Burgess-Nash Suits Embrace a Style Distinction and Individuality All Their Own

\$25.00 to \$45.00

QUALITY every woman seeks and appreciates, who gives a thought to her wearing apparel, another feature is newness—each day's express brings some new models which are given their first showing—producing a constant ever-changing style exposition.

The style trend is a decided change from seasons past—conservation of wool materials has not brought about a lessening of smart lines and styles of the new suits.

The skirts are narrow, the coat sleeves are tight and the shoulders loose fitting. Where extra materials have been used, if any, is in the ripple flare of the coats.

Some of the new suits show the Eton effects; others the pony jackets, and still others the smart severely tailored effects.

The materials are poplins, serges, tricelines, poiret twills and mixtures.
