Rails and Steel Are Strong Factor in Desultory Market, Each Making Gains on

Earning Showing. New York, March 6.—Rails and steels shared the honors of today's desultory stock market, the former advancing to 31/2 points on intimations of early federal developments beneficial to the transportation systems, and the latter responding quite substantially to some very favorable ex-hibits of earnings.

St. Paul common and preferred enjoyed especial prominence for a time to the accompaniment of rumors indicating dividend action, and Rock Island featured the lower priced western rails.

Gross gains in equipments extended from 1 to 2 points, Republic Iron and Crucible and Lackawanna Steels frequently rivalling United States Steel in activity. The latter closed at a small fractional loss, others of the same group cancelling their gains in the final hour on a general reaction in shippings and specialities.

shippings and specialities.

Pools were less conspicuous, speculative issues, like General Motors, Baldwin Locomotive and Mexican Petroleum holding within comparatively restricted limits and within comparatively restricted limits and ending at net recessions of 1 to 2 points. Sales amounted to 335,000 shares.

Promise of better money conditions was fulfilled, call leans ruling at 4½ per cent with an abundance of offerings. Lires were again the only feature of the foreign exchange market, rallying slightly from recent acute weakness.

Defense and agricultural college show that farmers who have not already obtained their seed corn for this year's planting should do so as quickly as possible. Some of the counties report a surplus and others that they will have plus as possible the supplying of all these needs and at the same time to provide as large a surplus as possible for use in states which are looking to Nebraska for seed corn is a duty of great importance. To prevent shipping away seed corn from counties where it is needed for local planting, and also leaving the state before Nebraska's needs are supplied, the State Council of Defense has placed an embargo on such shipments until March 15. To meet the seed corn situation wisely it is imperative that every farmer who has not already obtained the seed he will need this year should do so at once.
