SHUMWAY PUTS TO LIFT VALUES

Land Commissioner Disregard-Board in Effort to Reappraise School Land.

(From a Staff Correspondent.)

Lincoln, March 13 .- (Special.)-Land Commissioner Grant Shumway wants to know whether he is a state officer or a mere clerk who is expected to do the bidding of the board of which he is a member, or whether as land commissioner he has any rights over the department he is ex-

This all comes from the fact that several times the State Board of Educational Lands and Funds, of which he is a member and which has charge of the school lands of the state, has refused to listen to the wishes of the land commissioner and has ordered him to do things contrary to his ideas of what should be done.

Shumway Disregarded. Yesterday the board held a meet-

ing to consider the apraisement on school lands in Box Butte and Dawes counties. Representatives of the county boards of both counties were present and their recommendation was taken instead of that of the land commissioner, who had investigated the land.

Commissioner Shumway says in Box Butte county the land has been appraised at from \$1 to \$4 an acre, which is the same as it was appraised at 10 years ago. The board raised it 40 per cent after the land commissioner had urged a raise of 100 per cent based on values of land adjoin-

Example From Dawes.

In Dawes county land appraised at \$1.50 to \$4.50 an acre was raised 50 per cent, when in the opinion of the siders. land commissioner, after viewing the land, it should have been raised 100

The commissioner is vexed with his associates because they took action without waiting for any recommendation from him or giving him a chance to make a showing. He says one tract in Box Butte county valued for sale purposes at \$12.50 per acre is no different in quality from land beside it which is valued for lease purposes at but \$1.75 to \$3 per acre.

Case From Box Butte.

calls attention to a tract of school land three miles north of Alliance, for which a man in Omaha has offered a rental value of \$10 per acre. yet the board places a valuation upon it of only \$2 an acre.

The constitution prescribes for the \$2,000 a year and officiate as a member of the Board of Educational Lands several duties, but none which would indicate his standing either as a clerkor a sure-enough state officer.

This Pinned-on-Trimming Millinery Service Is Bringing Scores and Scores of Women Here

MANY WOMEN like to have a voice in the selection of the trimming to be used on their Hats. and to make this as easy of accomplishment as possible, we originated this Pin-On-Trim Service a few months ago. We select shapes, scores of them, and then our experts pin on the trimmings they think most appropriate. These are displayed on tables in the Millinery

Department, with a ticket on each Hat, showing the price of the shape and each bit of trim-if you desire to make a change, you simply add the price of another trim and deduct the price of the old, and when you have it the way you want it, take it home with you and sew on the trimmings.

Then you have the very Hat that you want, with the very
