Major Stobart and Harry Lauder, Omaha's Distinguished Guests, Enjoy Meeting Here By MELLIFICIA.

ONDON guests of Mr. and Mrs. William G. Ure, who had heard Major St. Clair Stobart lecture in England recently, just missed the opportunity to hear the celebrated woman major again in Omaha. The Ure guests were Dr. and Mrs. Walter Tucker, Americans, who have lived in London for many years and who spent a few days in Omaha last week on their way to Australia, where Dr. Tucker is called by his chemical business, which

is very useful to the English government.

The Tuckers said that Major Stobart was feted by the best people in England. Major Stobart told her thrilling experiences in the drawing rooms of titled English women, Mrs. Tucker having heard her at the home of the duchess of Marlborough, who was formerly Consuelo Vanderbilt of New

Mrs. Stobart and Omaha's other distinguished guest today, Harry Lauder, are old friends. Mrs. Stobart first met the famous Scot 10 years ago in London, when he was singing at the St. James theater. She did not see him again until last week in St. Santa Barbara, Cal. It seems an interesting coincidence that these two famous people, who have seen war in all its horror, should meet again in the sunny valley of peaceful California and then in the heart of Nebraska

The heads of the different Red Cross organizations in the city arranged a luncheon at the Chamber of Commerce today in honor of the two visitors. 東京市市市

How You Can Aid Your Dealer to Keep Prices Down!

VATION" DRESS

in the late summer; everything was

"Am enclosing a copy of the Paris

THE retail merchant with whom you deal does not like present prices any better than you do. He is the victim of circumstances. The producers of raw materials get more for foods than ever before. For example, during the past fiscal year, Armour and Company paid raisers 47% higher, or more for livestock than during the year 1915 preceding our entry into the war, and with virtually no increase in the total weight received. Thus, it must be obvious that the retailer's stock costs him much more money.

SO TO do the same volume as formerly, a dealer has to tie up considerably increased investment in stock. The interest charges are heavier. And, with other similar factors militating against him, the probability is that his year's profits are no more than they used to be-if, indeed, they are as much. Without relief in sight until things return to normal, it becomes apparent the only way dealers can keep down prices to you is to reduce operating expenses. And here, you can help.

Carry Parcels Home

IF YOU will pay cash and carry purchases home, you can cut bookkeeping and delivery costs. For, these things are charged in the prices you pay.

Another thing-buy your foods in packages, trademarked and backed by the maker's guarantee of quality. Remember, no one can vouch to you for uniform quality on bulk goods.

If you will buy foods in packages instead of in bulk, you will cut the dealer's wage bills and release men for the country's service. A package can be handed down off the shelf quicker than the quantity can be weighed out and wrapped.

And if you will confine your purchases to standardized brands of known value and dependability, you will be helping in another way. Your dealer will not have to keep on his shelves a miscellaneous assortment of different brands of the same article, occupying expensive shelf room and, because they are "stickers", tying up capital and forcing him to increase prices on other goods.

Buy Oval Label Foods

THIS last constitutes an important reason why housewives should buy Armour's Oval Label Products. Under this famous label, which indicates Armour's top quality no matter on what kind of food you find it-at once a trademark and a grademark-you can buy practically everything you need among table staples. Soups, fish, meats, vegetables, condiments, fruits, beverages and many other necessities come under it.

Thus, the Oval Label can assure you of much more than merely the best quality. By enabling the dealer to dispense with slow-moving stock and confine his purchases to one standard brand covering every kind of food, it cuts his cost of doing business and keeps his prices down.

Help your dealer to concentrate his investment in stock by concentrating your purchases on Armour's Quality Products.
