CIVIL ENGINEER OF DENVER TELLS HIS EXPERIENCE

"I Just Can't Praise Tanlac Too Highly," Declares Robert S. Storrs.

Robert S. Storrs, a well known civil engineer, residing at 2235 Cleveland Place, Denver, Colo., tells a remarkable story of his relief from suffering through the use of Tanlac. Mr. Storrs, who has lived in Denver all his life, and who is highly respected by all who know him, declares that the results he has obtained through the medicine are far in excess of his expectations. His statement follows:

"Up until about eight years ago, I was as strong and healthy as a man could ask to be. In fact, I prided myself on my good health and strength and made no particular effort to take care of it. I felt like I could work longer and harder and go longer without eating than other people. I have worked all day long many a day without eating, and then when you come home late at night, eaten a heavy supper and gone to bed, I thought I could keep this up all the time, but suddenly found out differently and everything in the region of my stomach seemed to go wrong. My appetite seemed to go back on me and everything I ate tasted just alike. In other words nothing had any taste. I had no desire for food of any kind and never enjoyed eating at all. I just forced myself to eat a little and then before long I began to have an awful amount of gas on my stomach and terrible pains after eating. I thought I was going to die. I could not sleep at night and decided it was about time I was trying to get my troubles checked up. I was examined and told that I had a very bad stomach. I went under treatment but failed to get any relief. Finally I was induced to try Tanlac. I read in the papers and advertisements I read in the papers of one bottle so far the results have been wonderful. I feel just like a different man already, my strength is coming back rapidly and I can work as well now as I could before I got sick, but I'm going to be more careful and not overdo things like I once did. My appetite is fine and I can eat anything I want without having any gas or pain from it. I enjoy all my meals and I feel different and give me strength. I sleep like a log and feel so much better in every way since taking Tanlac, that I feel like I just can't praise it too highly."
