Red Cross Packs Hospital Garments in State Warehouse

Here is a glimpse of one of the departments of the largest manufacturing concern in the world, the American Red Cross. The Omaha women in this picture have developed into expert packers. They work at the state warehouse in the Haubens' building.

When it comes to wrapping, tying and sorting packages their husbands will never more be able to say "Let me do it."
They pack each style of hospital garment in separate boxes according to Red Cross directions. Things are just as thoroughly systematized as in the best organized business house in the city.

day when the members will finish darning the soldiers' socks. They began this work on Friday, when there were 3,000 pairs of socks to be mended.

Solve Housing Problem.
The Nebraska Women's Washington club, organized from the Nebraska association, met in Senator Norris' office on Tuesday afternoon and arranged the place and hours for the tea to the recently arrived girls from their state, who are here doing war work. It was given Saturday afternoon in the headquarters of the Young Women's Christian association, corner of Fourteenth and G streets, from 4:30 to 6:30. The women have tried in every possible way to locate every girl and woman who has come from Nebraska for service during the period of the war, but they have found it very difficult, and would like all who come to communicate with Senator or Mrs. Norris and give their Washington address. It is their purpose, in the organization, to help the strangers in getting comfortably and properly located here, as the question of a place in which to live is a serious one, owing to the unprecedented crowding of the city.

South Omaha Woman's Club.
Miss Sadie Fowler, dean of girls in South Side High school, will lecture on characters in Barrie's "The Little Minister," before the literature department of the South Omaha Woman's club, Tuesday at 2:30 o'clock at the home of Mrs. F. A. Cressey, 4204 South Twenty-seventh street. Numbers will be given by members of the music department, including Mrs. Earl Brown, Mrs. Dean Ringer, Mrs. Anna Bratton, Miss Louise Bratton, Miss Marie Polian and Mrs. Walter Hill.
Mrs. N. M. Graham was re-elected leader of the department at the last meeting.
Music of Great Britain will be the

subject of discussion at the meeting of the music department at 2:30 p. m. Saturday at the home of Mrs. Charles Root, 3906 South Twenty-fifth street. Mrs. Anna Bratton and the Misses Althea Fletcher and Bess Wilson will take part in the program.

Petition President Wilson.
A petition signed by 6,000,000 women has been presented to the president, urging that the production of malt liquors in the United States be stopped in the interest of the conservation of foodstuffs.
Among the signatures are those of 28 presidents of national organizations, noted educators, state officials from suffrage states, professional women, wives of prominent men.
Among them are: Mrs. Josiah Evans Cowles, Mrs. Ella Flagg Young, Jane Addams, Jeanette Rankin, Mrs. Luther Burbank, Gene Stratton Porter, Annetta St. Gaudens and Mrs. Booth Tarkington.

Doctor Praises Eczema Remedy
The cure of skin diseases (eczema) and diseases of the scalp is known to be difficult even with the best efforts of intelligent and discriminating physicians. However there is one remedy that is entirely dependable in this distressing and troublesome disease, that is D. D. Prescription, manufactured by the D. D. D. Company of Chicago, Ill. I take much pleasure in recommending it to the entire confidence of all sufferers with any form of skin disease, as a medicine they can rely upon with perfect confidence.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.
Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its uniting research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.
Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.
Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.
The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make any one a pronounced crank on the subject of internal sanitation.—Adv.

Physicians Explain Why Women Need More Iron in their Blood Today than 20 Years Ago
Say Anaemia—Lack of Iron is Greatest Curse to the Health, Strength, Vitality and Beauty of the Modern American Woman.

DR. FERDINAND KING, New York
Physician and Medical author, says physicians should prescribe more organic iron—Nuxated Iron—to supply the iron deficiency. Opinions of Dr. Schuyler C. Jaques, Visiting Surgeon, St. Elizabeth's Hospital, New York City; Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.), New York and the Westchester County Hospital, and other physicians who have thoroughly tested the value of Nuxated Iron.

The Child's Appeal—What Is Your Answer?
You can tell the women with plenty of iron in their blood—beautiful healthy rosy cheeked women full of life, vim and vitality—while those who lack iron are often cross, nervous, irritable, weak, tired, complaining creatures whom nobody wants to have around.

Any woman who tires easily, is nervous or irritable, or looks pale, haggard and worn should at once have her blood examined for iron deficiency—admission of simple Nuxated Iron will often increase the strength and endurance of weak, nervous, careworn women in ten to fourteen days' time.

"There can be no strong, healthy, beautiful, rosy-cheeked woman, says Dr. Ferdinand King, a New York physician and Medical Author. "I have strongly emphasized the fact that doctors should prescribe more organic iron—Nuxated Iron—for their nervous, rundown, weak, haggard-looking women patients. Pallor means anaemia. The skin of an anaemic woman is pale, the flesh flabby. The muscles lack tone, the brain fades, and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women the roses go from their cheeks."
"In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, degenerated cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cookery, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss. Therefore, you should supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."
Dr. Schuyler C. Jaques, Visiting Surgeon of St. Elizabeth's Hospital, New York City, said: "I have never before given out any medical information or advice for publication, as I ordinarily do not believe in it. But so many American women suffer from iron deficiency with its attendant ills that I deem it my duty to advise such as take Nuxated Iron. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance will find a most remarkable and wonderfully effective remedy."
Dr. T. Alphonso Wallace, a physician of many years' experience in this country and who has been given many honorary titles in England, says: "I do not make a practice of recommending advertised medicinal products, but I have found Nuxated Iron so potent in nervous, run-down conditions that I believe all should know of it. The men and women of today need more iron in their blood than was the case twenty or thirty years ago. This because of the demineralized diet which now is served daily in thousands of homes and also because of the demand for greater resistance necessary to offset the greater number of health hazards, to be met at every turn."
Dr. E. Sauer, a Boston physician who has studied both in this country and in great European Medical institutions, says: "I am a great believer in Nuxated Iron. If people would only take it when they feel weak or run-down; instead of doing themselves with habit-forming drugs, stimulants and alcoholic beverages, I am convinced there are thousands who might readily build up their red blood corpuscles, increase their physical energy and get themselves into a condition to ward off the millions of disease germs that are almost continually around us. It is surprising how many people suffer from iron deficiency and do not know of it."
Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.), New York and Westchester County Hospital, says: "Thousands of persons go on suffering year after year, doctoring themselves
