# Gabby Reveals Secret of Cupid and Military

Learn All About Red Star : and Crossers, Soldiers and Doings of Love God HERE

M ANY of the soldiers stationed at Fort Omaha and Fort Crook have come from homes of luxury and, although they are adapting themselves to new modes of living uncomplainingly, they do miss the marble bath room and hot water and p'entiful towels they enjoyed at home. Gabby has learned that a number of Omaha's society matrons have in-•luded their bath rooms in the portion of the home which they have thrown

open to soldier friends. War times change which should always be adapted to the needs or comfort of the guests, explained one pretty Dundee woman, who says she feels like a patriotic hostess and perfectly at ease wien she says to the young lieutenant who often calls to see her daughter (a young Ak-Sar-Ben maid whom you would know if I would mention ber "Make yourself perfectly at home and help yourself to a bath, if

you like." "And," continued the practical patriot with a laugh, "perhaps, in time, it will au fait for young officers to bid adieu to their hostesses by saying, I enjoyed my visit and the bath so much.

Gabby saw a young officer from Fort Omaha hurrying up the sters of a West Farnam street home with a box of flowers in one hand and a box of launday in the other. And it was Saturday, too, so Gabby, who knows so much and tells so little, smiled slyly to herself.

The one pretty little lady who lives in Dundee has a golder g'int to her hair and dresses in shades of brown and blues, which shows that she has a real artist's sense of val.es. Last summer she went on a long! automobile trip east with the family

of a well known grain man. The other principal is a Braiferd academy girl, one of two charm ng sisters. Gabby is told that the romance started in the Red Cross canteen at the post, but the officer in question has been transferred to another station and of course the little lady herself won't tell. She is very busy just now helping in her father's

When the society girls consented to lend their aid to this organization for animal relief, Mr. Mann of the Humane society timidly suggested ways and means. But these girls were simply brought up on tag days and benefit affairs so they went right out, got into the papers, canvassed the right people and brought back the spoils,
