HEADS CHAPTER B. T. OF  
P. E. O. SISTERHOOD

Young Officers Have Thrilling Return Trip.

It might be well for young officers on a furlough to have an alarm clock attachment on their wrist watches which would emit a loud peal at train time, for when the girls are pretty and the lights are soft, such dull things as drill and the military orders are apt to be forgotten.

Two officers were invited to a house party in Lincoln last week. They are stationed at Fort Crook and it was indeed a treat to be invited to spend the week-end at the lovely home in Lincoln, especially since a number of Omaha girls had been invited. The young men planned to leave Lincoln on the midnight train, for they had to report for duty at the fort at 6 a. m. What was their consternation to find, on arriving at the station, that the midnight train had been taken off by government orders and there was only a freight which would leave Lincoln at 3 in the morning. The train did not stop in South Side, so the soldiers would have to leap from the train. Were they daunted? Not a bit. Orders are orders, and they would have to reach the fort at 6 if they had to walk.

Hurrying across the street to a little hotel, they tumbled into bed with their clothes on, and slept, more or less, until 3. They caught the train and two tired, heavy-eyed young men stumbled into Fort Crook at a few minutes before 6. One of them had to take command of his company at once and if his orders were a little mixed that morning it is no wonder. We might even divulge their names if you will keep the secret for we are told on good authority that the two week-enders were Lieutenant Paul Cooley and Lieutenant Bruce Clark.

McHugh-Goodrich Wedding.

An out-of-town wedding of great interest to Omahans will be that of Miss Bernice Marguerite Goodrich and Lieutenant William Douglas McHugh, son of Judge and Mrs. W. D. McHugh, which will take place Saturday in Buffalo, N. Y.

The ceremony will be quietly solemnized in the chapel of the First Presbyterian church at 5 in the afternoon. There will be no bridal attendants and following the wedding supper will be served at the home of the bride's parents for the members of the immediate families.

The young couple will leave immediately for Deming, N. M., where they will stay until Lieutenant McHugh is ordered abroad. The bride will then return to Buffalo to make her home with her parents.

Miss Goodrich is a charming girl and well known in Omaha, as she visited Judge and Mrs. W. D. McHugh last summer.

The wedding date comes as a surprise to the friends of the young couple, as Lieutenant McHugh was granted a short furlough and hurried east. He spent Wednesday in Omaha visiting his sister, Mrs. C. J. Baird. Judge and Mrs. McHugh have been at Coronado Beach for some time, but left several days ago for Buffalo to attend the wedding.

Engagement Announced.

Mr. and Mrs. S. V. Fullaway are telling their friends of the engagement of their son, Mr. S. V. Fullaway, jr., to Miss Norma Ethel Warmoth of Spokane, Wash. No definite date has been set for the wedding.

Miss Warmoth is an intimate friend of Miss Ethel Fullaway and Miss Fullaway was a guest at the Warmoth home last summer.

Mr. Fullaway is well known in Omaha, having graduated from the Central High school and the state university. He is now a forester in the governmental service and is stationed at Missoula, Mont.

Bridge Luncheon.

Mrs. J. L. Welsh entertained at luncheon at the Blackstone today. The afternoon was spent in playing bridge and the guests included:

Misses—O. M. Smith, S. T. Mason, H. K. Schaffer, L. A. Dermody, Willis Crosby, P. W. Mikessil, Robert Parkes.

To Join Ambulance Corps.

Harry Riley, 513 Nicholas street, and Edwin Gray, 4316 Erskine street, leave tonight for Camp Taylor, Louisville, Ky., to join the Omaha ambulance company there.

Gould Dietz, in charge of the unit here, says that he wants three more men for positions with that military organization.

Wedding Announced.

Loren V. Graves of Williamsburg, Kan., and Miss Ella E. Cragin of Omaha, were united in marriage by Rev. B. R. Vanderlippe at the Young Men's Christian association Wednesday afternoon. Miss Honora Cragin and Harvey R. Hay were the attendants.

Cooking Club Meets.

Mrs. W. S. Popleton entertained the Original Cooking club at luncheon at her home today. All the members of the club were present except Mrs. Joseph Barker, who is in California.

Mrs. A. S. Pinto announces a mass meeting of all Masonic women in the city Friday at 2:30 o'clock in the new Masonic temple to organize a Red Cross surgical dressings unit.

Noted Serbian Woman

Lectures for War Fund in Omaha

Mrs. St. Clair Stobart, a major in the Serbian army and known to all the Serbs as "the lady of the black horse," will speak in the Pontenelle Thursday, March 14, at 8 p. m.

The speaker has a long list of military achievements. She is the first woman in the world to command a flying field hospital. She established the woman's convoy corps and the first women's hospital unit in the Balkans. She was made prisoner by the Germans and condemned to death in 1914.

She led her hospital unit in the great 800-mile retreat through Serbia, Montenegro and Albania in 1915.

Mrs. Stobart will give an illustrated lecture on her experiences. The proceeds will go to the Serbian Red Cross fund.

Mrs. J. L. Harrington

### Red Cross Notes

The fifth, sixth, seventh and eighth grades of a number of schools in the city are making surgical dressings in 50-minute periods.

The chairman of the gauze cutting committee for the different days will be: Monday, Mrs. Raymond Overmeyer; Tuesday, Mrs. Sam Mattson; Wednesday, Mrs. Lloyd Fercut; Thursday, Mrs. J. C. Wrath; Friday, Miss Margaret Smith, and Saturday, Mrs. R. L. Massy.

The hostess committee at the headquarters are Mrs. Julius Lyon, Mrs. H. B. Robinson, Miss Louise White, Miss Regina Connell and Miss Margaret Grace Poore.

One of the newest functions of the American Red Cross is to give to relatives and friends of American soldiers details of casualties at the front.

The anxiety which naturally follows every battle when official reports simply state that such and such soldiers were wounded or "missing" will be relieved in a large measure by this service. The bureau established in Paris by the Red Cross will supplement government information with fuller details such as relatives crave.

Investigators from the Paris office will be stationed at base hospitals in France. When a soldier is killed, wounded or missing these investigators will send full particulars promptly to headquarters and from there it will be sent to America. Comrades of the men who fall in battle will be questioned for last details about their fate.

Along with this service the American Red Cross has perfected plans for sending food to American soldiers in German prison camps. Every week three 10-pound packages of food will be sent from Switzerland to each American soldier in Germany.

For the re-education of crippled and mutilated French soldiers, a 500-acre farm, near Tours, in France, has been obtained by the American Red Cross. Here the use of farm machinery and care of animals will be taught. Clare Arnett, former professor of animal husbandry at the Montana State Agricultural college, will be the director of the farm, and M. Marchand, a French farmer, who has been held a prisoner by the Germans for 37 months, will be chief of agriculture.

Another work done for the maimed poilu by the Red Cross is the installation of model electrical training work shops at the National Professional Institute for War Cripples at St. Maurice. Other plans for training him in skilled work are being developed.

The mutilated soldier must and should re-enter industry on a basis of competition with able-bodied workmen. Cripples who have lost an arm or leg and at first seem hopelessly disabled, can be taught many processes of industry, such as running lathes, operating motor tractors, controlling drills and other skilled operations. The professions which offer the greatest appeal are industrial draughting and design making for surgical instruments, tools of precision, watchmaking, etc.

The American Red Cross also will establish in the United States similar schools to teach new trades to crippled American soldiers.

Community Kitchens

England is turning to communal kitchens as a means of conserving food. Six of these kitchens have already been established under Lord Rhonda and have been fairly successful. Nearly 50,000 meals have been served the last eight months in two kitchens maintained in West Ham, near London. The average charge has been 10 cents per meal to consumers, although nourishing meals are sold for as little as 2 cents. A communal kitchen with capacity for 1,000 meals daily, opened recently in North Woolwich Road, represents an investment of only \$1,500 and gives great economies in fuel and labor, as well as furnishing properly cooked foods with full nutritive value and the avoidance of waste.

## Soliloquy of Modern Eve

Perfection is what the whole world is seeking and one's proximity to it determines one's worth in the mind of the world.

By ADELAIDE KENNERLY.

PERFECTION? The whole world wants perfection! Why not? Is a shoddy thing worth considering except with a view to improvement?

Is a half done piece of work as praiseworthy as one finished in every detail? Nothing ever is good enough unless it is the result of the best there is in you; unless it has called forth your thought, your energy and your labor. Without the combination of all of these there is something lacking. Why does the teacher sometimes seem to show partiality to those in her classes who progress more rapidly than others? It brings green to the eyes of the children who never bask in the sunshine of teacher's smiles.

Recognition.

Those who progress do their best to succeed. Effort is recognized and concentration is appreciated. Ambition and a desire to be a winner enhances the attractiveness of any child.

Teachers, business heads and leaders in every walk of life stub their toes against these human stumbling blocks who neither try nor care to be winners in Life's games.

Stones of indifference weight down the heads of half the people in the world.

Indolence is the bar to any kind of progress.

The Way.

Perfection? Why, you win it through untiring efforts. Strive for it, think about it—forget that anyone else in the world has more ability than you have. Cast the little green devils from you and make a desperate effort for perfection in some one thing. Hard work makes it easy.

Perfection is what the whole universe is seeking and one's proximity to it determines one's worth in the mind of the world.

### Show Pennell War Lithographs for Relief Fund

The War Relief society is bringing to Omaha 100 of Joseph Pennell's famous war lithographs. Fifty of these were ordered by the English government and 50 by our own administration.

They represent various phases of English and American war preparation and have aroused much comment and interest both here and abroad.

The exhibit will be held in the Keeline building at Harney and Seventeenth streets, on the ground floor, and will continue for two weeks, beginning Monday. The hours are 10 to 6.
