I use my head to increase the earning capacity of my hands.

avoid exposure and eat less meat.

Stay off the damp ground, avoid

exposure, keep feet dry, eat less meat, drink lots of water, and above all, take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid, which keeps accumulating and circulating through the system, eventually settling in the joints and mucles, causing ing stiffness, soreness and pain call-ed rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink, which overcomes uric acid and is beneficial to your kidneys as well. -Advertisement.

Heal Skin Diseases

It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. A little zemo, obtained at any drug store for 35c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and iffectively most skin diseases. Zemc is a wonderful, penetrating, dis-appearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress. The E. W. Rose Co., Cleveland, O. It is unnecessary for you to suffer with
