

MOSCOW AGAIN RUSS CAPITAL; PEASANTS FLEE

Petrograd Is Declared Free Port, While State Institutions Will Be Transferred Despite Peace With Teutons.

(By Associated Press.)
Washington, March 7.—Charged Petrograd, March 7.—Moscow is to be declared the new capital of Russia and the government proposes to publish a statement to this effect immediately. Petrograd will be proclaimed a free port.
Notwithstanding the signing of peace the government is determined to transfer all the state institutions to Moscow, Nizhni-Novgorod and Kazan. The removal of the ministries of foreign affairs, communications and finance began today. The population of Petrograd is hastily quitting the city, but there are many transportation difficulties and already the roads leading from Petrograd are crowded with all sorts of vehicles.
The Russian delegates returned from Brest-Litovsk today and will report to the executive of the soviets as soon as possible. According to the latest reports hostilities have been suspended on all fronts, the Germans having halted on the northern front along the line comprising Narva, Pskov, Vitebsk, Mohilev and Orsha.

U. S. TO EXPEND TWO BILLIONS ON RAILROADS

Washington, March 7.—Railroad purchases amounting to between \$1,000,000,000 and \$2,000,000,000 this year will be made through the railroad administration, assisted by a central advisory committee of three railway purchasing agents to be appointed soon. Director General McAdoo announced today. Regional advisory committees will be created for the eastern, western and southern districts.

Bryan to Boost "Dry" Cause in Lincoln Confab

Lincoln, Neb., March 7.—William J. Bryan on March 19, the anniversary of his birthday, will be the principal speaker at a mass meeting here of "dry" organizations, at which time plans will be made to campaign to elect members to the state legislature who would be favorably inclined toward the federal prohibition amendment. Call for the meeting was issued today by the Nebraska Dry federation and six other associations favoring prohibition.
In the event of a special session of the legislature before the November election the "drys" will make efforts to obtain favorable action from the present members of the state assembly.

U. S. Calls 5,000 Nurses To War Before June 1

Washington, March 7.—A call for 5,000 nurses between now and June 1 for service in military hospitals at home and abroad has been made upon the Red Cross by Surgeon General Gorgas of the army. Nearly 7,000 nurses already have been supplied by the Red Cross, but the need for more grows imperative daily. Of the 80,000 or 90,000 registered nurses in the United States General Gorgas estimates that approximately 30,000 will be needed for service in army hospitals this year.

WONDERFUL RESOURCES OF CHINA IN MEN AND FOOD BACK ENTENTE ALLIES IN BATTLE FOR SURVIVAL OF DEMOCRACY

Washington, March 7.—China which at the request of President Wilson severed relations with Germany and later, on the representation of the allies declared war on Germany, has given over 100,000 of her best men to the cause of the allies. They are behind the lines working as mechanics, carpenters, bridge and road builders. They are strong, brave, and indefatigable and good-humored workers. For two years or more they have been crossing the Pacific and Canada en route to France in contingents of 2,500 or thereabouts. Prior to embarkation in China they are given a camp and military training experience for some weeks under the supervision of English and Canadian officers.

Those who have seen these Chinese realize that every one is hand-picked and that they are all in the pink of physical condition. Returning American officers from France are enthusiastic over the useful qualities and indispensable character of the service of these Chinese. They are described as tractable, cheerful, brave under fire and able to live on the most simple fare and one easily supplied. The question naturally arises, Why are not a greater number employed in France in the capacity of workmen or as soldiers? General Chang, head of the Chinese military mission in America, has announced that China is willing to send 500,000 fighting men to the western front. The Chinese minister, Dr. Wellington Koo, in a speech before the New York

Chamber of Commerce, said that China could help to win the war by her resources and by her manpower if given assistance.

Here is the answer to that question. China needs assistance if her limitless resources of grain, raw material and men are to be made available for the benefit of her allies. China is poor. Her credit has been disparaged by other nations who wished to exploit her, although she has never failed to pay a debt. At the present time China cannot borrow except on onerous terms that offend her dignity and sovereignty and impair the commercial opportunity of other nations not parties to the loan. Wealthy nations such as England and France today are situated like China in that they are not able to borrow money and their credit is impaired by the drain upon their resources. To

these countries and other countries in Europe the United States has loaned, or will have loaned in the course of the next few months \$5,000,000,000, but apparently so far not one cent has been loaned to China. Yet China must be financially assisted to make her an effective ally.
The war has cut down the agricultural output of the European allies by fully one-half and the deficit must be made up by the United States. If the war should drag on one or two years more the United States will suffer seriously from a shortage of food and possibly man power. All the allies will then look longingly at the world's greatest storehouse, China, and will look unavailingly unless early means are initiated by which it can be tapped.
One of China's greatest needs is transportation. With a population

of more than 350,000,000 people and an area of 4,278,352 square miles, she possesses only 6,500 miles of railroad. The most fertile sections and the great wheat fields are for the most part reached by railroads as yet only on paper or by railroads the construction of which has been stopped by the war. In some interior districts the local price of good, hard-grained wheat is less than 20 cents Mexican money per bushel. Given transportation facilities, the quantity raised would be enormously increased over that required for local consumption and the surplus for export would be sold at the world's market price less the cost of railroad and ocean transportation. The allied countries would benefit by the added supply of foodstuff and the economic condition of the communities served by the railroads would be vastly improved.

cantonments at Fort Douglas were constructed, was ordered interned today on a residential warrant. He is charged with having denounced the United States government and had expressed the hope that Germany would be the victor in the present world struggle.

FORMER MAYOR OF BIRMINGHAM ENDORSES TANLAC

"You Will Hardly Know Me When We Meet Again," He Writes a Friend.

One of the latest additions to the list of leaders of thought and action who have come forward with their unqualified endorsement of Tanlac is the name of Hon. Frank V. Evans, former mayor of Birmingham, Ala., ex-state examiner of public accounts of Alabama, and at one time editor of one of the South's greatest newspapers, The Birmingham Age-Herald.
Writing to a personal friend in Atlanta, Mr. Evans says:
Birmingham, Ala., Feb. 2.

"By the way, you will hardly know me when we meet again because I am getting well and strong again. As I told you while in Atlanta last month I have been suffering a long time with gastritis, as the doctors call it—really a disordered stomach with consequent constipation, pains in the shoulders, headache, belching, heartburn, loss of appetite, loss of sleep and fainting spells. For weeks I could not sleep on my back. "One week ago, upon recommendation of friends who had tried the medicine, I purchased one bottle of Tanlac and began taking it. Since my second dose I have suffered none of these troubles to which I refer, and really believe I am going to get perfectly well and strong again. Won't that be wonderful at my age? Well, certain it is that Tanlac is a wonderful medicine, and you know that I am not given to "puffing" mere experiments and am rather orthodox as to materia medica.
"I shall continue the treatment with perfect confidence in the final results.—(Signed)
"FRANK V. EVANS."

Commenting on this splendid endorsement of Tanlac, G. F. Willis, international distributor, said:
"Although the list of prominent endorsements of Tanlac is a long one, I recall a few leading names that lend both dignity and credit to the entire array. Some of them are:
"Hon. C. W. Mangum, of Atlanta, ex-sheriff of Fulton county, Ga.; Hon. McKenzie Moss, judge of the eighth district of Kentucky; Hon. Moses R. Glenn, superintendent of printing for the state of Kentucky; Col. John B. Gains, editor and publisher, Bowling Green, Ky.; Mr. C. C. Cooper, president Georgia Cotton Oil Co.; Mr. H. W. Hill, bank president of South Pittsburg, Tenn.; Mr. J. F. Carroll, cotton mill superintendent of Chattanooga, Ga.; Hon. S. S. Shepherd, ex-city councilman of Atlanta, and hundreds of others whose names have heretofore been given to the public."
Tanlac is sold in Omaha by Sherman & McConnell Drug Company, corner 16th and Dodge streets; Owl Drug Co., 16th and Harney streets; Farway Pharmacy, 24th and Farnam streets; Northeast corner 19th and Farnam streets, and West End Pharmacy, 49th and Dodge streets, under the personal direction of a special Tanlac representative.—Adv.

Ak-Sar-Ben Queen and Liberty Goddess Handle Reins on Fractious Army Mules

Beauty and the beast working for Uncle Sam. Ak-Sar-Ben queen, Miss Elizabeth Reed, and Ak-Sar-Ben goddess of liberty, Miss Regina Connell, have just made the acquaintance of the army mule.

pression on them that they want to see him safely through to the trenches, so they are leading the work of the Red Star animal relief drive.
Of course, they are helping friend Dobbin, too, but they have always

loved him, so that's an old story. They were going to pose, all four of them, in a "reading from left-to-right" group, but the beast kicked at that and so their royal highnesses are "taking the places of the men" in the ammunition wagon.

Urge Careful Testing of Seed Before Planting

New York, March 7.—Only by careful testing of seed and the best cultivation can more than half of the 1917 corn crop of 2,500,000,000 bushels be grown this year, according to George T. Powell, agricultural adviser of the Woman's Land Army of America, an organization to increase production by using woman labor on farms. Powell says there is danger of a serious shortage in the corn crop from injury to seed by freezing.
Farmers are urged to begin testing their seed to ascertain whether it will grow before going to the expense of preparing the soil and wasting time planting poor seed.

Germans Deport Small Belgian Children

Havre, Thursday, March 7.—The Germans continue to dynamite the engines, machines and foundations in factories around Mons, according to Belgians who have recently escaped from Belgium. They are also carrying off the rails from street and local railway tracks.
Deportations of Belgians continue and have extended to children 13 years of age.

Council Votes to Submit Fire House Bonds at Spring Election

City council passed an ordinance for the submission at the spring election of a fire engine house bond proposition in the sum of \$35,000. It is proposed to expend the money in

SOLDIER HELD FOR THEFT OF MILLIONS

Accused of Appropriating Huge Commissions on French War Contracts for Personal Use.

Washington, March 6.—Charged with the embezzlement of several million dollars from the French government in dealings with American motor truck manufacturers, Frank J. Goldsoll, retired French soldier, is in jail here tonight awaiting extradition proceedings which will begin on March 28.

Goldsoll is accused by the French embassy of having appropriated to his own use huge commissions on war contracts, which he was sent to the United States to execute for his government.

No Comment.
The prisoner declined to comment on the case, but his counsel talked freely, asserting that his arrest was due to political antagonism. The French ministry, they said, looked with disfavor on Goldsoll's close affiliations with Albert Thomas, former minister of munitions, and that Thomas was the real objective of the prosecution.

Goldsoll, who is about 45 years old, was born of Russian-Jewish parentage in Cleveland, O., but went to France about 20 years ago and was naturalized in 1911. When war was declared in 1914, he enlisted and served for a year as chauffeur for a staff officer before being retired for physical disability. He came to America in 1916 to place war orders for motor trucks. His counsel admits that he made large profits on the deliveries, but claims this was permitted

Eighteen British Vessels Sunk in Week by U-Boats

London, March 7.—Eighteen British merchantmen were sunk by mine or submarine in the last week, according to the admiralty report tonight. Of these, 12 were vessels of 1,600 tons or over, six being under that tonnage. No fishing craft were sunk.

Arrivals of British merchantmen at ports in the United Kingdom, 2,015; sailings, 2,209. Merchantmen unsuccessfully attacked, 6.
The loss to British shipping in the last week were the same as in the previous week with respect to the number of merchantmen sunk. In the previous week, however, 14 of the 18 vessels destroyed were of more than 1,600 tons.

and denies any criminal culpability. Neither the embassy nor Goldsoll's attorneys would divulge details of the transactions.

Moha Knocked Out by Malone; May Suffer Serious Results

Milwaukee, Wis., March 7.—Jack Malone, St. Paul, welterweight boxer, knocked out Eddie Moha, Milwaukee, in the 10th round of a 10-round bout tonight. A right cross to the point of the jaw finished the Milwaukee boy.
Moha did not recover until five minutes after he was knocked out. He collapsed again as he was leaving the ring and was taken to a hospital. Shortly after midnight he recovered again and physicians said he was suffering from concussion of the brain and a possible skull fracture. Malone was released.

Salts in Hot Water Clears Pimply Skin

Says we must make kidneys clean the blood, and pimples disappear.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.
It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities, which often break out all over the skin in the form of pimples.
The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.
Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.—Advertisement.

TRAINED NURSE GIVES RECIPE FOR GRAY HAIR

Gives Recipe for Simple Home-Made Remedy That Quickly Darkens It.
Mrs. A. Dixon, a well known Brooklyn trained nurse, made the following statement regarding gray hair: "Streaked, faded or gray hair can be quickly turned black, brown or light brown by the use of the following remedy that you can make at home: "Merely get a small box of Orlex powder at any drug store. It costs only 25 cents and no extra to buy. Dissolve it in one ounce of water and comb it through the hair. Full directions for use come in each box.
"You need not hesitate to use Orlex as a \$100.00 gold bond comes in each box guaranteeing the user that Orlex does not contain silver, lead, zinc, mercury, aniline, coal-tar products or their derivatives.
"It does not rub off, is not sticky or gummy and leaves the hair fluffy. It will make a gray haired person look twenty years younger.—Adv.

D-E

Worm-Drive Motor Trucks

Quality is the keynote of D-E construction; from motor to rear axle these remarkable motor trucks fairly bristle with features of quality.

And as pronounced as these features of quality are, so is that of VALUE which they offer. In the D-E Model A at \$1,495, for example, we offer you a motor truck with a PAY LOAD capacity of 1½ tons! And you have but to see this rugged motor truck and go over its specifications carefully, to realize that it is absolutely the greatest value for the money ever offered in worm-drive motor trucks.

If you are interested in a well-built, worm-drive motor truck at a moderate price, we have absolutely the best "buy" for you in America. Let us show these D-E trucks to you. Catalogs on request.

MODEL J Chassis carrying capacity, including weight of body— 2,250 Pounds \$950
MODEL A Chassis carrying capacity, including weight of body— 3,500 Pounds \$1,495
MODEL B Chassis carrying capacity, including weight of body— 4,500 Pounds \$1,775
MODEL C Chassis carrying capacity, including weight of body— 7,000 Pounds \$2,365
