GERMAN PRESS KNOCKS TEUTON POLICY IN EAST

Frankfurter Zeitung Declares as a Result of Bungling Diplomacy Germany Again Without a Friend.

· Amsterdam, Wednesday, March 13. -Some sections of the German press are becoming uneasy over developments in the far east.

The Frankfurter Zeitung considers that the breaking up of Russia into a number of independent states is a bad RAINBOW TROOPS policy for Germany and urges that the greatest tact and prudence be used in dealing with the border states so that they will not "in the future sign for a reunion with Russia and become so many thorns in Germany's side." The newspaper adds:

"Clearly, the entente policy is to use the Japanese alliance to shove Germany out of Asiatic markets forever. Germany played their game by breaking up Russia. Germany now has no more hope than ever of being able to conduct a far eastern policy except in conjunction with Great Britain and Russia. That is why a weak Russia will not contribute to Germany's ultimate welfare."

Captain von Salzmann, the military

Doubt German Diplomacy.

"Germany too late began to realize that the time might come when the United States and Japan would see that war is not always the most profitable way of settling differences. Germany's Russian policy has played the game brilliantly for Great Britain and the United States. In the same way Germany has increased Holland's debt of gratitude to Great Britain, "It should have been Germany's

game to earn Holland's gratitude by gueranteeing her the safe possession of her East Indian colonies, but in-steed of this she cemented the Anglo-Japanese alliance and delivered the Dutch colonies from Japanese pressure southward by opening the door to Japanese enterprise in Russia.

Japa U. S. Friends.

"Only the most limited intelligence can believe that the break-up of Russia will be to Germany's advantage. The true results of Germany's Russian policy already are patent in the lessening of the differences between Japan and the United States, and the cementing of the Anglo-Japanese alliance and the consequent security of the Anglo-Indian and Australian colonial possessions, as well as the Dutch and French colonies in southeast Asia.

"The consequences are that Germany again finds herself without friends in the world, while Great Britain laughs in the background."

Wife Most Common of

'Stacker" Exemption Claims The man who married after the government's selective service draft law went into effect and seeks to avoid military service on the ground that he has a dependent wife is given as the most common of "slacker" cases by a member of one of the draft boards in Omaha.

Commenting on the work of the boards here, now practically complete so far as the first draft is concerned, this man said there were all kinds of excuses put forth to evade service, but that the most numerous

were those who asked to be excused because of their wives.

On the other side of the picture are the cases of hundreds of men who did everything in their power to get into service despite the fact that the local boards held they were unable to do military service.

Prominent in this class was a Serb-n. While a member of the Serbiar army his feet were permanently injured in a seven-day retreat before the enemy, so that he was disqualified for further military service. He came to America, and as soon as the selective draft law began to operate, appeared before one of the boards here, insisting that he be taken. His request was at first denied, but so request was at first denied, but so inestent was he that the board finally certified him for service. He was overjoyed, but the joy was short lived, for he was discharged at the nment soon after his arrival

London, March 14 .- In last night's air raid one airship crossed the coast and dropped four bombs on Hartlepool. Six dwelling houses were de-molished there and 30 were damaged. Five persons were killed and nine in-

Last night's air raid was the second made i.. two days over England by Zeppelins, which previously had not been employed in these attacks for several months. In neither case, however, was an attempt made to reach the London district, where Gerpropriations to add to the naval fa- man dirigibles met with disaster on previous expeditions. In Tuesday night's raid Hull was bombarded. Hartlepool, attacked last night, is a North Sea port of some 65,000 inhabitants in northern England. In his report on the raid Field Mar-

shal French says: "One or two hostile airships at tacked the northeast coast soon after 9:30 o'clock tonight. About 20 bombs have fallen close to the coast. There are no reports regarding the casual-

ties or damage done as yet." Zep Raid Failed.

The German Zeppelin raid on England Tuesday night was not successful. It reached no objects of miliments, \$650,000; central power plant, tary importance and only one airship succeeded in dropping bombs on a town. Four bombs fell at Hull, but the rest of the aerial raiders wandered aimlessly about the country and their bombs fell in open fields.

On Wednesday afternoon British airplanes attacked munitions works and barracks at Freiburg, Germany, according to an official statement on aerial operations.

Why Chilly Weather **Brings Rheumatism**

Saye skin pores are closed and uric acid remains in blood.

Rheumatism is no respecter of age. sex, color or rank. If not the most dangerous of human afflictions, it is one of the most painful. Those subject to rheumatism should eat less meat, dress as warmly as possible, avoid any undue exposure, and, above all, drink lots of pure water.

Rheumatism is caused by uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and

pain called rheumatism. At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood

of these impurities. Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleas-ant, efferve cent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.-Adv.
