OMAHA DEPUTIES CATCH POACHERS NEAR FREMONT

Patrol Platte for Miles, But Find Little Shooting; Farmer Dies from Self-Inflicted Wound.

Fremont, Neb., March 11.—(Special Telegram.)—Two arrests for violation of the spring shooting law were made here Sunday by deputies sent out from Omaha.

John Hubler and Sam Stergo each paid fines of \$1 and cost, County Attorney Cook recommending light fines.

Stergo was hunting without license and Hubler shot at a flock of ducks within sight of the deputies. The deputies patrolled the Platte river for miles, but found little shooting.

New City Clerk. Fred G. Pierce, former councilman, has been appointed city clerk to fill the vacancy caused by the death of Charles R. Delamater.

War Work Speeded. "The result is," said Mr. Hafry, "that the work has been wonderfully speeded up in the coast yards and the wage and hour scale is satisfactory. Caulkers are drawing \$7.40 for an eight-hour day and time and a half for overtime and many of the men avail themselves of the overtime, to their own benefit financially and to the government's in connection with its war work."

New York Giants Hop Train For Spring Training Camp

New York, March 11.—The first batch of New York National League club's players left here for the training quarters at Marlton, Tex., today, Manager McGraw, who was detained on personal business and Benny Kauff, who has to appear before a local draft board for physical examination, will leave here later this week.

The party will be joined at St. Louis tomorrow by Walter Holke, George Gibson, Arthur Fletcher and five recruits—Johnson, Schepner, O'Neill, Pipp and Hemingway.

The players who went here today were: George Burns, Jack Onslow, George Smith, Waite Hoyt, Mike Hogan and Herhan ("Germany") Schaefer, assistant coach.

Grover Alexander Holding Fast for \$10,000 Bonus

St. Paul, Neb., March 10.—Grover Cleveland Alexander, who arrived at his home here Saturday, stated tonight that he would not join the Chicago National League club on the California training trip unless his terms are met. Alexander has demanded a \$10,000 bonus, which he says he has not yet been granted.

Chicago, March 10.—Charles H. Weeghman, president of the Chicago National League baseball club, tonight telegraphed PITCHER Alexander to come to Chicago at once to discuss the question of the \$10,000 bonus, the player has demanded before signing a contract.

Henry McDonald Leads Shooters at Gun Club

High winds proved almost too much for the Omaha scattergun enthusiasts who assembled Sunday at the Omaha Gun club and scores were universally low. Henry McDonald led the field with a count of 64x75. Other scores were as follows:

Table with 2 columns: Name and Score. Includes names like Ellison, Klingler, Hollingsworth, Bagard, Vermeiren, and Wason with their respective scores.

Boston Nationals to Make No Overtures to Herzog

Boston, March 10.—President Haughton of the Boston National League club, said tonight he would make no further overtures to Charles Herzog, obtained from the New York Nationals in exchange for Larry Doyle and Jess Barnes. Herzog has been ordered to report at the Braves' training camp at Miami, but has refused to go.

Amateur Wrestling Bouts Billed for Chicago Soon

Chicago, March 11.—The National amateur wrestling championship contests will be held on April 12 and 13, at the Chicago Athletic association, under the auspices of the Amateur Athletic union, it was announced today. The events will be divided into nine classes and are expected to attract hundreds of contestants from all parts of the United States.

Commoner High Athlete Injured in Cage Tourney

Frank Mahoney of the Omaha Commercial High basketball team suffered a broken collar bone in the game with Excelsior at the state basketball tournament at Lincoln.

Browns to Spring Camp

St. Louis, Mo., March 10.—Manager Fletcher Jones and 13 members of the St. Louis Browns left tonight for Brownsville, La., for spring base ball camp.

CAULKERS LOYAL IN U. S. WAR NEED

Federal Commissioner Declares He Expects No Trouble From Ship Workers in Western Yards.

Helena, Mont., March 11.—In a statement published here today G. Y. Harry, federal commissioner of conciliation, said he expected no trouble from caulkers employed at wooden-shipyards in the Puget Sound and Columbia river districts.

"The caulkers, while they are patriotic as any other class of workers, are jealous against a considerable increase in their numbers," Mr. Harry said. "Notwithstanding this, when the war-time needs of the government were made plain to them they waived their objection to apprentices and now there is one of these to every caulker. They waived also the question of common labor for the work known as horsing—that is, work on platforms, laying out material and the like."

Speaking for the shipwrights and caulkers, a union representative gave out a statement in Seattle last night that no fears need be entertained of any shortage of caulkers. To prove their loyalty, it was stated, they would put apprentices at work as caulkers.

Omaha Company Adds to Manufacturing Capacity

The Auto Power and Malleable Manufacturing company has amended its articles of incorporation to increase its capital stock from \$75,000 to \$500,000 for the purpose of engaging in the manufacture of malleable iron, as well as having greater facilities for turning out its line of auto power transmitters, the demand for which has outgrown its present quarters.

The company is contracting with the Austin Building company to erect a main building, foundry and box factory. The size of the foundry is to be 240x80 feet and the size of the box factory 60x80 feet. The equipment for the foundry is to be installed by the Whiting Foundry company of Harvey, Ill. It will have a capacity of 10 tons daily, making it one of the largest foundries of its kind in Omaha.

The company has made rapid strides in introducing its auto power transmitters, being only two years old and having an established trade through dealers in a number of states. In Nebraska and Iowa alone there are 3,600 of these transmitters in use. The transmitter is especially adaptable to the Ford car and by its use the power of the automobile can be made to do the daily work on the farm. It consists of a bumper bar, ball governor, cone clutch and pulley.

The business already established has been principally on Ford cars, but the demand for the product has been so great that the company is now manufacturing the types that can be attached to any truck or car. The Auto Power and Malleable Manufacturing company expects to have its factory in operation about July 1, 1918.

German Commander Who Clashed With Dewey Dead

Amsterdam, March 10.—Admiral von Diederichs, commander of a German squadron off Manila during the Spanish-American war, and who clashed with Admiral Dewey, the commander of the American squadron in the Philippines, is dead at Baden-Baden.

The friction between Admiral Dewey and Admiral von Diederichs arose from the German officer's disinclination to observe the rules of the blockade established by the American commander in Manila bay. Admiral Dewey insisted that the warships of the neutrals entering the bay should report to the Americans and was upheld in this contention by the British naval commander. The Germans, nevertheless, sought to evade the rule and on several occasions there was friction.

Pigeon Carries Invitation From New York to Capitol

Washington, March 10.—A carrier pigeon released in New York today with an invitation to Mrs. Woodrow Wilson to attend the opening of a military and naval meet in New York next week, for the benefit of the women's overseas hospitals in devastated districts of France, reached Washington tonight.

The message was delivered to Secretary Baker's daughter, who will present it to Mrs. Wilson tomorrow in time for the carrier bearing Mrs. Wilson's reply to begin its journey at 10:30 a. m.

CHINESE TROOPS TO MANCHURIA TO PROTECT ALLIES

Will Co-Operate With Japan in Backing Entente Interests in Far East; Nippon Finances Move.

Peking, China, March 11.—China, in response to an inquiry from Tokio, has signified its intention to co-operate with Japan in the protection of allied interests in the far east.

The Chinese war bureau has been requested to arrange for the sending of two divisions to northern Manchuria. Japan will bear the expense, pending the completion of a proposed American loan to China.

Oakland, Japan, Friday, March 8.—According to a dispatch to the Mainichi of this city from Washington, the United States is demanding a guarantee for the withdrawal of Japanese troops from Siberia immediately the Russian crisis is over.

Washington, March 11.—It was authoritatively stated here today by officials in close touch with the situation that no such demand as referred to in the foregoing dispatch has been made on Japan by the United States, and that such a demand would be considered impugning Japan's good faith, which the United States already has recognized.

It also was stated that if Japanese troops go to Siberia the question of their withdrawal is expected to go before the peace conference.

Large Crops in Prospect Throughout the State

While the Burlington will not begin the issue of its monthly soil and crop report prior to April 15, information coming to the office of General Manager Holdrege indicates that there is considerable activity among the farmers of Nebraska, all of whom are making plans for putting out some of the largest grain crops in the history of the state.

Numerous letters from Burlington agents, who are in touch with the farmers tributary to their respective stations, say indications are that winter wheat has come through the winter in excellent shape and that already fields are beginning to show green. The letters speak of many farmers who are going to sow a large acreage to spring wheat and of others who are going to turn their attention to growing barley and oats.

Everywhere in the southern and central portions of the state, it is said, farmers will plant an unusually large acreage to corn. In most localities they are taking time by the forelock and testing the seed. It is said that a little difficulty is being experienced in getting good seed, owing to the fact that last year there was such a large proportion of soft corn.

176 Persons on Wrecked Steamer Safely Landed

San Francisco, Cal., March 10.—All of the 176 persons aboard the steamer Admiral Evans, which was wrecked yesterday on the Alaska coast, were landed at Juneau today by the steamer Sophia, according to word received here.

When the Admiral Evans, according to reports, piled up on the rocks, a huge hole was opened in her hull. The engine room was immediately flooded.

Carrying several hundred tons of cannery supplies and a number of cannery workers, the Admiral Evans sailed from Seattle, Wash., March 4, for Alaska ports. Her tonnage is 2,393 and she was launched in 1901. For several years she has been in the Alaska trade.

Jimmy Archer, Former Cub Star, Signed by Pirates

Pittsburgh, Pa., March 10.—Jimmie Archer, former Chicago National and Detroit American catcher, has signed a contract to play this season with the Pittsburgh National league club, it was announced today. He was given an unconditional release by the Chicago club last year.

What Is Rheumatism? Why Suffer from It?

Sufferers Should Realize That It Is a Blood Infection and Can Be Permanently Relieved.

Rheumatism means that the blood has become saturated with uric acid poison.

It does not require medical advice to know that good health is absolutely dependent upon pure blood. When the muscles and joints become sore and drawn with rheumatism, it is not a wise thing to take a little salve and by rubbing it on the sore spot, expect to get rid of your rheumatism. You must go deeper than that, down deep into the blood, where the poison lurks

UNIFORM GRADING SYSTEM FOR WHEAT

Bureau of Markets to Meet at Kansas City to Consider Proposed Plan of Standard Grading.

Farmers, grain dealers, millers and others interested in the growing and marketing of wheat are invited to a meeting of the Bureau of Markets to be held in Kansas City March 18. Tentative rates presented by the Bureau of Markets to apply to the grading of the wheat of next season's crop will be the topic of discussion.

The Kansas City meeting is authorized by the Department of Agriculture and in line with others that have been held, or are to be held at central points in the grain belt of the United States. A meeting dealing with the grading proposition to some extent was held in Omaha last November and out of this meeting grew the idea of fixing a uniform system for the grading of wheat.

It is likely that the Kansas City meeting will be attended by not only a considerable number of the Omaha grain dealers, but by many farmers of the state.

The call for conference comes through D. F. Houston, secretary of agriculture. He calls attention to the fact that the war has brought about fixed prices for wheat and the substantial elimination of competition in wheat transactions and adds that it has placed the milling and baking industries on a new basis and that the regulation of storage, mixing, cleaning and distribution of wheat has altered materially the relative importance of other factors.

Standard System

Under the proposed revision of the grading system as applied to wheat, a standard system is to be adopted. Thus, if on the Omaha market wheat is given a certain grade, that grade will still apply when it reaches final destination to be milled.

The revision will provide for standard grades and will designate the number of pounds to the bushel that each grade, or classification of grade, shall weigh. Hard red, dark northern and northern spring; red winter and the subclasses will be taken into consideration in fixing the rules for grading and the same will apply with reference to the durum and the white wheat.

One thing to come up at Kansas City will be the possibility of making a little more liberal method in the grading of No. 1 wheat. Under the present plan, No. 1 must weigh 61 pounds to the bushel and the berry must be perfect. No. 2 includes all wheat that weighs more than 59 and under 61 pounds to the bushel, providing it is clean and the berry is good.

The opinion of a large number of the grain dealers and most of the farmers is that if wheat weighs better than 60 pounds to the bushel and meets all other requirements, it should grade No. 1 and take the price that goes with this grade. As wheat is now graded, if it weighs a fraction under 61 pounds to the bushel, no matter how perfect the condition may be, it cannot be marked up as better than No. 2.

Spanish Cabinet to Hold

Madrid, March 11.—Premier Marquis de Alhucemas, who Saturday presented the resignation of the cabinet and declined to form a new ministry, last night yielded to the arguments of King Alfonso and agreed to continue in office. No changes will be made in the cabinet.

Kaiser Says Victories Due to Immanuel Kant

Amsterdam, March 10.—Replying to a message of homage from the East Prussian Diet, Emperor William, according to the Tageblatt of Berlin, telegraphed:

"The province of East Prussia is especially dear to my heart. In this war it has made great sacrifices and, therefore, it will more gladly acknowledge the hand of God as now shown in the east. We owe our victory largely to the moral and spiritual treasures which the great philosopher of Konigsberg bestowed upon our people."

The great philosopher of Konigsberg referred to by Emperor William was Immanuel Kant, who was born in 1724 and died there in 1804.

BAKER SAFE IN PARIS; ELUDES GERMAN U-BOATS

Secretary of War Received by Pershing and Bliss: Will Investigate U. S. War Needs.

Washington, March 11.—Upon hearing of Secretary Baker's safe arrival in France through the Associated Press dispatch from Paris, the War department announced that the secretary's visit is purely military and not diplomatic, and is for the purposes of inspection and personal conferences with military officials.

Army Officers Go

Mr. Baker is accompanied by Major General William M. Black, chief of engineers; Lieutenant Colonel M. L. Bratt and Ralph Hayes, his private secretary.

No official report on the secretary's arrival had been received. The department issued this statement:

Issues Statement

"A cable dispatch from Paris to the Associated Press tonight announces the arrival at a French port of the secretary of war.

"For some time Secretary Baker has desired to visit the headquarters of the American expeditionary forces. He sailed from an American port about February 27.

"Secretary Baker has not determined the length of time he will remain in France, but his stay will be long enough to enable him to make a thorough inspection of the American forces abroad and to hold important conferences with American military officers.

Inspect Everything

"It is expected that not only will Secretary Baker visit the American headquarters but his inspection tour will cover construction projects, including docks, railroads and ordnance bases, now under way back of the American lines."

Secretary Baker plans to spend a brief time in France, inspecting in person the concrete results already achieved in the efforts of his department to place in the field this year an army that will be a factor in the campaign. On the eve of his departure, Mr. Baker told members of the press who have been in the habit of seeing him every day that he did not expect to be away for any considerable length of time.

To See Pershing

For several months the war secretary has been eager to see for himself conditions at the front and to talk over with General Pershing the many problems that have arisen to impede the carrying out of the department's plans. It was impossible for General Pershing to come home for

Author of "Keep Home Fires Burning" Dies In a German Air Raid

London, March 11.—The bodies of Mrs. Lena Guilbert Ford, an American poet, and her son, about 30 years old, were discovered today in the wreckage of a house destroyed in the German air raid last week. In this house 12 persons were killed.

Mrs. Ford formerly lived in Elmira, N. Y. She was author of "Keep the Home Fires Burning," one of the most popular of the English war songs. She had made her home recently with her son, Walter, in the northwestern section of London. Her mother, Mrs. Brown of Elmira, was extricated on Friday from the wreckage of the house and taken to a hospital, seriously injured. The Ford home and five adjacent houses were wrecked by a bomb.

such a conference. Mr. Baker therefore determined, after many conferences with President Wilson, to go himself on an inspection tour which will, he believes, better fit him for his great responsibility in meeting general Pershing's requirements in nighting men and materials and keeping in operation a supply line more than 3,000 miles long.

It is regarded as probable, too, that the secretary will take the opportunity to inform the American commander in the field very fully as to all the hopes and aims of the government which are at stake in the war.

Mr. Baker is the first member of President Wilson's cabinet to go to the battle zone. Out of his conferences, not only with General Pershing, but with the leader of the French and British governments, as well, will come direct information for the president as to what is transpiring in the allied countries to aid him in shaping his future course.

The war secretary is in Europe as the president's official representative, and the fact that it is his war secretary and not a diplomatic representative, is regarded as evidence of the determination of the president to press the war aggressively to victory.

Nebraskans at Capital

Washington, March 10.—(Special Telegram.)—Mr. and Mrs. Dexter Barrett of Lincoln are in Washington for a few days. Mr. Barrett being interested in getting the War and Navy department to try a new perfection kettle or cooker, in which a number of well known Nebraskans have a financial interest.

Mr. and Mrs. W. J. Hynes of Omaha are at the New Willard. Edwin T. Swobe of Omaha was in Washington for a short time today on his way to New York. He will return to the capital next week.

Austria Votes Huge New War Credits

Amsterdam, March 11.—The upper house of the Austrian Reichsrath, a Vienna dispatch says, has adopted a provision war credit of 6,000,000,000 kroner for the next four months. During the debate on the bill Dr. von Seydler, the premier, emphasized the necessity for reforms in the Austrian constitution.

For several months the war secretary has been eager to see for himself conditions at the front and to talk over with General Pershing the many problems that have arisen to impede the carrying out of the department's plans. It was impossible for General Pershing to come home for

"The automobile, saving time for the individual, MULTIPLES individual efficiency and capacity.

"The valuable worker, moving rapidly from place to place, THINKING AS HE GOES with comfort and speed, is made infinitely more valuable by the automobile's power."
