Meat Cause of Kidney Trouble

Take Salts to flush Kidneys if Back hurts or bladder bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure and makes a delightful effervescent lithia-water drink.—Adv.

from Cedar Rapids, Ia., where he attended the Rotary conference. The women of the English Lutheran church served a noon and afternoon luncheon at the church last Thursday.

Mrs. J. Y. Hooper is recovering from severe injuries received in a fall. The wedding of Miss Adda M. Irons and Mr. William T. Roney of Carl Junction, Mo., took place Thursday noon at the home of Mr. and Mrs. A. Furbush. Rev. Mr. Calvert officiated. A dinner was served to a few guests, after which Mr. and Mrs. Roney left for their new home.

Going Too Far. "Too many cooks spoil the broth," but if there is no broth—well, here's the story as the young man told it: "I went to a church luncheon and thought it mighty strange that the meat was brought in first and a few minutes later a bowl of soup."

"So I laid the meat aside, reached over for the soup and began dipping my spoon in it."

"There was a loud cry from the ladies giving the luncheon, and one of them rushed up, crying: "'Goodness gracious, man, you're drinking the gravy!'"—Columbus Dispatch.

Near Side Stop

In conformity with the recent order of the Nebraska State Railway Commission, all street cars of this Company, operating in Nebraska, will, on and after SUNDAY, MARCH 3, 1918, stop, for receiving and discharging passengers, only on the near side of street intersections, on all paved streets excepting at regularly-used branch-offs.

At such branch-offs, cars will stop at the far side going in one direction, and at the near side going in the opposite direction, as shown in the diagram below.

At every such point conspicuous signs will hang on the span wire, between tracks, to indicate where cars will stop.

The reason for this deviation from the near side stop is to avoid delay to following cars which would result if cars stopped on the near side at these branch-offs.

On all unpaved streets, cars will continue to stop on the far side so that passengers can both enter and leave car without tramping through mud.

Remember, NEAR SIDE on all paved streets unless SIGN indicates the contrary.
