

# OMAHA'S DAYLIGHT SNOW WHITE INDEPENDENT PACKING PLANT SKINNER PACKING CO.

Architect's Drawing of the Proposed SKINNER PACKING PLANT to be Erected on the South Side.

This plant will be a model of its kind from an operating and sanitary standpoint. The floors will be so constructed that a hose can be turned on and each floor scrubbed and flushed on the same plan as the deck of a battleship.

The policy of the SKINNER PACKING COMPANY will be to have its plant and building and the operating end better and more

economical than any packing plant in the United States. This will also apply to its full line of products as to high quality. The operating end will be in charge of an expert who has been connected with the industry for years and is well known throughout the United States. The SKINNER PACKING COMPANY products will be better goods produced under better sanitary conditions.

The plant will be located on a thirty-three acre tract just south and west of the present Swift's plant on the South Side.

The location of the SKINNER PACKING COMPANY'S PLANT, consisting of thirty-three acres, is excellent. One of the largest underground sewers in South Omaha runs through this property. There is trackage on the land. Particularly note the close proximity of our plant to the general industry.

PAUL F. SKINNER, Chairman of the Board

ROBERT GILMORE, Secretary

LLOYD M. SKINNER, President and Treasurer

## Only 60% of the Live Stock Received in Omaha During 1917 Was Packed Here

Representatives of the Federal Trade Commission state that independent packing companies are justifiable, and trans-shipping cattle is going against the face of economic law and adding to the cost of the consumer. They also state that the shipment of live stock East instead of dressed meats adds 50% to the burdens of the railroads. Omaha is the logical, practical and necessary point for an independent plant.

A limited amount of 8% GUARANTEED PREFERRED PAR-

TICIPATING STOCK of the SKINNER PACKING COMPANY is now offered at par, \$100.00 per share.

This stock is fully participating in the profits of the company and is preferred as to dividends. There is no promotion stock—Acreage and Plant will be owned by the Company at the actual cash value. The Company is organized on a high-grade basis, and this is a real opportunity for investors to participate in the profits of the Packing House Industry. Fifty-one per cent of the Common

Stock has been purchased outright at par, \$100.00 per share, by officers of the company. There has been no property turned in to the Company in lieu of stock.

The financing of the Company will be handled by the Company's officers and the Board of Directors, and will not be committed to promoters.
