## GERMAN SPY BUSY WITHIN LINES OF SAMMIES AT TOUL

(Continued From Page One.) Exclusively of New England units. The division contained units from all the New England states, troops from Massachusetts having been especially active.

The identification of these troops up to this time has been prohibited by the censor. The restriction was removed when it was discovered that the Stars and Stripes, a newspaper published by and for the troops of the American expeditionary forces, had contained in its latest edition a story disclosing their identity.

## FRENCH BATTLE WAY 800 YARDS INTO FOE'S LINES

### Germans Enter Trenches at Various Points, But Are Driven Back With Heavy Losses.

(By Associated Press.) French and German troops have been engaged in heavy fighting on both sides of the Meuse in the Verdun sector.

West of the river the French have gained the enemy positions on a front of about 1,400 yards to a depth of 800 yards, while east of the river the Germans were unsuccessful in strong attacks on a six-mile front.

Sunday the Germans sent heavy forces against the French positions at Samogneux, north of the Bois de Caucieres and near Bezonvaux. They entered the French line at various points. Violent French artillery fire inflicted heavy loss on the attackers and they were unable to hold onto the trenches they had gained.

The French success west of the river was made at Malancourt, west of Dead Man hill. At the Cheppy wood, immediately west of Malancourt, the French late Friday penetrated trenches on a front of 800 metres to a depth of 300 metres. After destroying the positions, the French returned with 80 prisoners and seven machine guns. East of Rheims, in the Champagne, German troops momentarily gained a footing in French positions west of Vaudesincourt, but suffered heavily under a French counter attack, which restored the situation.

an important commercial center and capital of the province of the same name.

The all-Russian congress of soviets has declared Moscow to be the Russian capital and it is said that all government and military effects have been removed from Petrograd. The bolshevik leaders, although they urged and obtained ratification of the German peace treaty, are said to have little hope that the treaty will bring peace and are calling upon the local soviets to form military organizations with which to combat the Germans should their invasion continue further into the heart of Russia.

## BELGIANS TAKE COAST SECTOR ON WESTERN FRONT

On the British Front in Flanders, Sunday, March 17.—The important coast sector of the western front, which for a considerable time has been held by the French, has been taken over by the Belgians.

That King Albert's new army has been able to assume this additional burden speaks highly for the condition of this comparatively small fighting machine which has battled so valiantly from the beginning. On a recent visit to the Belgian front the correspondent learned that the Belgians had effected a great improvement in their organization during the winter months and certainly the morale of troops and officers seems at the highest pitch.

Lieutenant Colonel De Ceynneck, the minister of war, informed the correspondent that it sometimes had been difficult to restrain the Belgian soldiers until the proper moment for action came. The war minister seemed to reflect the general voice of the army when he said: "Whenever the call comes we shall be waiting to respond with every atom of strength we have."

## Urge New Water Power Laws to Meet War Needs

Washington, March 18.—The administration's water power legislation was advocated at a hearing before the house interstate commerce committee today as necessary, because of industrial expansion, due to the war.

Secretary Lane, who was to have appeared, will speak for the bill later in the week.

C. C. Merrill of the forestry service was the principal witness today.

## Germany Masses Many Men on the Western Front

(Continued From Page One.) ers swept forward into the German second line. Our men remained nearly an hour in the German positions, and retired after inflicting much damage and capturing considerable quantity of material.

"There has been a decided increase in sniping, owing to more favorable weather conditions.

"We kept up a vigorous bombardment on the rear areas opposite our Toul sector.

"Near the Swiss border, where another detachment of our men are in the trenches, hostile bombardments are frequent.

"The arrival of our secretary of war in France is noted. During the last week the secretary has had interviews with the leading French authorities and is about to undertake a careful inspection of our schools, training areas, rest camps, as well as those sectors of the front where our forces are in action.

On the West Front. "The western front, from the North Sea to the Aisne, was the scene of much hard fighting.

"The Germans carried out a number of air raids against London and Paris. Allied aviators raided German industrial centers of the Rhine region.

"In the Italian theater the arrival of more hostile units and the concentration of material coming from Germany is noted in the area east and west of the Lake of Garda, which would point to hostile operations having Verona and Brescia as their objectives.

In the eastern theater the chief operation of the week culminated in the capture of Odessa. The occupation of Odessa will no doubt be of economic importance to the enemy.

In Finland fighting continues. German infantry has landed at Abo and the arrival of important additional German forces on the Aland islands is reported.

In Palestine the British have pushed their lines 18 miles north of Jerusalem.

# Spring Coats and Suits With Exclusive Features

An Offering Today of Original Wooltex Models Direct from the Great Metropolitan Style Centers

NOW, in this one fascinating display, are concentrated the leading Coats and Suits of this season.

The woman who is about to buy for Spring may well be congratulated on this unusual opportunity to see at first hand the latest authentic and accepted Metropolitan fashions.

In over a thousand smart Wooltex stores throughout America these fashions, now on display, are proving to be the favorites with discriminating dressers.

We do not say style is the sole reason for the remarkable success and popularity of Wooltex Coats and Suits.

Especially in war-time, women who have their eyes wide open to every point, big and little, that counts towards getting money's worth, demand pure wool fabrics, silk-sewed seams, separately tailored and fitted linings, lines

and style features planned with the utmost nicety to do just what is expected of them. To be exact, we could tell you twenty-seven distinct and important points of superiority. From coat to coat, discriminating women call these Wooltex Points, because so many of them are exclusive with Wooltex Tailored Garments.

If you are earnestly trying to get more than ordinary style and service from clothes, we suggest that you understand Wooltex before you buy your Easter Coats and Suits.

One store in your city, known for its courtesy and its ability to serve well, has the exclusive right to sell Wooltex. The important Easter Showing of Wooltex Coats and Suits for Young Women is now going on. Ask to have the Wooltex Points explained.
