ARMY NOTES

The call of duty has scattered Omaha men far and wide. From one coast to another of our own land and from across the sea comes the news of those who are in the service. Every day more and more of our men are joining the great army and their movements hold the center of interest always.

A cable last Saturday announced the safe arrival of Jarvis Offutt at a training camp in England. Young Offutt sailed with the 22d aero squadron about four weeks ago.

Colonel Leonard Wildman was in Omaha the early part of the week, having come over from Chicago on army business. Colonel Wildman is well known here, having been stationed at Fort Omaha at one time.

Major Paeglow, who left Fort Omaha in command of the second squadron for France, has been made assistant chief signal officer of the balloon division in France.

Francis Gaines, who is with the aviation section at Waco, Tex., has been put in charge of the engineering department, which means the care of the airplanes and is a responsible detail.

Second Lieutenant Milton Petersen was promoted to first lieutenant of the Twentieth infantry at Fort Douglas, Utah.

Robert Howe, son of Mr. and Mrs. R. C. Howe, is with the gas defense department of the army and is in New York at the plant, which makes gas masks for the allies as well as for our own army. Mr. Howe has charge of the employing of men and the shipping and receiving.

Colonel D. E. McCarthy is now stationed at San Antonio and was joined this week by his wife and Miss Gertrude McCarthy. His son, Daniel, jr., is at Leon Springs, a camp near San Antonio.

Frederick McConnell, jr., son of Mr. and Mrs. F. R. McConnell, is now in the service, having left Saturday for Camp Lee at Petersburg, Va. Mr. McConnell has been in Detroit this winter as assistant manager of the Arts and Crafts theater.

Lieutenant Sievers W. Sussmann, Eighth Field artillery, arrived here Monday to spend 10 days with his parents, Mr. and Mrs. H. S. Sussmann, before going to his new post at Mason, Ga. Lieutenant Sussmann has been at Fort Leavenworth.

George Durkee, who accompanied the second squadron from Fort Omaha to France, writes with enthusiasm of the work of the Red Cross canteen and the Young Men's Christian association, and says they are the best friends the soldiers have.

Fred Montmorency, jr., son of Mr. and Mrs. Fred Montmorency, enlisted in the coast artillery Monday and has gone to Fort Logan, Colo., for his final examination. Young Montmorency had his 18th birthday Saturday, and with the consent of his parents lost no time in enlisting for service.

Robert Bradford, who is consul at Havre, writes that the cost of living, while dearer than usual in France, is not as high as it is here. Supplies are more limited, sugar, for instance, growing more and more scarce, and there are food cards for everything, bearing identification pictures. Mr. Bradford and his mother, Mrs. Louis Bradford, have found an apartment which possesses a bathtub, a rare luxury.

Birthday Party.
A party in honor of Miss Lola Miller was given on her nineteenth birthday at her home Tuesday evening. The evening was spent in music and games. Roses and carnations were used for the decorations. Covers were spread for 20 guests. Those present were:

WOMEN SUFFERERS MAY NEED SWAMP-ROOT

Thousands upon thousands of women have kidney and bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Omaha Sunday Bee.—Advertisement.

MIRON'S COURTSHIP

Or How He Won the Beautiful Lias

Florence H. Sandy

Miron, the gray-haired sculptor, was interestingly human, and the lady he so fervently courted—the beautiful Lias—was no different than today's modern woman; for is it not recorded that she refused the hand of the aged sculptor, and did he not rightly guess that his white locks were the cause of her refusal? But Miron, old as he was, had the pep of self respect and was not to be turned aside for such trivial reason, therefore returned in a few days, his hair darkened to a youthful color, pressed his suit anew, to which the fascinating Lias replied: "Now I grant you today what I refused you father yesterday." But such courtships are not unusual even in this day and age.

Never-Tel is making thousands of Miron and beautiful Liases young and happy again, and it does its work so well that even friends can "Never-Tel." It's the one scientific preparation to darken gray hair, and can now be had in perfumed tablet form at your drug store, 50c, or direct from Never-Tel Laboratories Co., Dept. 204, Kansas City, Mo.

The suffrage bill just passed by the British parliament adds about 8,000,000 to the electorate, of whom 6,000,000 are women over 30 years of age.

It is believed that the women will constitute about two-fifths of the whole number of voters.

We Have Observed
That the man who thinks he lacks time generally lacks energy.

That no amount of culture will make a first-class stop scoring in his sleep.

That a fellow doesn't have to be a marathon runner to be long-winded.

That in the constant shifting of life men generally land about where they belong.

That there are lots of men with just enough knowledge to be nuisance.

That a homely face saves a woman from hearing a lot of rank nonsense.—Boston Transcript.

Her Grandma Used Sage Tea To Darken Her Hair

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too.

You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.
