OMAHA CASH GRAIN PRICES TODAY

Cash Grain Prices Today. Omaha grain receipts were heavy, even for a Monday. They were: Wheat, 26 cars; corn, 319, and oats, 45 carloads.

Corn was in good demand and early sales made at \$1.38 to \$1.80 indicated a market that was unchanged to 5 and 6 cents higher. Oats were 1/2 cent up, selling at 89 to 901/4 cents a bushel.

CHICAGO GRAIN AND PROVISIONS.

Scarcity of Good Grades of Corn Hardens Prices.
Chicago, March 4.—Corn prices hardened today, influenced largely by scarcity of good grades and by reports that the number of cars available was inadequate to meet rural needs. Futures closed firm at the same as

from farms three weeks hence, as farmers would then be busy with field work. Under such circumstances the fact that the visible supply total had climbed did not re ceive much notice.

Persistent buying of oats took throughout the session. Gossip was of that a better outlet east was likely. Packers' support rallied provisions from an early decline. The initial weakness New York General Market. New York, March 4 .- Flour firm; spring

YORK

New York, March 5.—Stocks were almost in a state of deadlock today, leaders moving within restricted limits, though mainly downward. The tenor of domestic and foreign advices afforded a pretext for further short selling, but this was conducted with caution.

Investment rails, including Canadian Pacific, Union Pacific, grangers and coalers, yielded one to two points and industrials of the seasoned class averaged one point recessions.

Shippings. oils, leathers and the more diversified array of war shares made gross declines of one to three points, and util-ities, notably American Telephone, Public

ities, notably American Telephone, Public Service of New Jersey and People's Gas, lost one or two points. Marked heaviness was displayed by tobaccos, American Sumatra excepted, and Harvester, Continental Can and American Sugar.

Reactionary tendencies were partly neutrealized by the relative atrength of Baldwin Locomotive, American Car, Mexican Petroleum and motors and accessories. Sales amounted to 315,000 shares.

Call money opened at 8 per cent, a natural result of last week's adverse bank statement, but soon fell to four. Time loans held at 6 per cent with a minimum of supply. Lires, or Italian exchange, recorded another severe break, demand bills selling at \$8.95\frac{1}{2}.

United States bonds (old issues,) were un changed on call.

With ordinary good luck, this means nearly 20,000,000 bushels more of wheat. Spring seeding this year may exceed that of 1917 by nearly the same extent, which will bring the French wheat crop this year up to nearly 40,000,000 bushels more than that of last year.
