Also Against the Squirrel.

Sutton, Neb., Feb. 21 .- To the Editor of The Bee: I notice in today's ing the speeches made by the food Bee, a letter by one Charles Stolten- administration speakers there yesterburg concerning the beautiful little day (February 25) and its seems to pest, the squirrel. His beauty is only me that telling people to save wheat on the outside. I am also a great lover of creatures and have had these little pests in captivity to make a if our government needs these things more thorough study of them. I have as bad as these speakers say, why red tape, mainly due to the determination had them in our park on the lawn in their native state, and the more I Since America became a belligerent, the study them the more I consider them a pest. One day last June I heard the birds in this little park making a great noise, and on investigating I found a squirrel sitting up in an Arkansaw king bird's nest holding an egg in his fore feet and eating it. and the best one, that I can see is "Cut out our supply for awhile." G. N. PENROD. This convinces me that squirrels eat eggs of birds. Besides this they cut holes in the buildings and eat corn

and all kinds of grain. They are ernment, largely working independently of nothing but a pest. WAY BARNELL.

About the Sabbath Day. Council Bluffs, Ia., Feb. 25 .- To the Editor of The Bee: The question of the right Sabbath and the authority

Co-operating with these federal bureaus have been the local police authorities of for keeping same seem too be of interest to at least two readers of the column.

In regard to the law in which the seventh day Sabbath is contained. Deuteronomy 6:8 says: "And thou shalt bind them for a sign upon thine hand, and they shall be as frontlets between thine yes." Revelation 13th chapter says: "The beast or the

image of the beast shall cause all to receive a mark in the hand or forehead." This seems to say that some ruling power in the last days would cause all who would buy or sell, to

break the law of God. Now, consider the 11th and 12th verses of the 14th chapter of Revelation. Speaking of the saints that have not received the mark of the beast: "Here are they that keep the commandments of God, and have the faith of Jesus."

'Now we come to the righteousness of the true Sabbath of God. In the 31st chapter of Exodus the Lord says the Sabbath (seventh day) shall be a sign between him and the children of Israel throughout their generations that they may know that he is the Lord that sanctifies them." Read in this connection, Ephesians chapter 2, the 12th verse, in which it is made plain that the Christian of any descent was made part of the com-

monwealth of Israel and heirs of the covenants of promise. In the -5th chapter of Matthew, Christ tells the Jews they have transgressed the commandments of God by following the traditions of men. And he sums up with this remark: "Every plant which my heavenly father hath not planted, shall be rooted up." Is the Christian Sabbath of the

Lord's planting? Revelation 11th and 13th chapter, speaks of the beast continuing 42 months. This is the same as 1,260 days mention in the third verse of Revelation, 11. Is it merely a singu-

lar coincidence that from the reign of Constantine the first pope who made the keeping of Sunday a law in 538, until 1798 the end of papal dominion is just 1260 years? 'Hosea chapter two says that the Jews Sabbaths would be taken away from them. Revelation 11th chapter says Gentiles shall tread down the holy city 42 months (1260 days or In the words of Elijah in years). I Kings 18:21 "How, long hast ye be-tween two opinions? if the Lord be

into a factory." "Yes, but then he would have to draw wages."-Baltimore American. New Arrival-And where do I go when

this shelling business starts? Sandy (late of the Wee Kirk)-Laddle, that a' depends on your releagious opin-ceons.-Blighty.

"The bride's mother has all the best of t at a wedding." "How so?" "She can sob and whoop and faint. And

there's no way for the groom's mother to get back."-Louisville Courier-Journal.

Willis-Do you wear any insignia on your

golf coat? Gillis-Yes, during the winter the moths laid out a complete 18-hole course on it .-Pittsburgh Press.

A RAY OF HOPE.

This has been the coldest year The weather man, as all well know, Has sent us much of ice and snow.

The wind has whistled at our door As it has whistled ne'er before; The ice has frozen in the river The Till thought of it just makes one shiver.

And what is also to the point. In times like these, so out of joint, The price of coal has soared so high That it has long since reached the sky.

But just as morn will follow night And darkness will succumb So will come the dawn of spring And soon we'll hear the robins sing. LORIN ANDREW THOMPSON. Fremont, Neb.

Cough Nearly Gone in 24 Hours

That's the usual experience with this home-made remedy. Costs little-try it.

00000000000000000000

Anyone who tries this pleasant tasting home-made cough syrup, will quickly understand why it is used in more homes in the United States and more homes in the United States and Canada than any other cough remedy. The way it takes hold of an obstinate cough, giving immediate relief, will make you regret that you never tried it be-fore. It is a truly dependable cough remedy that should be kept handy in every home, to use at the first sign of a cough during the night or day time. Any druggist can supply you with

Any druggist can supply you with 21/2 ounces of Pinex (60 cents worth). Pour this into a pint bottle and fill the

The value of destroyed munition factories, stock yards, grain elevators, tanneries, more than \$50,000,000. Of this amount over \$43,000,000 represent fires in which the dam-

General Goethals has decided to take over what wool the government needs, which may not leave a great deal for the home folks. But we will try to put up with the inconvenience if only the surplus is fairly divided among the consumers.

Another hospital ship has fallen victim to the U-boat, adding a new ray to the glorious halo accumulated by that humane instrument of kultur. The commander who fired the torpedo will be disappointed, though, when he finds he succeeded in drowning only a few nurses and no wounded soldiers.

Pioneer and His Progress.

The first Nebraska farmer to buy an autole is attending the Omaha Auto Show this week. He was considered quite advanced by his neighbors at the time he made his purchase, and perhaps a little bit venturesome. Nowadays he has the company of fully 100,000 of his own class, for of the 150,000 machines used in Nebraska fully two-thirds belong to the farmer. Nowhere has the self-propelled vehicle been so quickly or so generally recognized as an adjunct to successful agriculture as in this state. Its many possibilities are daily tested by new uses in actual service, and its capacity for assistance in the business of the farmer has not yet been fully measured. Not alone does the possession of a machine indicate the prosperity of its owner, but also his foresight, for the adoption of improvements is one of the secrets of success in agriculture. So from the light car in which the owner of the premises drives himself and his family into town to do business up to the giant tractor that drags the gang of plows or performs other operations where power in large supply is needed, the farmer is using the auto. The man who bought the first was merely the earliest to grad after they get it? They will be as badly off see that it was good; the man who has just as Napoleon was with Moscow. Defeating the bought one is merely following a long procession along a road that is well marked and which leads up to real success.

The renewed understanding between that country and the United States as to China, the alliance with Great Britain (which covers India) and the present situation in Siberia all contrib-

policy of "Asia for the Asiatics."

get somewhere.

The advent of March is always welcome to

ute arguments in favor of Japanese activity along these lines. This will do a great deal to offset the disintegration and consequent disorder now threatening in that part of the world.

Save the War Stores.

To the mind of the common man it would seem that a good plan to adopt in regard to the immense stores of war material piled up at Vladivostok and elsewhere in Eastern Siberia would be to move at once to make them secure from the Germans and the bolsheviki. Plenty of time to debate the action after it has been taken. The co-belligerents, which seems to be the official Washington term for what have hitherto been called the "Allies," are vitally concerned in the fate of these munitions and equipment. Most of it was manufactured in the United States, but some came from Japan, for the Russian army before the collapse of government in Russia. It has been well determined that the bolsheviki are powerless to defend themselves from the German. and this makes it quite certain that whatever of this war material is fit for use will go to the good of Germany. Prudence demands that this be prevented if possible. Delay for debate will not greatly assist and may seriously jeopardize the situation. Japan should be encouraged in its hinted purpose and if the attitude of "co-belligerency" is needed to be maintained American troops are available in the Philippines and the Chinese easily may provide a few, so that the international aspect of the intervention can be preserved, and any tradition of agreement with Russia be respected. But action is needed rather than talk.

One of the obscurities in the situation just now is what will the Germans do with Petro-Russian carries with it no especial advantage, as the kaiser might have learned had he looked up the record of Charles the Great.

would pick up and be maimed by the result-ing explosions—arms or legs blown off or bombed business buildings and the their faces mangled."

"I saw cemeteries where the Germans had taken the tombstones back to Germany with them to place in their own cemeteries. The Germans entered these tombs and with true German efficiency removed the lead lining of the coffins to be used in making ammunition.

He visited a ruined city which had once been behind the German lines. Before leaving they had placed a mine in every house. They had carried away everything from the houses that could be carried. The ablebodied men and women were taken to Germany to work in the munition plants. The old folks and the young children were herded together outside the city while the mines were touched off. Not a house in the place was left standing.

"We passed through miles of farming country; saw where fruit trees had been destroyed. They were not needed for making munitions. They were just chopped down or broken off and left lying. We saw farm machinery bent and twisted out of shape so as to be utterly useless.

"This story I checked carefully to assure myself of its truth. A nurse had brought a German officer through. He had been horribly wounded, but she had nursed him back to health and strength. When he was leaving the hospital he asked the nurse if she would shake hands with him to show that there was no enmity between them. Impulsively she stretched forth her hand and as she did so he seized her by the wrist and snapped her arm across his knee, exclaiming as he did so. 'There! You'll not be in shape to nurse anyone else for a long while.' They took him out and shot him.

"Another wounded German, as the nurse bent over him to give him some medicine or some broth, jabbed a fork he had concealed, bled as a spy. Fort Douglas nearby is one deep into her eye.

captured an American boy. Under all rules ceed in eluding the secret service. of warfare he was entitled to treatment as a New York is no exception to the prisoner of war, but they took him out into NoMan's Land and cut his throat. Left him lying there to show their contempt for the American swine,' as they call us. A savage Indian could have done no worse. Since our boys heard about it they can hardly wait until they can get into the trenches. "In the city of Baronne, of some 15,000 population, they mined every house before other idol shattered.
